

HNS Newsletter

Issue 236 - 25.10.2004.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

IBM SecureWorld Technical University, 23-26/11, Berlin

Do you know how to effectively protect your IT infrastructure?

Security has become a very important concern in today's wireless and network computing business! Be on the leading edge with 70 sessions organised around 5 topics: Security Risk Management, Physical & Logical Security Integration and Recovery, Internet & Networking Security, Security Architectures & Solutions, Security Management and Control.

Benefit from our promo: Get free of charge tivoli certification testing! And don't forget to visit the Expo! Find out more on <http://www.ibm.com/services/learning/conf/europe/securew>

Table of contents:

- 1) Security news
- 2) Vulnerabilities
- 3) Advisories
- 4) Articles
- 5) Software
- 6) Webcasts
- 7) Conferences
- 8) Security World
- 9) Virus News

[Security news]

KEYPADS SECURE FINANCIAL APPLICATIONS

The W.series of fully customisable banking keypads and keyboards, are guaranteed to meet the demanding security requirements of banks and other financial institutions.

<http://www.net-security.org/news.php?id=6303>

PC HACKS FOR LINUX

PC Hacks author Jim Aspinwall handpicks two Linux-specific hacks to share from his new book.

<http://www.net-security.org/news.php?id=6304>

ON-CHIP FIREWALL GUARDS PCS

Nvidia chipset includes a hardware firewall to secure desktops.

<http://www.net-security.org/news.php?id=6305>

WATCH OUT, THERE'S A SCAMMER ABOUT

The British government has unveiled a new website to help punters "wise up to scams".

<http://www.net-security.org/news.php?id=6306>

CISCO LOOKS TO COLLABORATION TO EASE SECURITY THREATS

Networking giant Cisco is to team up with other industry heavyweights to tackle the problem of security, promising to alleviate the burden of managing the threat for IT departments.

<http://www.net-security.org/news.php?id=6307>

SECURITY CHIEFS PASS TEST

Certified security professional qualifications are proving popular.

<http://www.net-security.org/news.php?id=6308>

HACKERS SOFTWARE HELPING TO AUTOMATE ONLINE THEFT

Ben Kittridge admits that spamming violates traditional hacker ethics. But with computer programming jobs scarce, the eighteen-year-old Florida software whiz has joined the spam trade.

<http://www.net-security.org/news.php?id=6309>

MICROSOFT DELIVERS SP1 FOR WINDOWS SERVER SOON

New Security Configuration Wizard lets users define specific roles for servers.

<http://www.net-security.org/news.php?id=6310>

FIGHTING FIRE WITH FIRE: DESIGNING A "GOOD" COMPUTER VIRUS

Cyrus Peikari demonstrates methods to design and test a live, attenuated computer virus vaccine using real-world simulation.

<http://www.net-security.org/news.php?id=6311>

BUILD A HIGH-AVAILABILITY LINUX WEB SERVER

Set up a heartbeat failover cluster that lets a good server pick up where a bad one leaves off, ensuring that your site is never down for long.

<http://www.net-security.org/news.php?id=6312>

MICROSOFT, CISCO PARTNER ON NETWORK-ACCESS SECURITY

Microsoft and Cisco Systems will collaborate to make their emerging products for network security compatible.

<http://www.net-security.org/news.php?id=6314>

YOUR EMPLOYEES ARE YOUR WORST SECURITY LIABILITIES

Your employees are probably more of a security liability than asset.

And it's your hindquarters on the line. Analyst Rob Enderle provides tips and web resources on how to maximize your most valuable security defense: the two-legged kind.

<http://www.net-security.org/news.php?id=6315>

MORE SECURITY NEEDED FOR BROADBAND BUSINESS TO THRIVE

We need government to give security more attention and resources than it has so far been willing to allocate.

<http://www.net-security.org/news.php?id=6316>

DEEPNINES PRESIDENT DAN JACKSON ON NETWORK SECURITY

"We've had a focus on education because we felt if we could demonstrate to the marketplace that we could sit in the wildest of environments, it would demonstrate true security functionality," said DeepNines President Dan Jackson.

<http://www.net-security.org/news.php?id=6317>

HACKING FOR A GREATER GOOD

Many of us associate the term "hacker" with an anti-social teenager who uses his computing talent for nefarious ends, terrorising people with malicious viruses or defacing websites. What we are not aware of are "white hackers" — do-gooders who attempt to break into systems or networks to help the owners of these systems discover security flaws.

<http://www.net-security.org/news.php?id=6318>

MANAGED SECURITY SUITE PROTECTS WI-FI LANS

Wavelink has introduced the industry's first integrated system for managing the security of wireless LANs.

<http://www.net-security.org/news.php?id=6319>

LINUX: SECURE COMPUTING API

Andrea Arcangli released an updated version of his secure computing patch for the 2.6 Linux kernel.

<http://www.net-security.org/news.php?id=6320>

UK PREPS MAJOR SECURITY AWARENESS CAMPAIGN

A major UK government campaign to help small businesses and consumers protect themselves from Internet security threats will launch in the UK next year.

<http://www.net-security.org/news.php?id=6321>

SECURITY DESIGNS OF SSL VPNS

The audio session stresses out the need of an extensive pre-deployment audit for the purposes of determining what kind of access should be made possible for different type of users.
<http://www.net-security.org/news.php?id=6322>

PROTECTING MYSQL SESSIONS WITH SSH TUNNEL (PORT FORWARDING)

This article briefly describes how SSH Tunnel encrypts all traffic (including passwords) to effectively eliminate eavesdropping, connection hijacking, and other network-level attacks.
<http://www.net-security.org/news.php?id=6323>

HACKER HITS CALIFORNIA UNIVERSITY COMPUTER

A computer hacker accessed names and Social Security numbers of about 1.4 million Californians after breaking into a University of California.
<http://www.net-security.org/news.php?id=6324>

NEW SECURITY WARES

Information security managers at agencies and businesses have more options for protecting the organizations from cyberattacks and insider threats thanks to new wares from several security information management vendors.
<http://www.net-security.org/news.php?id=6325>

ENKOO ADDS DEVICE FOR SECURING E-MAIL AND APPLICATIONS

Support for LDAP a key feature.
<http://www.net-security.org/news.php?id=6326>

TRADITIONAL ANTI-VIRUS CAN'T MEET NEW THREATS

The need to defend networked electronic gear like PDAs and smart phones will drive anti-virus defenses away from the signature-based techniques of today and toward next-generation behavioral-based tactics.
<http://www.net-security.org/news.php?id=6327>

'SWISS ARMY KNIFE' SOFTWARE TOOLS NOT RIGHT FOR PATCHING SPECIFIC IT PROBLEMS

Traditional patch management solutions are better at installing software than they are at patching and upgrading.
<http://www.net-security.org/news.php?id=6328>

ORACLE'S SECURITY LUCK RUNS OUT

Oracle is so well known for its security that it may have become complacent. "This is a wake-up call to Oracle to take security more seriously," said Noel Yuhanna, senior analyst with Forrester Research.
<http://www.net-security.org/news.php?id=6329>

SECURING EXCHANGE WITH ISA SERVER 2004

This article will highlight the security issues involved with providing Outlook Web Access or full Outlook client connections over the Internet, and then discuss how Microsoft's new ISA Server 2004 can be configured to mitigate these threats.

<http://www.net-security.org/news.php?id=6330>

EU AGENCY TO PROMOTE INFORMATION SECURITY

Nations must take security seriously to become IT leaders.

<http://www.net-security.org/news.php?id=6331>

ATMS IN PERIL FROM COMPUTER WORMS?

Some anti-virus firm are trying to carve out a new market for their technology by trying to persuade that banks Automatic Teller Machines (ATMs) running Windows need protecting from computer worms.

<http://www.net-security.org/news.php?id=6332>

EX-STAFF POSE THREAT TO DATA

Twenty-three per cent of companies leave networks exposed.

<http://www.net-security.org/news.php?id=6333>

PANEL: LET DOMESTIC SECURITY TECHNOLOGY MOVE FORWARD

Effect of civil liberty groups on technological innovation discussed in panel discussion.

<http://www.net-security.org/news.php?id=6334>

SECURITY INFORMATION MANAGEMENT SYSTEMS (SIMS)

The computer security industry is guilty of overhyping and underdelivering. Again and again, it tells customers that they must buy a certain product to be secure. Again and again, they buy the products -- and are still insecure.

<http://www.net-security.org/news.php?id=6335>

AMERICAN PASSPORTS TO GET CHIPPED

The United States plans to issue passports with personal data stored on radio frequency identification chips. The documents would be harder to forge, but might leave holders vulnerable to identity theft.

<http://www.net-security.org/news.php?id=6336>

TIPS ON SECURING INSTANT MESSAGING

According to one of the latest research studies, 92% of all commercial and non-commercial organizations are using instant messaging in the enterprise. Tom Buoniello, VP of Product Management at Sybari talks to HNS about the current security of instant messaging deployments and provides insightful tips on what should enterprises do to make their IM secure.

<http://www.net-security.org/news.php?id=6337>

IT CHIEFS USE SCARE TACTICS TO TIGHTEN SECURITY

Hacking and virus threat often exaggerated to win management support, says survey.

<http://www.net-security.org/news.php?id=6338>

CALIFORNIA DISCLOSES MASSIVE ID THEFT

The compromised information includes names, addresses, telephone numbers, Social Security numbers and birth dates of about 1.4 million people.

<http://www.net-security.org/news.php?id=6339>

LIBERTY ALLIANCE HOLDOUT IBM ENDS RESISTANCE, JOINS

Company now part of Sun-led identity management initiative.

<http://www.net-security.org/news.php?id=6340>

MICROSOFT CEO: HACKERS GETTING SMARTER

Steve Ballmer believes it's naive to suggest the software giant can eliminate all security vulnerabilities in its various products even though engineers are trying hard to do so.

<http://www.net-security.org/news.php?id=6341>

REPLACE WINDOWS PASSWORDS WITH PASSPHRASES

A Microsoft security manager is advocating the use of multi-word "passphrases" rather than passwords to secure Windows networks, arguing that passwords of less than 10 characters are inadequate against the latest hacking techniques.

<http://www.net-security.org/news.php?id=6342>

NVIDIA PUTS A FIREWALL ON A MOTHERBOARD

Upcoming chip set will include built-in security features for your PC.

<http://www.net-security.org/news.php?id=6343>

53 ARRESTED IN PHISHING CRACKDOWN

53 people arrested in Brazil for online banking fraud.

<http://www.net-security.org/news.php?id=6344>

DO SERVICE PROVIDERS POSE A SECURITY RISK?

Although IT security standards at some offshore development centers may seem shoddy, one Canadian outsourcing service provider says that shouldn't deter North American companies from handing off work to reputable companies in Canada or overseas -- as long as they do their homework first.

<http://www.net-security.org/news.php?id=6345>

IS A CULTURE CLASH RISKING YOUR SECURITY?

A clash of cultures between different security factions within the same company is putting security efforts at risk, according to a new

study.

<http://www.net-security.org/news.php?id=6346>

VIRUSES LEAP THROUGH WINDOW OF OPPORTUNITY

Mass mailing viruses could be consigned to the dustbin of history if only anti-virus vendors were quicker off the mark.

<http://www.net-security.org/news.php?id=6347>

HP BEEFS UP SECURITY ON PAVILION, PRESARIO LINES

Hewlett-Packard announced it would add third-party security and anti-virus software to its consumer and small-business Pavilion and Presario platforms, a move similar to Dell's announcement Wednesday that it needed to beef up security on its desktops.

<http://www.net-security.org/news.php?id=6348>

SECURITY, 1994-2004: THEN AND NOW

Comparing the state of security in 1994 versus 2004, has anything really changed over the course of ten years?

<http://www.net-security.org/news.php?id=6349>

ANTI-PHISHING APP LOOKS FOR USERS

A Sydney firm has developed software which can help in stopping the rash of successes enjoyed by the senders of phishing emails - only this time, the software works at the user's end.

ALOAHA 3.0.45 (Windows)

Aloaha is a server based Anti-spam solution.

<http://www.net-security.org/software.php?id=566>

ANTIEXPLOIT 1.3 Beta 5 (Linux)

AntiExploit is the first ON-ACCESS exploit-scanner for Linux and

FreeBSD.

<http://www.net-security.org/software.php?id=581>

BASTILLE LINUX 2.1.4 (Linux)

The Bastille Hardening System attempts to "harden" or "tighten" the Linux operating system.

<http://www.net-security.org/software.php?id=217>

BOTAN 1.4.1 (Linux)

Botan aims to be a portable, easy to use, and efficient C++ crypto library.

<http://www.net-security.org/software.php?id=94>

DEVICELOCK 5.62 (Windows)

DeviceLock gives network administrators control over which users can access what devices on a local computer.

<http://www.net-security.org/software.php?id=121>

DSPAM 3.2 (Linux)

DSPAM is an extremely scalable, open-source statistical anti-spam filter.

<http://www.net-security.org/software.php?id=582>

ETHEREAL 0.10.7 (Linux)

Ethereal is a free network protocol analyzer.

<http://www.net-security.org/software.php?id=99>

IFCHK 0.95 Beta 2 (Linux)

ifchk is a network interface promiscuous mode detection tool written with both security and system administrative applications in mind.

<http://www.net-security.org/software.php?id=583>

NESSUS 2.2.0 RC1 (Linux)

Nessus is a free, powerful, up-to-date and easy to use remote security scanner.

<http://www.net-security.org/software.php?id=19>

NMAP 3.75 (Linux)

Nmap ("Network Mapper") is an open source utility for network exploration or security auditing.

<http://www.net-security.org/software.php?id=1>

NUFW 0.9.5 (Linux)

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

SLOP 1.5 (Linux)

SLOP is a PERL and PHP based engine for the collection of and reporting on logs from various network based devices such as firewalls, switches, and web servers.

<http://www.net-security.org/software.php?id=449>

WIFIFO FUM 0.3.3 (Pocket PC)

WiFiFoFum is a 802.11 scanner designed for PDAs running PocketPC 2003.
