

HNS Newsletter

Issue 229 - 05.09.2004.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

FREE GUIDE: "THE STARTER PKI PROGRAM"

The Starter PKI program from thawte has been developed for companies with a need to secure multiple domains or host names. This guide will introduce you to the Program by explaining how it works and its benefits. We will also point you to a dummy company on our web site where you can "test drive" the Program. Finally, you'll find out how to enroll and the costs involved.

Download this free guide now:

[**Security news**]

MICROSOFT PLAYS DOWN SP2 SECURITY GLITCHES

Glitches between Windows XP Service Pack 2 (SP2) and critical applications continue to emerge, with McAfee admitting its flagship VirusScan product prior to version 7.1 requires a customised patch to be operational with Windows Security Center, part of SP2.

<http://www.net-security.org/news.php?id=5936>

DEPLOYING NETWORK ACCESS QUARANTINE CONTROL, PART 2

This article discusses Network Access Quarantine Control in Windows Server 2003, which allows administrators to quarantine mobile users and verify their security posture before giving them full access to the network.

<http://www.net-security.org/news.php?id=5937>

CLOSING WIRELESS BACKDOORS

Wireless LAN analyzers detect rogue users and devices.

<http://www.net-security.org/news.php?id=5938>

HACKERS CONTINUE TO EXPERIMENT WITH 64-BIT VIRUSES

Shruggle virus could be 'a taste of things to come', warn experts.

<http://www.net-security.org/news.php?id=5941>

SPAM BLOCKERS TACKLE BROADER CONTENT-SECURITY ISSUES

FrontBridge Technologies Inc., Proofpoint Inc. and MailFrontier Inc. are augmenting their respective spam-filtering offerings to address enterprises' broader e-mail content security needs.

<http://www.net-security.org/news.php?id=5942>

ATTACKERS TARGET FRENCH ISP WANADOO

A hacker compromised the corporate website of France Télécom's internet service provider (ISP) subsidiary Wanadoo, causing the site to try to install a malicious software program on computers of visitors.

<http://www.net-security.org/news.php?id=5943>

COLLEGES FEAR XP UPDATE WILL JAM NETWORKS

Microsoft Corp.'s decision to release a major upgrade for its flagship operating system in the same month that hundreds of thousands of students are reporting to college campuses across the nation is causing a major headache for some universities.

<http://www.net-security.org/news.php?id=5944>

SPIES LIKE US

There's no doubt online security — including ID theft — is still perhaps the biggest issue facing PC World readers.

<http://www.net-security.org/news.php?id=5945>

A QUANTUM LEAP IN COMPUTING

One of the fundamental problems with computers as they exist today is the two-pronged problem of security.

<http://www.net-security.org/news.php?id=5946>

CYBERCRIME CRACKDOWN

Two U.S. Justice Department operations have resulted in more than 150 arrests involving computer crimes that bilked an estimated 150,000

victims out of more than \$215 million.
<http://www.net-security.org/news.php?id=5947>

US WEBSITE OFFERS CALLER ID FALSIFICATION SERVICE
Overdue debtors beware: You may not be able to rely on Caller ID to screen out those annoying bill collectors much longer.
<http://www.net-security.org/news.php?id=5948>

SIMPLIFY SECURITY UPDATE PROCESS
The havoc caused in businesses over the past few years by a series of increasingly devious computer viruses has highlighted the importance of having a policy on patching vulnerable software.
<http://www.net-security.org/news.php?id=5949>

ATTACKERS HIJACK FEDERAL COMPUTERS
Hundreds of powerful computers at the Defense Department and U.S. Senate were hijacked by hackers who used them to send spam e-mail, federal authorities say.
<http://www.net-security.org/news.php?id=5950>

4 STEPS TO PROTECT WI-FI NETWORKS
Here are four steps that can help you keep your home network and personal information secure.
<http://www.net-security.org/news.php?id=5951>

JUNIPER ADDS SECURITY SOFTWARE SUPPORT
JEDI group takes saber to security issues.
<http://www.net-security.org/news.php?id=5952>

SECRET SERVICE AND CERT ANALYZE INSIDER THREATS
It doesn't take a techie to abuse an IT system from the inside, and inside attackers do not fit any common profile. Those are among the findings of the Secret Service and the CERT Coordination Center in a study of insider attacks against financial organizations.
<http://www.net-security.org/news.php?id=5953>

MICROSOFT'S WAR ON BUGS
Stephen Toulouse, Microsoft's security program manager, talks to Wired.
<http://www.net-security.org/news.php?id=5954>

FINE-TUNING SPAMASSASSIN
SpamAssassin is a popular spam classifier on Linux.
<http://www.net-security.org/news.php?id=5955>

NEW VIRUS MAKES SPYWARE SLEAZIER
A new worm, the W32/Rhot-GR, invades users' privacy in their home or

workplace by taking control of their webcams and microphones to spy on them. Like earlier worms, it also steals personal data.
<http://www.net-security.org/news.php?id=5956>

IBM, RED HAT GET HIGH SECURITY CERTIFICATION

IBM and Red Hat say that they have achieved the CAPP/EAL3+ evaluation level on the Common Criteria tests with Red Hat's Enterprise Linux 3 WS on xSeries servers as well as Enterprise Linux 3 AS on IBM's full line of servers.
<http://www.net-security.org/news.php?id=5957>

SYSTEM ADMINISTRATION WITH PHP

Wouldn't it be great if you could extend your use of the language to carry out general system administration tasks?
<http://www.net-security.org/news.php?id=5958>

INSIDE CRIMES REAP MILLIONS

Unsophisticated criminals on the inside pose a greater threat than expert external hackers, according to a US study.
<http://www.net-security.org/news.php?id=5959>

SIMULATED HACKER ATTACKS

WesCorp uses Skybox View software to look at its systems through hackers' eyes and identify the key vulnerabilities that need to be fixed quickly.
<http://www.net-security.org/news.php?id=5960>

EMBEDDED NETWORK SECURITY

i3 micro's IP set-top box integrates AMD Alchemy Au1550 processor for embedded network security.
<http://www.net-security.org/news.php?id=5961>

SSH BOUNCING - HOW TO GET THROUGH FIREWALLS EASILY

Often you'll have firewalls or other network equipment that doesn't allow direct SSH access to machines behind it. Using a bit of trickery, you can get through without seemingly jumping through any hoops.
<http://www.net-security.org/news.php?id=5962>

TESTS REVEAL E-PASSPORT SECURITY FLAW

The Department of Homeland Security's first tests of electronic-passport interoperability exposed technology flaws, including myopic and dyslexic smart-card readers.
<http://www.net-security.org/news.php?id=5963>

REPORT CASTS DOUBT ON IRS HACKING-DETECTION SYSTEM
The problems found raise questions about the agency's modernization plans.
<http://www.net-security.org/news.php?id=5964>

ARMY CIO ASKS FOR BETTER SECURITY
The Army's chief information officer wants service and industry information technology officials to do a better job of protecting networks and building more secure products.
<http://www.net-security.org/news.php?id=5965>

HARDWARE TODAY - NEXT-GEN FIREWALLS REACH HIGH
Firewalls have come a long way since 1985, when U.S. Department of Defense experiments spawned basic packet filtering technologies.
<http://www.net-security.org/news.php?id=5966>

SENDMAIL SEARCHES FOR ANTISPAM TESTERS
Sendmail has taken a first stab at software to authenticate the source of e-mail messages, a technology that will be key to preventing the proliferation of spam.
<http://www.net-security.org/news.php?id=5967>

DOD REVEALS VIRAL INFECTION
The breach of security, Dodgen said, illustrated the need for "diligence, diligence, diligence" when it comes to information security and assurance — although he described his initial reaction to the incident as, "Who are we going to shoot?"
<http://www.net-security.org/news.php?id=5968>

IS ENCRYPTION DOOMED?
Our entire information society rests on a fragile foundation that mathematicians are racing to dismantle.
<http://www.net-security.org/news.php?id=5969>

PASSING THE WLAN SECURITY BUCK
Company offers outsourced wireless LAN to overcome security vulnerabilities.
<http://www.net-security.org/news.php?id=5970>

PDA SECURITY STILL DISMAL
Worker apathy about PDA security is putting corporate data in jeopardy.
<http://www.net-security.org/news.php?id=5971>

CIRCUMVENTING WEB SERVICES SECURITY PROBLEMS
When Aeroplan, an airline affinity program owned by Air Canada with over six million members worldwide, decided to rapidly expand its partnership program, it needed a secure way to bridge its XML

infrastructure with partners' systems.
<http://www.net-security.org/news.php?id=5972>

BREAKING INTO VOICEMAIL SYSTEMS IS A EASY
Businesses are placing themselves at risk because they are failing to secure their internal voicemail systems from hackers.
<http://www.net-security.org/news.php?id=5974>

XEROX MULTIFUNCTION SYSTEMS EARN HIGH STANDARD FOR SECURITY
Xerox Corporation has earned the coveted international standard in security assessments for six of its office multifunction systems.
<http://www.net-security.org/news.php?id=5975>

MESSAGELABS, SYMANTEC TEAM ON ANTISPAM SERVICE
MessageLabs, a provider of e-mail security services, will use Symantec's Brightmail filtering technology as part of its own antispam service, the company said Wednesday.
<http://www.net-security.org/news.php?id=5976>

BALLMER BEATS SECURITY DRUM
Microsoft CEO Steve Ballmer believes the software industry will create more positive change in the next 10 years than it did in the previous 10 -- provided that security threats are effectively handled.
<http://www.net-security.org/news.php?id=5977>

IT USERS SEEK TO CERTIFY SECURITY
Industry-wide standards sought by IT experts at major companies.
<http://www.net-security.org/news.php?id=5978>

SECURE MOBILE PHONES WILL USE FINGERPRINT ID
The fingerprint locking system is already in use in Japan.
<http://www.net-security.org/news.php?id=5979>

AFFORDABLE IT: DESKTOP SECURITY
Protecting your organization means guarding against attackers as well as internal problems. Tools are essential, but so is user education.
<http://www.net-security.org/news.php?id=5980>

WPA2-CERTIFIED WI-FI TOUGHENS SECURITY
Wi-Fi Protected Access 2 is meant to significantly strengthen wireless security, and certified products are now available.
<http://www.net-security.org/news.php?id=5981>

HACK TO SCHOOL
School wasn't even in session, and Dartmouth College chief information officer Lawrence Levine was penning the kind of letter

technology executives dread.
<http://www.net-security.org/news.php?id=5983>

AIDE AND CHKROOTKIT

Network security is continuing to be a big problem for companies and home users. The problem can be resolved with an accurate security analysis. In this article I show how to approach security using aide and chkrootkit.
<http://www.net-security.org/news.php?id=5984>

BIG BROTHER WATCHES BRITAIN

The teenagers who stabbed wealthy Joao Da Costa Mitendele to death before burgling his home were careful to conceal the crime. They used a pretty girl to gain access to his apartment, where they wore rubber gloves while committing their crimes.
<http://www.net-security.org/news.php?id=5985>

SPAM AVALANCHE KEEPS GROWING

The spam flood is rising, contributing to a reduction in the usefulness of e-mail, a market research firm said Wednesday.
<http://www.net-security.org/news.php?id=5986>

ARMY HONORS SECURITY WORK

The Army this week issued its first awards to service personnel and contractors for excellence in information assurance.
<http://www.net-security.org/news.php?id=5987>

FALLOUT FROM VIRUS WAR PERSISTS

Netsky, Bagle and Mydoom variants still topping the virus charts.
<http://www.net-security.org/news.php?id=5988>

SECURITY FLAWS IN WINZIP COULD ALLOW ATTACKS

WinZip Computing Inc. recently revealed that Version 9.0 of its popular WinZip file compression program is vulnerable to a variety of security attacks.
<http://www.net-security.org/news.php?id=5989>

SIMPLE AND SECURE ISN'T SO SIMPLE

Simple to code does not always mean simple for the user. And simple for the user is often not easy to code.
<http://www.net-security.org/news.php?id=5990>

APACHE SAYS IT WON'T SUPPORT SENDER ID

The foundation is balking at Microsoft's strict licensing terms for the proposed anti-spam standard.
<http://www.net-security.org/news.php?id=5991>

SLACK SECURITY FOR OLD COMPUTERS

Less than 25% of old computers sold or given away by companies have had data removed from them, raising concerns about personal information security.

<http://www.net-security.org/news.php?id=5992>

WINXP SP2 = SECURITY PLACEBO?

We evaluated the security features of Windows XP SP2 on a test machine, following a clean install of XP Pro with no configuration changes and no third-party software or drivers installed.

<http://www.net-security.org/news.php?id=5993>

BLUETOOTH CAN BITE

With an estimated 250 million Bluetooth-enabled devices currently in use, the fact that Bluetooth is about as secure as the proverbial wide-open barn door should be of concern to everyone responsible for the safekeeping of corporate data.

<http://www.net-security.org/news.php?id=5994>

600,000 STUDENTS WARNED OF IDENTITY THEFT

California university officials have warned nearly 600,000 students and faculty that they might be exposed to identity theft following incidents where computer hard drives loaded with their private information were lost or hacked into.

<http://www.net-security.org/news.php?id=5995>

MIDRANGE FIREWALLS FACE OFF

ServGate, SonicWall, and StoneGate boxes prove their mettle.

Pocket PC software is located at:
http://net-security.org/software_main.php?cat=3

AIRSCANNER MOBILE FIREWALL 1.0 Beta (Pocket PC)
Airscanner Mobile Firewall is a full-strength, fully configurable, NDIS packet-filtering TCP/IP firewall.
<http://www.net-security.org/software.php?id=573>

BASTILLE LINUX 2.1.3-0.1 (Linux)
The Bastille Hardening System attempts to "harden" or "tighten" the Linux operating system.
<http://www.net-security.org/software.php?id=217>

FIREWALL BUILDER 2.0.2 (Linux)
Firewall Builder consists of an object-oriented GUI and a set of policy compilers for various firewall platforms.
<http://www.net-security.org/software.php?id=230>

FLOPPYFW 2.0.10 (Linux)

floppyfw is a router with the advanced firewall-capabilities in Linux that fits on one single floppy disc.

<http://www.net-security.org/software.php?id=211>

FREERADIUS 1.0.0 (Linux)

The FreeRADIUS Server Project is a high-performance and highly configurable RADIUS server.

<http://www.net-security.org/software.php?id=193>

LINUX-VSERVER 1.28 (Linux)

A system for running general purpose virtual servers on one box at full speed.

<http://www.net-security.org/software.php?id=527>

MAILSCANNER 4.33.3 (Linux)

MailScanner is a virus scanner for e-mail designed for use on e-mail gateways.

<http://www.net-security.org/software.php?id=144>

NMAP 3.70 (Linux)

Nmap ("Network Mapper") is an open source utility for network exploration or security auditing.

<http://www.net-security.org/software.php?id=1>

NMAP PARSER XML 0.78 (Linux)

An nmap parser for xml scan data using PERL.

<http://www.net-security.org/software.php?id=532>

NUFW 0.9.1 (Linux)

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

PADS 1.1.2 (Linux)

Pads (Passive Asset Detection System) is a signature-based detection engine used to passively detect network assets.

<http://www.net-security.org/software.php?id=60>

REVELATION 0.3.3 (Linux)

Revelation is a password manager for the GNOME 2 desktop.

<http://www.net-security.org/software.php?id=293>

ROOTKIT HUNTER 1.1.7 (Linux)

This scanning tool ensures you're clean of nasty tools.

<http://www.net-security.org/software.php?id=531>

RUBY/PASSWORD 0.5.2 (Linux)

Ruby/Password is a set of useful methods for creating, verifying, and manipulating passwords.

<http://www.net-security.org/software.php?id=162>

SAMHAIN 1.8.11 (Linux)

Samhain is an open source file integrity and host-based intrusion detection system.

<http://www.net-security.org/software.php?id=125>

SERVER INSPECTOR 2.1 (Windows)

Server Inspector is a professional monitoring tool.

<http://www.net-security.org/software.php?id=574>

TCPICK 0.1.24 (Linux)

Tcpick is a textmode sniffer that can track TCP streams and saves the data captured in files or displays them in the terminal.

<http://www.net-security.org/software.php?id=288>

WEPLAB 0.1.0 (Linux)

Weplab is a tool to review the security of WEP encryption in wireless networks from an educational point of view.

<http://www.net-security.org/software.php?id=539>

WINSCP 3.6.8 (Windows)

WinSCP is an open source SSH file transfer protocol and secure copy client for Windows using SSH.

FREE GUIDE: "THE STARTER PKI PROGRAM"

The Starter PKI program from thawte has been developed for companies with a need to secure multiple domains or host names. This guide will introduce you to the Program by explaining how it works and its benefits. We will also point you to a dummy company on our web site where you can "test drive" the Program. Finally, you'll find out how to enroll and the costs involved.

Download this free guide now:
