[Security news]

RESEARCHERS TO BUILD MODEL OF INTERNET - TO DESTROY IT

A team of professors from the University of California-Berkeley and University of Southern California has received a \$5.46 million grant to build one of the most realistic models of the Internet - and then wreck it with debilitating hacker attacks.

<http://www.net-security.org/news.php?id=4000>

ORACLE ROW LEVEL SECURITY: PART 1

This paper explores the row level security feature added to Oracle 8i and above, and provides examples. One of the main uses of row level security is to allow all of a company's data to be stored in one database for different departments, or for a hosting company to store data for different companies in one database.

<http://www.net-security.org/news.php?id=4001>

SHOPPERS WARNED OF £110M CARD NOT PRESENT FRAUD

The UK's shoppers are being warned to be on their guard after it emerged that Internet fraud is contributing to a £110 million a year racket.

<http://www.net-security.org/news.php?id=4002>

HACKERS REACH DEFENCE FILES: REPORT

Hackers have reportedly accessed top-secret files inside the Department of Defence.

<http://www.net-security.org/news.php?id=4003>

PAPER FINDS NEW WIRELESS STANDARD LESS SECURE

A new paper by a leading security expert says that the new Wi-Fi Protected Access (WPA) security standard may be less secure, in certain scenarios, than WEP, the wireless standard it was designed to replace.

<http://www.net-security.org/news.php?id=4004>

CRYPTO SYSTEM PROMISES SECURITY OVER FIBER-OPTIC LINES

A quantum-key distribution and encryption system developed by Magiq Technologies Inc. and called the Navajo Security Gateway promises unbreakable encryption over existing fiber-optic lines.

<http://www.net-security.org/news.php?id=4007>

AS THE SEASON CHANGES, SO DOES SPAM

Spammers have begun targeting those who view the Christmas and holiday season as a time for big spending, the content filtering software firm ClearSwift says.

<http://www.net-security.org/news.php?id=4008>

A PEEK BEHIND THE 'WALLOP' FIREWALL

Microsoft Research is looking at how to leverage blogs, RSS feeds, wikis and other social-networking tools.

<http://www.net-security.org/news.php?id=4009>

FBI ON LOOK-OUT FOR FOREIGN GOVERNMENT HACKERS

How seriously does the U.S. government take computer intrusion?

<http://www.net-security.org/news.php?id=4010>

COMPUTER VIRUSES NOW 20 YEARS OLD

This week computer viruses celebrate 20 years of causing trouble and strife to all types of computer users.

<http://www.net-security.org/news.php?id=4011>

SSL NETWORKING HEATS UP

The market is heating up for products that allow secure access to corporate networks based on a widely used browser security technology known as secure sockets layer encryption.

<http://www.net-security.org/news.php?id=4012>

MICROSOFT PREPARES SECURITY ASSAULT ON LINUX

Microsoft is preparing a major PR assault over Windows' perceived security failings in which it will criticise Linux for taking too long to fix bugs, we have learned.

<http://www.net-security.org/news.php?id=4013>

SPAM SLAYER: LAWS WON'T SOLVE EVERYTHING

Feds, states take aim at spam, but legislation won't stop the onslaught.

<http://www.net-security.org/news.php?id=4014>

SINGAPORE CLAMPS DOWN ON HACKERS

Ultra-strict Singapore has passed some of the world's toughest laws against computer hackers and virus writers, allowing police to arrest suspects before they strike, official documents show.

<http://www.net-security.org/news.php?id=4015>

THE MIND OF A HACKER

Marc Maiffret is a hacker. Maiffret started hacking about six years ago, at age 16, when a friend at school introduced him to computers, and he got hooked on a digital-age narcotic: information.

<http://www.net-security.org/news.php?id=4016>

EXPERTS QUESTION WINDOWS PATCH POLICY

Microsoft will release a series of security patches after midnight tonight in line with its new policy of releasing patches on a monthly schedule.

<http://www.net-security.org/news.php?id=4017>

KANSAS AUDITORS CRACK 1,000 PASSWORDS

The Kansas Health and Environment Department has serious IT security and disaster recovery problems, the state's legislative auditor has found.

<http://www.net-security.org/news.php?id=4018>

TOP SECURITY OFFICERS FORM THINK TANK

A group of top security officers from some of the industry's largest companies will announce Wednesday that they are banding together to form a new global security think tank.

<http://www.net-security.org/news.php?id=4021>

DID HACKERS EXPOSE N-GAGE GAMES?

Mobile phone giant Nokia is investigating whether hackers managed to disable security that protects its N-Gage cell phone games.

<http://www.net-security.org/news.php?id=4022>

A VA SCANNER GEEKS WILL LOVE

Tenable Network Security's NeVO features impressive vulnerability reports, but lacks administration and management functionality.

<http://www.net-security.org/news.php?id=4023>

HP PUSHES IT MANAGEMENT STRATEGY

As part of its "adaptive enterprise" push, Hewlett-Packard on Tuesday announced new services and software for managing information technology operations.

<http://www.net-security.org/news.php?id=4024>

WORLDPAY RECOVERS FROM MASSIVE ATTACK

WorldPay's systems are back running normally this week following the most serious and sustained Internet attack on a UK business to date.

<http://www.net-security.org/news.php?id=4025>

SECURE DATA EXCHANGE ON PALM OS 5

This article shows you how to use the Palm OS 5 SSL APIs for secure data communication.

<http://www.net-security.org/news.php?id=4026>

SPAM CLEANING WITH THE BIG BOYS

You think you've got spam problems with a hundred or so spam messages a day? Try being an ISP or a business where on a good day you don't get more than a one hundred thousand spam mails a day.

<http://www.net-security.org/news.php?id=4027>

SECURITY A RISK(Y) MANAGEMENT ISSUE

"Security is not a technology issue, it is a process issue," says Meta Group security and risk strategies VP Paul Proctor.

<http://www.net-security.org/news.php?id=4029>

IDENTITY THEFT HITS HOME

Hartman advises people to check identity online regularly.

<http://www.net-security.org/news.php?id=4030>

KEEP YOUR SECURITY CHIN UP

Agency officials should adopt a positive way of thinking when it comes to addressing system security, according to one expert.
<http://www.net-security.org/news.php?id=4031>

THOUGHT FOR THE DAY: ARE YOUR WINDOWS SECURE?

Companies should worry less about migrating to new operating system and concentrate more on its security.
<http://www.net-security.org/news.php?id=4034>

WIRELESS HACKING BUST IN MICHIGAN

In a rare wireless hacking prosecution, federal officials this week accused two Michigan men of repeatedly cracking the Lowe's chain of home improvement stores' nationwide network from a 1995 Pontiac Grand Prix parked outside a suburban Detroit store.
<http://www.net-security.org/news.php?id=4035>

REPORT WARNS JOB SEEKERS TO GUARD PRIVACY

People who look for work on the Internet may be giving away personal information that could compromise their privacy, according to a report released Tuesday.
<http://www.net-security.org/news.php?id=4036>

PATCHING RHYTHM: START A MONTHLY PATCH PROCESS

On the topic of security alerts and patches, Microsoft Corp. is undoubtedly the 800-pound gorilla.
<http://www.net-security.org/news.php?id=4037>

IS CYBERTERRORISM A PHANTOM MENACE?

Gartner's information security and risk research director has dismissed cyberterrorism as a "theory."
<http://www.net-security.org/news.php?id=4038>

MICROSOFT'S NEW SECURITY MOJO

Recently, Microsoft announced a program to offer rewards in exchange for information leading to the arrest and conviction of those who exploit its flagship Windows product through viruses, worms, and other forms of malicious code.
<http://www.net-security.org/news.php?id=4039>

PRIVACY BIGGER WORRY THAN SECURITY

Questions of privacy dominated a panel discussion held at the Security Special Interest Group (SSIG) in Cape Town recently, as members of the audience seemed more concerned about protecting personal information than they were about security.
<http://www.net-security.org/news.php?id=4040>

MANAGING USER ACCOUNTS IN LINDOWS

Although Lindow doesn't require user accounts, it's a good idea to create them anyway --here's why and how to do it.
<http://www.net-security.org/news.php?id=4041>

BANKING SCAM REVEALED

A detailed analysis of the recent "phishing" scam that targeted Citibank customers. This paper describes the use of compromised hosts, Website redirection and the specifics of a unique bulk mailing tool that has been repeatedly used in the recent rash of financial email scams.
<http://www.net-security.org/news.php?id=4042>

ATM FRAUD PREVENTION TIPS

First National Bank's Card Security Week aims to highlight the predominant fraud issues pertaining to card security.
<http://www.net-security.org/news.php?id=4043>

WILL SECURITY FALLOUT DULL MICROSOFT LONESTAR'S SHINE?

Chairman Bill Gates will be walking a fine line, come Comdex 2003. Security can't play second fiddle to the latest Tablet advances this year.
<http://www.net-security.org/news.php?id=4044>

NEW WINDOWS WORM ON THE WAY?

With the posting Wednesday of proof-of-concept exploit code for one of the newly discovered vulnerabilities in Windows, the familiar chain of events that often leads to the release of a worm has begun.
<http://www.net-security.org/news.php?id=4045>

GAMESPY WARNS SECURITY RESEARCHER

Online-gaming service provider GameSpy Industries acknowledged this week that it had sent an Italian hacker a cease-and-desist letter requesting that he remove advisories and utilities that highlight vulnerabilities in the company's products.
<http://www.net-security.org/news.php?id=4046>

AL-JAZEERA HACKER SENTENCED

A Los Angeles-area man has been fined and sentenced to community service for hacking into the Web site of satellite TV network Al-Jazeera during the U.S.-led war in Iraq and rerouting visitors to a page featuring an American flag and the motto "let freedom ring."
<http://www.net-security.org/news.php?id=4047>

CRACKING THE HACKER UNDERGROUND

Computer hacking communities and their tools are not hard to find on the net.

<http://www.net-security.org/news.php?id=4048>

CISCO LAUNCHES NEW 'G' WIRELESS DEVICES

Cisco Systems Inc. introduced a lineup of new products during its wireless LAN (WLAN) advanced technology event in San Jose, California, on Wednesday which, according to one customer, are necessary for running today's businesses.

<http://www.net-security.org/news.php?id=4049>

STRONG HOLIDAY E-COMMERCE FORECAST TEMPERED BY SECURITY FEARS

BSA vice president Bob Kruger said his organization will work with the Better Business Bureau to help educate consumers about ways to protect themselves as they shop online.

<http://www.net-security.org/news.php?id=4050>

BLACKMAIL LATEST SCAM FOR HACKERS

The rapid growth of broadband home computer connections may be inadvertently fueling what police suspect could be the start of a new crime wave - cyber-blackmail.

<http://www.net-security.org/news.php?id=4051>

FIRST LOOK AT SBS 2003 SECURITY

Meeting the goals of the Trustworthy Computing initiative.

<http://www.net-security.org/news.php?id=4052>

ARE YOU BEING WATCHED ONLINE?

Here's a sobering thought: While you're looking at your computer, it may be looking back at you. There is easy-to-get, even free, software that lets anybody spy on you, anytime you are on your computer.

Articles can be contributed to articles@net-security.org

WEB APPLICATION HACKING: EXPOSING YOUR BACKEND
Access to the application must be allowed by firewalls and access control lists, otherwise the application won't work. This inherent trust is precisely what attackers attempt to exploit.
<http://www.net-security.org/article.php?id=599>

MICROSOFT RELEASES SECURITY UPDATES FOR NOVEMBER
These new security updates address newly discovered issues in Microsoft Windows, including Internet Explorer. Two of the updates are ranked as "Critical" while one is ranked as "Important" and if you're using the affected software you should install them immediately.
<http://www.net-security.org/article.php?id=601>

ATTACKING THE DNS PROTOCOL
This paper whilst containing nothing new on DNS security brings together in one document many strands of DNS security which has been published and reported in many separate publications before. As such this document intends to act as a single point of reference for DNS security.
<http://www.net-security.org/article.php?id=600>

NESSUS SCANNING ON WINDOWS DOMAIN
This paper is about using Nessus to scan Windows networks and various scenarios one might encounter.
<http://www.net-security.org/article.php?id=598>

[Reviews]

All reviews are located at:

WINDOWS XP HACKS

This is probably the single most valuable book about Windows XP you'll ever come across. If you're a complete novice to this version of Windows, you'll have to get more reading material aimed at new users first, but once you get a grip on the basics, this book will open a whole new world of possibilities.

<http://www.net-security.org/review.php?id=113>

RED HAT LINUX POCKET ADMINISTRATOR

As it is always with this kind of a pocket reference type of books, you'll either love 'em or hate 'em. They don't hold enough information about the topics they are covering, but on a positive side, they provide a time-saving way to refresh your knowledge on some specific topic.
