

HNS Newsletter

Issue 191 - 08.12.2003.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

Get Thawte's NEW Step-by-Step SSL Guide for Apache

In this guide you will find out how to test, purchase, install and use a Thawte Digital Certificate on you Apache web server.

Throughout, best practices for set-up are highlighted to help you ensure efficient ongoing management of your encryption keys and digital certificates.

Get you copy of this new guide now:

[Security news]

BILL GATES TALKS SEAMLESS COMPUTING, SECURITY, AND LINUX

In an interview, Microsoft's chief software architect says customers will be open to new uses of technology once security problems are under control.

<http://www.net-security.org/news.php?id=4155>

EXCHANGE TO RECEIVE ANTI-SPAM FILTER

Microsoft to build in similar technology as in Outlook and Hotmail.

<http://www.net-security.org/news.php?id=4156>

PRIVATE RECORDS MAY BE AT RISK

Someone in Asia may be looking at your income tax returns or reading sensitive doctors' notes about your medical history.
<http://www.net-security.org/news.php?id=4157>

.NAME REGISTRY WEBSITE DEFACED

On Saturday, November 29, 2003 a post on the GNSO mailing list indicated that the .name registry website had been defaced.
<http://www.net-security.org/news.php?id=4158>

RED HAT LINUX TO GAIN SECURITY STAMP OF APPROVAL

Red Hat is pushing to have its commercial Enterprise Linux software certified under the Common Criteria (CC) Scheme worldwide, and has anticipated the OS solution will gain accreditation by the end of this year.
<http://www.net-security.org/news.php?id=4159>

THE TEN COMMANDMENTS OF PC SECURITY

Fight off nasty viruses, worms, and Trojan horses by following these simple rules.
<http://www.net-security.org/news.php?id=4160>

SYMANTEC CALLS FOR PARTNER TEAMWORK

Vendors and resellers urged to collaborate on end-to-end security products.
<http://www.net-security.org/news.php?id=4161>

PASSWORD HINT: THINK WHETHER YOURS IS GOOD ENOUGH

Problems and costs, tips and alternatives. Tony Hallett reports on what the industry is saying - and whether passwords are enough.
<http://www.net-security.org/news.php?id=4162>

READERS WOULDN'T BUY SECURITY PRODUCTS FROM MICROSOFT

Microsoft's latest security initiative, "Securing the Perimeter," shows it hasn't given up in its battle against hackers and virus writers.
<http://www.net-security.org/news.php?id=4163>

DEBIAN ATTACKER MAY HAVE USED NEW EXPLOIT

An as-yet-unknown security exploit in Linux may have been responsible for a recent compromise of Debian.org's servers, according to a system administrator with the Debian operating system project.
<http://www.net-security.org/news.php?id=4164>

A TWO-PRONGED APPROACH TO CYBERSECURITY

In September, Amit Yoran became the United States' top cybersecurity defender.

<http://www.net-security.org/news.php?id=4166>

GOVERNMENT ROLE IN IT SECURITY - FREE HAND OR IRON FIST

Cyberspace is not what it used to be. The on-line world is hostage to a motley crew of unsavory characters determined to milk it for all it is worth.

<http://www.net-security.org/news.php?id=4167>

ROGUE DIALLERS NOW USE SATELLITE

The German site Dialerschutz (Dialler Protection) warns Internet users against new rogue diallers which connect through Emsat, Eutelsat's satellite system. Internet users have been faced with exceptionally high phone bills.

<http://www.net-security.org/news.php?id=4168>

NORTH KOREA LAUNCHES 'SECURE' EMAIL

Little is known about how many people are online in North Korea, but the country is claiming to have launched an email service with 'guaranteed' security.

<http://www.net-security.org/news.php?id=4169>

CRIME SOMETIMES PAYS

Most spam is simply advertising. However, a small proportion of messages have a malicious purpose, which can range from simple vandalism through to theft and industrial espionage.

<http://www.net-security.org/news.php?id=4170>

EXPLOITING CISCO ROUTERS: PART 2

This is the second of a two-part series that focuses on identifying and then exploiting vulnerabilities and poor configurations in Cisco routers. This article will look at what we can do once we've gotten in.

<http://www.net-security.org/news.php?id=4171>

SPAMMERS TURN TO CLASSIC PROSE

Poetry is probably not top of the list of things you expect to see in the spam and junk mail messages landing in your inbox everyday.

<http://www.net-security.org/news.php?id=4172>

THE PERFECT SETUP - DEBIAN

This is a detailed description about the steps to be taken to setup a Debian based server that offers all services needed by ISPs and hosters.

<http://www.net-security.org/news.php?id=4173>

SQL SERVER SECURITY TIPS: PART 1

Greg Robidoux, a Microsoft SQL Server expert who focuses on security, is chairman of the Professional Association for SQL Server DBA Special Interest Group (PASS DBA SIG).

<http://www.net-security.org/news.php?id=4174>

KERNEL EXPLOIT CAUSE OF DEBIAN COMPROMISE

The cause of the recent Debian Project server compromise has been published by the Debian security team.

<http://www.net-security.org/news.php?id=4175>

STUDY: FIREWALL SALES TO SPREAD

The market for firewall software and devices will jump 25 percent in the next two years to nearly \$2.5 billion in worldwide sales, research firm Meta Group has predicted in its latest report.

<http://www.net-security.org/news.php?id=4177>

BIGGEST SECURITY PROBLEM--IT'S HUMAN

If we can rely on one other certainty in this world other than death and taxes, it is forgotten passwords.

<http://www.net-security.org/news.php?id=4178>

WINDOWS ATMS RAISE SECURITY CONCERNS

Use of general-purpose platform expected to increase risks.

<http://www.net-security.org/news.php?id=4179>

CHINA IMPLEMENTS NEW WI-FI SECURITY STANDARD

Chinese government agencies are prohibiting the import, manufacture and sale of WiFi gear that does not use China's new security specification, which is incompatible with standards technology industry groups developed.

<http://www.net-security.org/news.php?id=4180>

LINUX USERS: ARE YOU AT RISK FROM KERNEL EXPLOIT?

Using this bug it is possible for a userland program to trick the kernel into giving access to the full kernel address space.

<http://www.net-security.org/news.php?id=4181>

AGENCIES TO GET SECURITY SCORES

Agencies will soon receive grades for their progress in information security.

<http://www.net-security.org/news.php?id=4182>

A PLAGUE ON ALL OUR NETWORKS

The number of attacks on UK networks is soaring, with even the smallest firms facing an average 500 assaults each month from viruses, worms and denial of service attempts.

<http://www.net-security.org/news.php?id=4183>

BEST PRACTICES: AVOIDING COMPUTER WORMS

Despite the stories pervading headlines about computer criminals, a disproportionate number of security incidents occur because that age-old problem: user error.

<http://www.net-security.org/news.php?id=4184>

DELL TO TECHS: DON'T HELP CUSTOMERS REMOVE SPYWARE

As seen in the latest newsletter from SpyWareInfo, Dell sent an internal memo to its tech support minions which says in part: "NOTICE: Use of spyware removal software may conflict with user license agreements of other applications installed on your system. Please consult your user license agreements for further information. Dell does not endorse the use of spyware removal software and cannot provide support on these products."

<http://www.net-security.org/news.php?id=4185>

VIRUS ATTACKS ANTI-SPAM SITES

Security experts have warned that yet another new variant of the malicious computer worm Mimail is on the loose.

<http://www.net-security.org/news.php?id=4186>

TECH INDUSTRY PUT ON SECURITY NOTICE

At first blush, the National Cyber Security Summit had all the makings of a tech industry love fest.

<http://www.net-security.org/news.php?id=4189>

TECH INDUSTRY WORKS TO STEM NEW SECURITY RULES

Large vendors are trying to persuade the government that the rules are unnecessary because they're already taking aggressive steps to defend against hackers.

<http://www.net-security.org/news.php?id=4190>

CRACKERS STRIKE GENTOO LINUX SERVER, CODE UNHARMED

In the latest of what is becoming a string of high-profile attacks on Linux, someone broke into one of the servers used to distribute versions of Gentoo Linux on Tuesday.

<http://www.net-security.org/news.php?id=4191>

HECKENKAMP CHALLENGES COMPUTER BAN

Accused eBay hacker Jerome Heckenkamp is back in federal court in California this month, but it isn't for his ever-slipping trial date.

<http://www.net-security.org/news.php?id=4192>

CISCO WI-FI KIT IN MINOR SECURITY FLAP

Cisco yesterday warned of a security vulnerability in the software running on its popular line of Aironet wireless LAN access points.

<http://www.net-security.org/news.php?id=4193>

LINUX SECURITY EXPERT DEFENDS DEBIAN

Debian Project leaders did a good job before and after a breach that took down their servers Nov. 21 said Jay Beale, lead developer on the Bastille Linux project and a consultant at JJB Security Consulting & Training.

<http://www.net-security.org/news.php?id=4194>

MICROSOFT OFFICIAL: WEB VIRUS AUTHORS WINNING BATTLE

Creators of computer viruses are winning the battle with law enforcers and getting away with crimes that cost the global economy some \$13 billion this year, a Microsoft official said on Wednesday.

<http://www.net-security.org/news.php?id=4195>

CYBERSECURITY TALK IS CHEAP

Less than a year after the Bush administration unveiled its National Strategy to Secure Cyberspace, the finger pointing over who is to blame for failing to implement its recommendations has already begun.

<http://www.net-security.org/news.php?id=4196>

SECURITY FLAW FOUND IN YAHOO MESSENGER

Vulnerability in popular instant messaging app rated critical.

<http://www.net-security.org/news.php?id=4197>

REPORTER'S NOTEBOOK: AT THE DHS NATIONAL CYBER SECURITY SUMMIT

Officials urged the IT community to take the threat of cyberterrorism seriously.

<http://www.net-security.org/news.php?id=4199>

THE GROWING PROBLEM OF IDENTITY THEFT

Losses from identity theft in the US in the past year are estimated to have amounted to around \$50 billion.

<http://www.net-security.org/news.php?id=4200>

HOLLYWOOD: NORWEGIAN HACKER A BURGLER

A Norwegian hacker who has angered Hollywood by cracking a DVD copy protection code is a cyberspace version of a burglar, plaintiffs told an Oslo appeals court Thursday.

<http://www.net-security.org/news.php?id=4201>

WIFI PRODUCTS ROLL DESPITE SECURITY DEBATE

A Cisco security problem punctuates arguments for and against widespread deployment of wireless networks.

<http://www.net-security.org/news.php?id=4202>

TIME IS RIGHT FOR DATABASE ENCRYPTION

Are data-privacy regulations and dreams about stolen employee data keeping you up at night? It may be time to protect your data where it lives--in your database.
<http://www.net-security.org/news.php?id=4203>

15 COMPANY NETWORKS PENETRATED

A computer expert who hacked into the networks of 15 Londonderry firms in an afternoon, today defended his illegal bid to expose lax computer security.
<http://www.net-security.org/news.php?id=4204>

LIMITED CHOICE FOR LINUX VIRUS PROTECTION

Boxall's CC, the South African distributor of Norway's Norman data security products, says Norman Virus Control (NVC) is the only locally supported anti-virus solution specifically for Linux.
<http://www.net-security.org/news.php?id=4206>

COPPING OUT ON CYBERSECURITY

After convincing the government to back off, it's now time for Silicon Valley to come up with a way to plug the lingering security holes in the national network infrastructure.
<http://www.net-security.org/news.php?id=4207>

(SSA:2003-337-01)
<http://www.net-security.org/advisory.php?id=2780>

SGI Security Advisory - Multiple OpenSSH/OpenSSL
Vulnerabilities Update (20030904-02-P)
<http://www.net-security.org/advisory.php?id=2779>

HP Security Bulletin - Tru64 UNIX CDE libdthelp.so potential
privileged access and Denial of Service (SSRT3657)
<http://www.net-security.org/advisory.php?id=2778>

Gentoo Linux Security Announcement - rsync.gentoo.org
rotation server compromised (200312-01)
<http://www.net-security.org/advisory.php?id=2777>

SUSE Security Announcement - gpg (SuSE-SA:2003:048)
<http://www.net-security.org/advisory.php?id=2776>

Turbolinux Security Announcement - kernel Integer overflow
(03/Dec/2003)
<http://www.net-security.org/advisory.php?id=2775>

SGI Security Advisory - do_brk() vulnerability on SGI
Altix systems (20031201-01-A)
<http://www.net-security.org/advisory.php?id=2774>

Red Hat Security Advisory - Updated Net-SNMP packages
fix security and other bugs (RHSA-2003:335-01)
<http://www.net-security.org/advisory.php?id=2773>

Slackware Security Advisory - Kernel security update
(SSA:2003-336-01)
<http://www.net-security.org/advisory.php?id=2772>

Cisco Security Advisory: SNMP trap Reveals WEP Key in
Cisco Aironet AP (20031202)
<http://www.net-security.org/advisory.php?id=2771>

HP Security Bulletin - Tru64 UNIX Bind Version 8 potential
security (SSRT3653)
<http://www.net-security.org/advisory.php?id=2770>

SCO Security Advisory - UnixWare 7.1.1 : Bind: cache poisoning
BIND 8 prior to 8.3.7 and BIND 8.4.x prior 8.4.2 (CSSA-2003-SCO.33)
<http://www.net-security.org/advisory.php?id=2769>

Red Hat Security Advisory - Updated 2.4 kernel fixes
privilege escalation security (RHSA-2003:392-00)
<http://www.net-security.org/advisory.php?id=2768>

Trustix Secure Linux Security Advisory - kernel (#2003-0046)
<http://www.net-security.org/advisory.php?id=2767>

Mandrake Linux Security Update Advisory - kernel (MDKSA-2003:110)
<http://www.net-security.org/advisory.php?id=2766>

Debian Security Advisory - userland can access Linux
kernel memory (DSA-403-1)
<http://www.net-security.org/advisory.php?id=2765>

SOT Linux Security Advisory - Updated postgresql package
for SOT Linux 2003 (SLSA-2003:54)
<http://www.net-security.org/advisory.php?id=2764>

FreeBSD Security Advisory - bind8 negative cache poison
attack (FreeBSD-SA-03:19.bind)
<http://www.net-security.org/advisory.php?id=2763>

Mandrake Linux Security Update Advisory - gnupg (MDKSA-2003:109)
<http://www.net-security.org/advisory.php?id=2762>

SUSE Security Announcement - bind8 (SuSE-SA:2003:047)
<http://www.net-security.org/advisory.php?id=2761>

[Articles]

All articles are located at:
http://www.net-security.org/articles_main.php

Articles can be contributed to articles@net-security.org

REAL WORLD XSS

This paper covers most aspects of XSS attacks including: injection points, attack scenarios, attacker motivations and techniques, code obfuscation examples, starts laying a foundation on proper filtering framework.

<http://www.net-security.org/article.php?id=608>

CIRCUMVENTING VALIDATION

Web developers spend a lot of time planning out complex chains of events to make their web applications work. Within the planning and outlines, implicit control over the chain of events is often assumed. This paper is an introduction to breaking those assumptions and realizing just how vulnerable those chalk board outlines can be in the real world.

<http://www.net-security.org/article.php?id=609>

IMPROVING THE DATABASE LOGGING PERFORMANCE OF THE SNORT NETWORK INTRUSION DETECTION SENSOR

The performance requirements of the popular Snort NIDS has been studied before. However, in addition to the performance of the NIDS sensor itself, the database that receives and stores alerts can play a role in determining overall performance.

<http://www.net-security.org/article.php?id=610>

[Software]

Windows software is located at:

http://net-security.org/software_main.php?cat=1

Linux software is located at:

http://net-security.org/software_main.php?cat=2

QWIK-FIX 0.57

Qwik-Fix is designed to pro-actively prevent known software vulnerabilities in Windows and Internet Explorer from being exploited by malicious hackers, virus writers and worm writers.

<http://www.net-security.org/software.php?id=525>

NUFW 0.6

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

LINUX-VSERVER 1.1.6

Linux-VServer allows you to create virtual private servers and security contexts which operate like a normal Linux server, but allow many independent servers to be run simultaneously in one box at full speed.

<http://www.net-security.org/software.php?id=527>

LOGIDS 2.0

LogIDS is a real-time log-analysis based intrusion detection system. The graphical interface presents you with a representation of your network map, where each node (host or subnet) have its own little console window, where the logs belonging to it can eventually be displayed (depending on your rules).

<http://www.net-security.org/software.php?id=528>

Infosecurity 2003

Organized by Information Security Magazine /ISSA - 9 December -
11 December 2003

<http://www.net-security.org/conference.php?id=3>

HITBSecConf2003

Organized by Hack In The Box - 12 December-14 December 2003

<http://www.net-security.org/conference.php?id=64>

Access Denied 2004

Organized by New Leaf Productions - 11 January-13 January 2004

<http://www.net-security.org/conference.php?id=75>

IT-Defense 2004

Organized by cirosec GmbH/dpunkt.Verlag - 28 January -
30 January 2004

<http://www.net-security.org/conference.php?id=56>

Infosecurity Italia 2004

Organized by Fiera Milano International - 13 February -
14 February 2004

<http://www.net-security.org/conference.php?id=34>

Southeast Cybercrime Summit 2004

Organized by ATLCCS - 2 March-5 March 2004

<http://www.net-security.org/conference.php?id=77>

InfoSec World Conference and Expo 2004

Organized by MIS Training Institute - 22 March-24 March 2004

<http://www.net-security.org/conference.php?id=68>

RSA Conference 2004 USA

Organized by RSA Security - 13 April-17 April 2004

<http://www.net-security.org/conference.php?id=55>

Infosecurity Europe 2004

Organized by Reed Exhibitions - 27 April-29 April 2004

<http://www.net-security.org/conference.php?id=27>

Dallascon Security Conference 2004
Organized by DallasCon - 1 May-2 May 2004
<http://www.net-security.org/conference.php?id=73>

16th Annual FIRST Conference
Organized by FIRST - 13 June-18 June 2004
<http://www.net-security.org/conference.php?id=22>

NetSec 2004
Organized by Computer Security Institute - 14 June-16 June 2004
<http://www.net-security.org/conference.php?id=20>

2004 USENIX Annual Technical Conference
Organized by USENIX Association - 27 June-2 July 2004
<http://www.net-security.org/conference.php?id=66>
