[Security news]

SECURE EMAIL SPECS COULD MERGE

After submitting its Caller ID email authentication specification to a standards body, Microsoft is discussing merging its spec with another, called sender policy framework, or SPF.

<http://www.net-security.org/news.php?id=5267>

DHS PRIVACY DIRECTOR: WE'RE PAYING ATTENTION

Individual rights will be upheld despite the war on terrorism.

<http://www.net-security.org/news.php?id=5268>

STARTING UP NETWORK SERVICES FROM XINETD

xinetd is started on bootup, and listens on ports designated in /etc/xinetd.conf for incoming network connections. When a new connection is made, xinetd starts up the corresponding network service.

<http://www.net-security.org/news.php?id=5269>

REMOTE BACKUP USING SSH, TAR AND CRON

Are you looking for a solution to backup your data to a remote location?

<http://www.net-security.org/news.php?id=5270>

WHY WINDOWS IS A SECURITY NIGHTMARE

Security in all mainstream operating systems is non-existent; however, things are especially bad for Windows.

<http://www.net-security.org/news.php?id=5271>

SECURE CODING ATTRACTS INTEREST, INVESTMENT

Security firm @stake helps developers search computer code for errors, security holes.

<http://www.net-security.org/news.php?id=5275>

SNORT UP FOR REVAMP, SAYS CREATOR

The creator of Snort, the open-source network-based Intrusion Detection System (IDS), says the software is up for an overhaul.

<http://www.net-security.org/news.php?id=5276>

WHAT'S IN A NAME- IDENTITY THEFT

One of the most precious things you own is your good name.

<http://www.net-security.org/news.php?id=5277>

THE BIGGEST SPAMMER ON THE NET? COMCAST?

Comcast's high-speed Internet subscribers have long been rumored to be an unusually persistent source of junk e-mail.

<http://www.net-security.org/news.php?id=5278>

GOOD METHODS FOSTER SECURITY

Software engineering expert Martyn Thomas explains how IT disciplines and management practices can help to minimise risk.

<http://www.net-security.org/news.php?id=5279>

MICROSOFT MAKES SECURITY PUSH

Microsoft Corp. said Monday it will begin selling network security software pre-installed on computers, taking aim at a market dominated by appliance security vendors.

<http://www.net-security.org/news.php?id=5280>

SPAM NOW TWO THIRDS OF ALL E-MAIL

There is no sign of relief for companies already overwhelmed by the sheer volume of unsolicited and unwanted e-mail messages clogging their mail systems.

<http://www.net-security.org/news.php?id=5281>

MICROSOFT TO SHOW OFF ID FEDERATION

Microsoft will display on Tuesday software that lets customers sign in to a Web site and then take their identity with them as they browse the Web to other federated sites, a representative said.

<http://www.net-security.org/news.php?id=5282>

CA PREPS WIRELESS SITE MANAGEMENT SOFTWARE

Computer Associates International Inc. previewed Monday at its user show in Las Vegas a new tool for managing wireless networks that early users say provides critical monitoring and security functionality.

<http://www.net-security.org/news.php?id=5283>

PRACTICE SAFE RESETS: SECURE YOUR PASSWORD SOLUTION

Organisations are discovering an easy way to reduce the workload of IT and help desk administrators - password self-service.

<http://www.net-security.org/news.php?id=5284>

HP TO SELL MICROSOFT FIREWALL APPS

Microsoft has said that hardware makers will sell its forthcoming Internet Security and Acceleration (ISA) Server 2004 software preinstalled on hardware appliances.

<http://www.net-security.org/news.php?id=5285>

LAWMAKER TONES DOWN ANTI-GMAIL BILL

A California lawmaker has revised a proposal to block Google's new e-mail service on privacy grounds, removing key provisions that would have made it difficult or impossible for the Web search giant to operate Gmail in the state.

<http://www.net-security.org/news.php?id=5287>

WEIGHING PROFITS AGAINST PERIL

Denying XP pirates the SP2 upgrade would hurt the Internet to protect Microsoft's bottom line.

<http://www.net-security.org/news.php?id=5288>

THE RISING COST OF PROTECTING YOUR IDENTITY

With identity theft rampant, we need to be cautious with our personal information. But consumer advocates say there's something else we ought to be vigilant about: expensive services for identity theft protection.

<http://www.net-security.org/news.php?id=5289>

LINUX AND WINDOWS SECURITY COMPARED

In this study, we compare Microsoft Windows and Linux security across these seven categories.

<http://www.net-security.org/news.php?id=5290>

GUI ADMINISTRATION WITH KSYSGUARD

This app has absolutely nothing to do with guarding anything.

KSysguard lets you manage processes and monitor resources on local or remote systems. According to the documentation, it can be built on Solaris, BSD, and Linux.

<http://www.net-security.org/news.php?id=5291>

MICROSOFT TIGHTENS DATABASE SECURITY

Microsoft is making its newest database software tougher to crack.

<http://www.net-security.org/news.php?id=5292>

BUFFALO ADDS NEW SECURITY SCHEME TO 802.11G

Buffalo Technology has announced a new lineup of 802.11g wireless products featuring their AirStation One-Touch Secure System security solution.

<http://www.net-security.org/news.php?id=5293>

SECURITY BOOST FOR SQL SERVER

Microsoft is to add data encryption to its SQL Server database as well as seek US federal government security certification for the platform at its TechEd conference in San Diego, California.

<http://www.net-security.org/news.php?id=5294>

NOKIA UPDATES SECURITY APPLIANCE OS

Nokia has unveiled the latest version of its IPSO server operating system, claiming that version 3.8 of the security-hardened platform will deliver significant performance improvements.

<http://www.net-security.org/news.php?id=5295>

WILL CODE-CHECK TOOLS MAKE FOR WORM-PROOF SOFTWARE?

When Microsoft needed help in taming the large number of flaws, it looked to technology known as "static source-code checkers" and a company called Intrinsic.

<http://www.net-security.org/news.php?id=5296>

INVESTIGATING COMPUTER CRIMES

One of the most important conditions to improve activity of operational structures is to strengthen informational relations between police divisions.

<http://www.net-security.org/news.php?id=5297>

RUSSIA - A HAPPY HAVEN FOR HACKERS

For all its disadvantages, the former Soviet Union had one hugely

overlooked advantage: it kept hackers, crackers and virus writers confined inside the country by restricting their access to the internet.

<http://www.net-security.org/news.php?id=5298>

MICROSOFT SECURITY SPEND GREATER THAN THE STAR WARS MISSILE SYSTEM

Microsoft has spent more on securing its software than was spent on the Star Wars missile project, the company's head of security has told conference guests.

<http://www.net-security.org/news.php?id=5299>

RSA SECURITY TOUTS SUCCESS WITH WEB SERVICES FEDERATION

RSA Security said it has successfully tested complete interoperability of the WS-Federation specification. Several vendors including Microsoft and IBM participated in the test, the firm said.

<http://www.net-security.org/news.php?id=5300>

MICROSOFT TO MERGE CALLER ID FOR EMAIL WITH SPF ANTI-SPAM TECHNOLOGY

On Tuesday, Microsoft revealed that it will merge its Caller ID for Email technology with a competing scheme for email authentication, dubbed Sender Policy Framework.

<http://www.net-security.org/news.php?id=5301>

DELOITTE SURVEY SHOWS RISE IN ATTACKS BUT FLAT SECURITY BUDGETS

A survey of top financial services firms by Deloitte showed that a majority of organizations have suffered external attacks within the past year but many don't expect their security budgets to grow.

<http://www.net-security.org/news.php?id=5302>

YAHOO ADDS ANTISPYWARE SERVICE TO TOOLBAR

Yahoo Inc. began testing a new antispayware feature on its toolbar Thursday, allowing users to scan for and delete the small software applications often responsible for displaying pop-up ads etc.

<http://www.net-security.org/news.php?id=5303>

BETTER SECURITY WILL HELP WIRELESS GROWTH

The security of wireless hot spots for internet access for IT users on the road was the subject of discussion at the CeBIT America 2004 conference in New York.

<http://www.net-security.org/news.php?id=5304>

WINDOWS WORMS TAX ISPS

Computer worms will cost European ISPs an estimated €123m this year, according to a study by traffic management firm Sandvine out today.

<http://www.net-security.org/news.php?id=5305>

FIRST 64-BIT VIRUS IS DISCOVERED BY SYMANTEC

Symantec in Canada have discovered the first known virus for the 64 bit version of Microsoft Windows. Called W64.Rugrat.3344, the virus is a direct action infector.

<http://www.net-security.org/news.php?id=5306>

SPAMMER SENTENCED TO SEVEN YEARS IN PRISON

A man who sent 850 million junk e-mails through accounts he opened with stolen identities was sentenced to up to seven years in prison on Thursday.

<http://www.net-security.org/news.php?id=5307>

CALIFORNIA SENATE APPROVES ANTI-GMAIL BILL

The California state Senate on Thursday approved a bill that takes aim at Google's new Gmail service, placing strict limits on e-mail providers seeking to scan customer messages for advertising and other purposes.

<http://www.net-security.org/news.php?id=5308>

AUSSIE POLICE TO GAIN ACCESS TO STORED MESSAGES

Australian Attorney General Philip Ruddock has introduced amendments to federal parliament that would ease police access in the country to stored voice mails, e-mails and text messages.

<http://www.net-security.org/news.php?id=5309>

TAIWANESE NABBED FOR CREATING VIRUS USED BY CHINESE HACKERS

A Taiwanese computer engineer was arrested for allegedly designing a worm that was used to attack the island's business and government systems, police said Thursday.

<http://www.net-security.org/news.php?id=5310>

SECURITY SPEND BOOSTS ENTERPRISE ROUTER SALES

Global sales of enterprise router devices have begun to pick up, largely driven by healthy spending in the secure router segment.

<http://www.net-security.org/news.php?id=5311>

MANAGING SECURITY FOR MOBILE USERS (PART TWO)

Part two of this article completes the discussion and presents ways of providing additional layers of defense to help protect the valuable, mobile data.
