

HNS Newsletter

Issue 248 - 17.01.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

INFOSEC WORLD 2005 IS WHERE CONNECTIONS ARE MADE!

Expand your knowledge with the hottest topics and get real-world strategies and tested techniques for meeting your toughest information security challenges.

[Security news]

MAKING THE INTERNET SAFER FOR YOUR EMPLOYEES

There are numerous steps that you can use to make your corporate network a safer place for those users who routinely use the Internet.

<http://www.net-security.org/news.php?id=6870>

SECURITY MARKET SET TO FLOURISH IN 2005

But vendors must consolidate products to combat customer confusion.

<http://www.net-security.org/news.php?id=6871>

SUN UNVEILS SMALLEST SECURE WEB SERVER

Researchers from the Next Generation Crypto team at Sun Microsystems Laboratories have created the world's smallest secure web server.

<http://www.net-security.org/news.php?id=6872>

DON'T TALK TO STRANGERS

Agencies can reduce spam by setting up e-mail registration databases.

<http://www.net-security.org/news.php?id=6873>

PASSWORD MANAGEMENT WITH PASSWORDSAFE

PasswordSafe is intended to be a secure solution for maintaining a list of passwords. It uses a secure, encrypted database to store each password and can only be accessed by providing the master password.
<http://www.net-security.org/news.php?id=6874>

HOW TO SIGN YOUR CUSTOM RPM PACKAGE WITH GPG KEY

GnuPG stands for GNU Privacy Guard and is GNU's tool for secure communication and data storage.
<http://www.net-security.org/news.php?id=6875>

SHOWING THE GOVERNMENT HOW LINUX PROVIDES BETTER SECURITY

Showing government offices and agencies how Linux and open-source software provide better security.
<http://www.net-security.org/news.php?id=6876>

SECURE A J2ME ENVIRONMENT WITH JCE

Securing pervasive content is no simple issue, and the Java Cryptography Extension, while accepted as the standard here, brings its own problems to development. Don't raise the white flag, though. This article focuses on those problems and offers the solutions.
<http://www.net-security.org/news.php?id=6877>

FIREFOX'S GRASSROOTS CURE FOR INTERNET INSECURITY

There's a new challenger for the browser crown, offering security the champ can't match.
<http://www.net-security.org/news.php?id=6878>

PANDA PITCHES AT CORPORATES

Vendor follows up on home-market success with relaunch of its partner programme.
<http://www.net-security.org/news.php?id=6879>

CRITICAL FLAW PLAGUES MOZILLA

New flaw in old browsers.
<http://www.net-security.org/news.php?id=6880>

MCAFFEE TOOL SPOTS SITE VULNERABILITIES

McAfee division Foundstone Professional Services is offering SiteDigger 2.0, a security tool that searches enterprise Web sites to spot confidential material that has been exposed to view accidentally over the Internet.
<http://www.net-security.org/news.php?id=6881>

MORE WORMS TARGET MOBILE PHONES

Latest variants could be a sign of what's to come, security experts warn.
<http://www.net-security.org/news.php?id=6882>

SECURITY LEADERS CREATE BLUEPRINT FOR PROFESSIONAL STANDARDS

Senior IT security professionals are pressing for new IT security

qualifications and the creation of a national accreditation body in a bid to improve standards.

<http://www.net-security.org/news.php?id=6883>

FEDS CALLED IN OVER TROJAN TAX SCAM

E-mail scammers have shifted their sights from a staple diet of banks, betting shops and auction sites to government agencies, with the Australian Taxation Office (ATO) calling in Australian Federal Police over a spam deluge that tries to send taxpayers to Trojan-infected Web sites.

<http://www.net-security.org/news.php?id=6884>

MICROSOFT CAN SAVE ITS AILING AUTHENTICATION SERVICE

Microsoft can save its ailing authentication service, but only by scaling back its expectations on what kind of accounts and services it's fit to secure.

<http://www.net-security.org/news.php?id=6885>

LETTING THE TELECOMMUTERS INTO THE NETWORK

You worked hard to keep the space rabble out of your network. Now make sure the good guys can get in.

<http://www.net-security.org/news.php?id=6886>

SECURING THUNDERBIRD EMAIL WITH OPENPGP

Email is commonly used in business today, yet only a small percentage of users take the time to guarantee their email is sent in a secure and confidential manner. If you're not part of that elite group, read on to learn how to setup OpenPGP with the Mozilla Thunderbird mail component.

<http://www.net-security.org/news.php?id=6887>

HIGH-TECH ANSWERS TO ID THEFT

Brace yourself for retina scans, chip implants and other gizmos that are already replacing plastic but are much more secure... if a little creepy.

<http://www.net-security.org/news.php?id=6888>

ATTACKERS CAPTURE INFO FROM GEORGE MASON UNIVERSITY

Computer attackers captured the names, Social Security numbers and other information of more than 30,000 students and staff at George Mason University.

<http://www.net-security.org/news.php?id=6889>

DOES YOUR PRIVACY POLICY MEAN ANYTHING?

These days, your company's privacy policy is a handy tool. It can placate worried consumers. A privacy policy assures them their personal data won't ever be used, shared, or abused.

<http://www.net-security.org/news.php?id=6890>

AMD PROMOTES NEW AMD HOLOGRAPHIC LABEL, SECURITY FEATURES

AMD today announced an educational campaign focused on the security features of AMD boxed processors.

<http://www.net-security.org/news.php?id=6891>

UNISYS IT SECURITY PREDICTIONS

Unisys IT security experts predict that 2005 will bring greater liability, growing mobile and cyber threats and increased identity management.

<http://www.net-security.org/news.php?id=6892>

THE PERILS OF DEEP PACKET INSPECTION

This paper looks at the evolution of firewall technology towards Deep Packet Inspection, and then discusses some of the security issues with this evolving technology.

<http://www.net-security.org/news.php?id=6897>

MICROSOFT VIRUS CLEAN-UP TOOL SPARKS CONTROVERSY

Microsoft debuts a malicious software removal tool today. It represents the first tangible fruits of Microsoft's June 2003 acquisition of Romanian anti-virus firm GeCAD Software.

<http://www.net-security.org/news.php?id=6898>

SIMPLE SNOOP-PROOF EMAIL LAUNCHED

Software that aims to make encrypted email communications simple enough for even computer novices to use was released on Tuesday.

<http://www.net-security.org/news.php?id=6899>

ELIMINATE PASSWORDS WITH OATH

Someday soon, you'll be able to forget your passwords and still access all the secure servers you use now. In fact, no one will have to remember any passwords at all.

<http://www.net-security.org/news.php?id=6900>

NOKIA UNVEILS IP VPN SUITE FOR MOBILE SECURITY

Nokia announced a suite of IP security virtual private network-based solutions that offer secure remote access to corporate networks from mobile devices and remote locations.

<http://www.net-security.org/news.php?id=6901>

SHAPE UP YOUR WAN TRAFFIC

Packeteer and 8e6 traffic managers offer choice between luxury and thrift.

<http://www.net-security.org/news.php?id=6902>

TROJAN EXPLOITS WINDOWS DRM

Anti-Virus and security vendor Panda Labs is reporting the discovery of a threat that takes advantage of Windows Digital Rights Management (DRM).

<http://www.net-security.org/news.php?id=6903>

MICROSOFT RELEASES TWO CRITICAL SECURITY FIXES FOR WINDOWS

Microsoft Corp. released two security fixes Tuesday that carry its most severe threat rating.

<http://www.net-security.org/news.php?id=6904>

COMPARING THE ISA FIREWALL TO NON-ISA FIREWALL SOLUTIONS

This article kicks off a series that compares the ISA firewall to the other major players in the firewall market.

<http://www.net-security.org/news.php?id=6906>

FULL DISCLOSURE PUT ON TRIAL IN FRANCE

The trial of a French security researcher last week has become a cause celebre. Its outcome will decide if interested parties can "peek under the bonnet" in testing the road-worthiness of security products without falling foul of French law.

<http://www.net-security.org/news.php?id=6907>

HACKER PENETRATES T-MOBILE SYSTEMS

A sophisticated computer hacker had access to servers at wireless giant T-Mobile for at least a year.

<http://www.net-security.org/news.php?id=6908>

ANOTHER COMPUTER SECURITY OFFICIAL QUILTS

The Homeland Security Department official in charge of protecting the nation's physical and computer infrastructure is stepping down at the end of the month.

<http://www.net-security.org/news.php?id=6909>

WAR ON TERRORISM TURNS TO INFORMATION NETWORK

Hundreds of cyber crime experts gather to compare notes at the Westin Innisbrook Resort.

<http://www.net-security.org/news.php?id=6910>

WILL LONGHORN BOOST COMPUTER SECURITY?

Truly trustworthy computing is still a few years off, HP exec says.

<http://www.net-security.org/news.php?id=6911>

BLACK HATS GAINING GROUND ON MICROSOFT

The latest batch of security bulletins from Microsoft Corp contain notable omissions - the names of people who practiced responsible disclosure by telling Microsoft about the bugs before anyone else.

<http://www.net-security.org/news.php?id=6912>

DEVELOPER RAPS LINUX SECURITY

Brad Spengler of grsecurity characterized the Linux Security Model, or LSM, as merely a way to allow the National Security Agency's SELinux to be used as a module. "The framework is unfit for any security system that does anything remotely innovative, such as grsecurity and RSBAC [Rule Set-Based Access Control]," he declared.

<http://www.net-security.org/news.php?id=6913>

XML - THE END OF SECURITY THROUGH OBSCURITY?

New Web services protocols make data easy to read-and almost as easy to hide.

<http://www.net-security.org/news.php?id=6914>

BATTERY MANAGEMENT IC TAKES SECURITY ONBOARD

A novel intelligent battery management IC easily identifies potentially unsafe batteries not approved by consumer electronics manufacturers for use in their devices.

<http://www.net-security.org/news.php?id=6915>

A NEW TOOL IN THE SPAM WAR

Arbitration is part of the next wave of security measures, and can be effective against spammers who illegally harvest email addresses from a honeypot on your website.

<http://www.net-security.org/news.php?id=6916>

SECURING LINUX PRODUCTION SYSTEMS

This article is a practical step-by-step guide for securing Linux production systems.

<http://www.net-security.org/news.php?id=6917>

US SLAPS ON THE WARDRIVER-BUSTING PAINT

Security-minded US decorators' supply outfit Force Field Wireless claims to have developed a DIY solution to the international menace of marauding geek wardrivers.

<http://www.net-security.org/news.php?id=6918>

GOOGLE PATCHES GMAIL SECURITY HOLE

Google has fixed a bug in its Web-based e-mail service, Gmail, that allowed users to read the contents of other people's messages.

<http://www.net-security.org/news.php?id=6919>

A PERSONAL DESKTOP BACK-UP SOLUTION

A hard drive crash over the holidays left me scrambling to get back to a productive desktop as quickly as possible.

<http://www.net-security.org/news.php?id=6920>

TORVALDS CRITICIZES SECURITY APPROACHES

Linux creator Linus Torvalds had a few things to say this week about the way potential security issues are disclosed to fellow open sourcers. And it wasn't all good.

<http://www.net-security.org/news.php?id=6921>

DHS, DOJ PLAN CYBERCRIME SURVEY

In what they hope will become the premier measure of national cybercrime statistics, officials at the Homeland Security and Justice departments plan to survey 36,000 businesses this spring to examine the type and frequency of computer security incidents.

<http://www.net-security.org/news.php?id=6922>

MALWARE, SPAM PROMPTS MASS NET TURN OFF

Both beginners and veterans are finding the Interweb experience so repellent that they're disconnecting in droves, blaming malware and spam.

<http://www.net-security.org/news.php?id=6923>

A LOOK AT MICROSOFT ANTISPYWARE

It's a little Microsoft-centric, but we generally like the software giant's full-featured beta antispyware program.

<http://www.net-security.org/news.php?id=6924>

RINGS OF STEEL COMBAT NET ATTACKS

Gambling is hugely popular, especially with tech-savvy criminals.

<http://www.net-security.org/news.php?id=6925>

WINDOWS TROJANS HIT P2P

Madrid-based anti-virus firm Panda Software reports the circulation on peer-to-peer (P2P) networks of Trojans that are spread by exploiting digital rights management features in Windows media player, reports The Register.

<http://www.net-security.org/news.php?id=6926>

ITUNES USERS AT RISK FROM HACKERS

Subscribers urged to upgrade software immediately.

<http://www.net-security.org/news.php?id=6927>

[Vulnerabilities]

All vulnerabilities are located here:

http://www.net-security.org/archive_vuln.php

Apple iTunes Playlist Parsing Buffer Overflow Vulnerability

<http://www.net-security.org/vuln.php?id=3976>

ForumKIT XSS Vulnerability

<http://www.net-security.org/vuln.php?id=3975>

Horde 3.0 Cross Site Scripting Vulnerability

<http://www.net-security.org/vuln.php?id=3974>

BiTBOARD XSS Vulnerability

<http://www.net-security.org/vuln.php?id=3973>

Arkeia Possible Remote Root And Information Leakage Vulnerability
<http://www.net-security.org/vuln.php?id=3972>

Linux Kernel i386 SMP Page Fault Handler Privilege Escalation Vulnerability
<http://www.net-security.org/vuln.php?id=3971>

IlohaMail Insecure Configuration Files Vulnerability
<http://www.net-security.org/vuln.php?id=3970>

Windows ANI File Parsing Buffer Overflow Vulnerability
<http://www.net-security.org/vuln.php?id=3969>

HylaFAX hfaxd Unauthorized Login Vulnerability
<http://www.net-security.org/vuln.php?id=3968>

Multi-vendor AV Gateway Image Inspection Bypass Vulnerability
<http://www.net-security.org/vuln.php?id=3967>

Microsoft Word and Excel RC4 Misuse Vulnerability
<http://www.net-security.org/vuln.php?id=3966>

[**Advisories**]

All advisories are located at:
http://www.net-security.org/archive_adv.php

Ubuntu Security Notice - Linux kernel vulnerabilities (USN-60-0)
<http://www.net-security.org/advisory.php?id=4314>

Conectiva Linux Security Announcement - twiki (CLA-2005:918)
<http://www.net-security.org/advisory.php?id=4313>

Debian Security Advisory - New mc packages fix several vulnerabilities (DSA 639-1)
<http://www.net-security.org/advisory.php?id=4312>

Gentoo Linux Security Advisory - tnftp: Arbitrary file overwriting (GLSA 200501-24)
<http://www.net-security.org/advisory.php?id=4311>

Trustix Secure Linux Security Advisory - glibc iproute setup
tsl-utils (2005-0002)
<http://www.net-security.org/advisory.php?id=4310>

Trustix Secure Linux Security Advisory - fcron, kernel (2005-0001)
<http://www.net-security.org/advisory.php?id=4309>

Debian Security Advisory - New gopher packages fix several
vulnerabilities (DSA 638-1)
<http://www.net-security.org/advisory.php?id=4308>

Conectiva Linux Security Announcement - krb5 (CLA-2005:917)
<http://www.net-security.org/advisory.php?id=4307>

Conectiva Linux Security Announcement - ethereal (CLA-2005:916)
<http://www.net-security.org/advisory.php?id=4306>

Conectiva Linux Security Announcement - php4 (CLA-2005:915)
<http://www.net-security.org/advisory.php?id=4305>

Turbolinux Security Announcement - php/httpd (13/Jan/2005)
<http://www.net-security.org/advisory.php?id=4304>

Mandrakelinux Security Update Advisory - Updated imlib packages fix
vulnerability (MDKSA-2005:007)
<http://www.net-security.org/advisory.php?id=4303>

Mandrakelinux Security Update Advisory - Updated hylafax packages fix
vulnerability (MDKSA-2005:006)
<http://www.net-security.org/advisory.php?id=4302>

Debian Security Advisory - New exim-tls packages fix arbitrary code
execution (DSA 637-1)
<http://www.net-security.org/advisory.php?id=4301>

US-CERT Technical Cyber Security Alert - Microsoft Windows HTML Help
ActiveX Control Cross-Domain Vulnerability (TA05-012B)
<http://www.net-security.org/advisory.php?id=4300>

Gentoo Linux Security Advisory - Exim: Two buffer overflows (GLSA
200501-23)
<http://www.net-security.org/advisory.php?id=4299>

US-CERT Technical Cyber Security Alert - Multiple Vulnerabilities in
Microsoft Windows Icon and Cursor Processing (TA05-012A)
<http://www.net-security.org/advisory.php?id=4298>

SUSE Security Announcement - SUSE Security Summary Report
(SUSE-SR:2005:01)
<http://www.net-security.org/advisory.php?id=4297>

Debian Security Advisory - New libc6 packages fix insecure temporary
files (DSA 636-1)
<http://www.net-security.org/advisory.php?id=4296>

Gentoo Linux Security Advisory - CUPS: Multiple vulnerabilities (GLSA
200412-25)
<http://www.net-security.org/advisory.php?id=4295>

Debian Security Advisory - New exim packages fix arbitrary code
execution (DSA 635-1)
<http://www.net-security.org/advisory.php?id=4294>

Microsoft Security Update Alert - January 11, 2005
<http://www.net-security.org/advisory.php?id=4293>

Mandrakelinux Security Update Advisory - Updated nfs-utils packages
fix 64bit vulnerability (MDKSA-2005:005)
<http://www.net-security.org/advisory.php?id=4292>

Gentoo Linux Security Advisory - poppassd_pam: Unauthorized password
changing (GLSA 200501-22)
<http://www.net-security.org/advisory.php?id=4291>

Debian Security Advisory - New hylafax packages fix unauthorised
access (DSA 634-1)
<http://www.net-security.org/advisory.php?id=4290>

OpenPKG Security Advisory - perl (OpenPKG-SA-2005.001)
<http://www.net-security.org/advisory.php?id=4289>

Gentoo Linux Security Advisory - HylaFAX: hfaxd unauthorized login
vulnerability (GLSA 200501-21)
<http://www.net-security.org/advisory.php?id=4288>

Gentoo Linux Security Advisory - o3read: Buffer overflow during file
conversion (GLSA 200501-20)
<http://www.net-security.org/advisory.php?id=4287>

Gentoo Linux Security Advisory - imlib2: Buffer overflows in image
decoding (GLSA 200501-19)
<http://www.net-security.org/advisory.php?id=4286>

Gentoo Linux Security Advisory - KDE FTP KIOslave: Command injection (GLSA 200501-18)
<http://www.net-security.org/advisory.php?id=4285>

Gentoo Linux Security Advisory - KPdf, KOffice: More vulnerabilities in included Xpdf (GLSA 200501-17)
<http://www.net-security.org/advisory.php?id=4284>

Gentoo Linux Security Advisory - Konqueror: Java sandbox vulnerabilities (GLSA 200501-16)
<http://www.net-security.org/advisory.php?id=4283>

Debian Security Advisory - New bmv package fixes insecure temporary file creation (DSA 633-1)
<http://www.net-security.org/advisory.php?id=4282>

SCO Security Advisory - UnixWare 7.1.4 UnixWare 7.1.3 UnixWare 7.1.1: mountd remote denial of service (SCOSA-2005.1)
<http://www.net-security.org/advisory.php?id=4281>

Gentoo Linux Security Advisory - UnRTF: Buffer overflow (GLSA 200501-15)
<http://www.net-security.org/advisory.php?id=4280>

Gentoo Linux Security Advisory - mpg123: Buffer overflow (GLSA 200501-14)
<http://www.net-security.org/advisory.php?id=4279>

Ubuntu Security Notice - mailman vulnerabilities (USN-59-1)
<http://www.net-security.org/advisory.php?id=4278>

Ubuntu Security Notice - MIT Kerberos server vulnerability (USN-58-1)
<http://www.net-security.org/advisory.php?id=4277>

Debian Security Advisory - New linpopup packages fix arbitrary code execution (DSA 632-1)
<http://www.net-security.org/advisory.php?id=4276>

Debian Security Advisory - New kdlb packages fix arbitrary FTP command execution (DSA 631-1)
<http://www.net-security.org/advisory.php?id=4275>

SUSE Security Announcement - libtiff/tiff (SUSE-SA:2005:001)
<http://www.net-security.org/advisory.php?id=4274>

Debian Security Advisory - New lintian packages fix insecure temporary directory (DSA 630-1)
<http://www.net-security.org/advisory.php?id=4273>

Gentoo Linux Security Advisory - pdftohtml: Vulnerabilities in included Xpdf (GLSA 200501-13)
<http://www.net-security.org/advisory.php?id=4272>

Gentoo Linux Security Advisory - TikiWiki: Arbitrary command execution (GLSA 200501-12)
<http://www.net-security.org/advisory.php?id=4271>

Gentoo Linux Security Advisory - Dillo: Format string vulnerability (GLSA 200501-11)
<http://www.net-security.org/advisory.php?id=4270>

Ubuntu Security Notice - Linux kernel vulnerabilities (USN-57-1)
<http://www.net-security.org/advisory.php?id=4269>

Debian Security Advisory - New kerberos packages fix arbitrary code execution (DSA 629-1)
<http://www.net-security.org/advisory.php?id=4268>

Ubuntu Security Notice - exim4 vulnerabilities (USN-56-1)
<http://www.net-security.org/advisory.php?id=4267>

Linux software is located at:
http://net-security.org/software_main.php?cat=2

Pocket PC software is located at:
http://net-security.org/software_main.php?cat=3

FIREWALL BUILDER 2.0.5 (Linux)
Firewall Builder consists of an object-oriented GUI and a set of policy compilers for various firewall platforms.
<http://www.net-security.org/software.php?id=230>

JPORTKNOCK 0.0.5 (Linux)
jPortKnock does port knocking, a method of establishing a connection to a networked computer with no open port.
<http://www.net-security.org/software.php?id=594>

JSCH 0.1.19 (Windows)
JSch is a pure Java implementation of SSH2.
<http://www.net-security.org/software.php?id=417>

KISKIS 0.13.1 (Linux)
KisKis (KisKis – Keep It Secret! Keep It Safe!) is an easy-to-use password manager.
<http://www.net-security.org/software.php?id=578>

PASSWORD SAFE 2.08 (Windows)
Password Safe is a password database utility.
<http://www.net-security.org/software.php?id=172>

SCRUTINIZER 1.03 (Linux)
Scrutinizer protects web applications from HTTP (D)DoS Attacks.
<http://www.net-security.org/software.php?id=592>

SHELL INTRUSION DETECTION 0.4.0 (Linux)
SID is a Shell Intrusion Detection system. The kernel part plugs into a terminal-processing subsystem and logs hashed terminal lines.
<http://www.net-security.org/software.php?id=473>

TCPICK 0.2.0 (Linux)
Tcpick is a textmode sniffer that can track TCP streams and saves the data captured in files or displays them in the terminal.
<http://www.net-security.org/software.php?id=288>

VUURMUUR 0.5.60 (Linux)
Vuurmuur is a middle-end/front-end for netfilter/iptables.
<http://www.net-security.org/software.php?id=591>

YASSL 0.9.0 (Linux)
yaSSL is an SSL Library for programmers building security
functionality into their applications and devices.
<http://www.net-security.org/software.php?id=521>

Writing Secure Code (Part 2 of 3) - Threat Defense
Organized by Microsoft on 26 January 2005, 11:00 AM
<http://www.net-security.org/webcast.php?id=351>

[**Conferences**]

All conferences are located at:
<http://net-security.org/conferences.php>

8th International Workshop on Practice and Theory in Public Key
Cryptography (PKC 05)
Organized by Ecole Polytechnique Federale de Lausanne - 23 January-26
January 2005
<http://www.net-security.org/conference.php?id=106>

Australasian Information Security Workshop 2005
Organized by Australian Computer Society and The University of
Newcastle - 31 January-3 February 2005
<http://www.net-security.org/conference.php?id=107>

Airscanner Wireless Security Bootcamp
Organized by Airscanner - 3 February-4 February 2005
<http://www.net-security.org/conference.php?id=103>

The 12th Annual Network and Distributed System Security Symposium
2005

Organized by The Internet Society Organization Committee - 3
February-4 February 2005
<http://www.net-security.org/conference.php?id=108>

Winter 2005 Biometrics Summit

Organized by Advanced Learning Institute - 23 February-25 February
2005
<http://www.net-security.org/conference.php?id=129>

Fast Software Encryption 2005

Organized by European Network of Excellence - 24 February-25 February
2005
<http://www.net-security.org/conference.php?id=109>

Financial Cryptography and Security (FC 05) Ninth International
Conference

Organized by RSA Security - 28 February-3 March 2005
<http://www.net-security.org/conference.php?id=110>

International Workshop on Coding and Cryptography (WCC 2005)

Organized by Selmersenteret, INRIA - 14 March-18 March 2005
<http://www.net-security.org/conference.php?id=111>

Third IEEE International Information Assurance Workshop (IWIA'05)

Organized by IEEE Computer Society Task Force on Information
Assurance - 24 March-25 March 2005
