[Security news]

HARVARD FIXING DATA SECURITY BREACHES

Loophole allowed viewing student prescription orders.

<http://www.net-security.org/news.php?id=6989>

PROTECT YOURSELF AGAINST DOMAIN NAME THEFT

The domain name hijacking of panix.com last week highlights a weaknesses in the Internet's registrar system and should serve as a warning to all companies. It could happen to anyone.

<http://www.net-security.org/news.php?id=6990>

SYMANTEC SHOWS E-MAIL SECURITY APPLIANCE

New products use the acquired Brightmail anti-spam technology.

<http://www.net-security.org/news.php?id=6991>

SECURITY CONCERNS PROMPT INTERNET EXPLORER DEFECTIONS

Worried about catching viruses, spyware, or other malicious software while surfing the Web?

<http://www.net-security.org/news.php?id=6992>

HOTSPOT PARANOIA: TRY TO STAY CALM

OK, the fact that Professor Brian Collins is prepared to talk about public Wi-Fi hotspots with evil twins does mean it's worth taking seriously.

<http://www.net-security.org/news.php?id=6993>

VIRUSES FOR SYMBIAN OS - THE TRUTH

Don't be panicked by media hype about viruses targetting Symbian OS smartphones!

<http://www.net-security.org/news.php?id=6994>

HARDWARE AND SOFTWARE FOR SECURE ONLINE BANKING

A heavy hand with consumer education can go a long way toward keeping customers safe. If they receive e-mails sporting a bank logo that requires a response, they'll know it's not a legitimate communication.

<http://www.net-security.org/news.php?id=6995>

HACKERS EAVESDROP ON PHONE NETWORKS TO STEAL DATA

Computer hackers have taken to stealing data the easy way - by eavesdropping on phone and e-mail conversations to find the keys to seemingly impregnable networks, security experts say.

<http://www.net-security.org/news.php?id=6996>

PHISHING AGAINST BANKS HITS ALL TIME HIGH

Anti-Phishing Working Group warns of 'relentless increase'.

<http://www.net-security.org/news.php?id=6997>

TOP USERS' SECURITY MANIFESTO AIMS TO CLOSE GAPS IN SUPPLIER OFFERINGS

User group the Jericho Forum, whose members include more than 50 global companies, is set to publish criteria on information security for suppliers to follow when developing products.

<http://www.net-security.org/news.php?id=6999>

IRS NEEDS BETTER IT SECURITY PLAN

The process for identifying weaknesses and reporting progress is flawed and ineffective, according to the report.

<http://www.net-security.org/news.php?id=7000>

SSL VPNS MADE SIMPLE

You can always tell when a particular technology begins to gain momentum by the availability of lower-cost alternatives to the bleeding-edge, high-end devices.

<http://www.net-security.org/news.php?id=7001>

BANKS AND POLICE SET SECURITY STANDARDS

Solutions to online fraud 'already exist', claim experts.

<http://www.net-security.org/news.php?id=7002>

THE OPEN ROAD: SAMHAIN

This article describes a Host-Based Intrusion Detection System (HIDS) with Samhain.

<http://www.net-security.org/news.php?id=7003>

SAP LAUNCHES TWO SECURITY INITIATIVES

Program certifies consultants' knowledge of security tools applicable to SAP technology.

<http://www.net-security.org/news.php?id=7004>

HOW TO: MASTERING PORTQRY.EXE (PART 1)

In this article the author will cover the fundamentals of using the PortQry command line tool.

<http://www.net-security.org/news.php?id=7005>

HACKERS USE OLD-FASHIONED EAVESDROPPING TO STEAL DATA

Computer hackers have taken to stealing data the easy way — by eavesdropping on phone and e-mail conversations to find the keys to seemingly impregnable networks, security experts say.

<http://www.net-security.org/news.php?id=7006>

VENDORS NEED TO FOCUS ON MOBILE VIRUSES

Viruses are becoming a more serious threat, but most hardware vendors and wireless operators have put the problem on a back burner, an industry analyst claims.

<http://www.net-security.org/news.php?id=7007>

PROBE: POOR INFO SHARING HARMS SECURITY

Poor information-sharing both inside and outside government is threatening homeland security, congressional investigators said Tuesday.

<http://www.net-security.org/news.php?id=7008>

ARE WE IN A COMPUTER SECURITY RENAISSANCE?

The widespread adoption of the Internet and e-commerce helped change the focus of security research.

<http://www.net-security.org/news.php?id=7009>

FEDS AIM TO TIGHTEN NUCLEAR CYBER SECURITY

Federal regulators are proposing to add computer security standards to their criteria for installing new computerized safety systems in nuclear power plants.

<http://www.net-security.org/news.php?id=7010>

DOMAIN HIJACK: DOTSTER YET TO COMMENT

Dotster, the domain registrar that manages the panix.com domain which was hijacked over the weekend of January 15-16, is yet to make a public comment about the affair.

<http://www.net-security.org/news.php?id=7011>

INTRODUCTION TO TROUBLESHOOTING LINUX FIREWALLS

The importance of a firewall to your security plan cannot be stressed enough, but what happens when your firewall fails? Find out in this introduction to firewall troubleshooting.

<http://www.net-security.org/news.php?id=7012>

AN OVERVIEW OF GPG

GPG stands for Gnu Privacy Guard. It is a program from the FSF which allows you to encrypt and verify signed files created by others all without a shared secret which would allow others to impersonate you or get access to your encrypted files.

<http://www.net-security.org/news.php?id=7013>

PREPARING YOURSELF FOR INTRUSIONS

This article explains the basic concepts of intrusion detection and response.

<http://www.net-security.org/news.php?id=7014>

SELINUX: PLAYING WITH FIRE

One of the much-talked-about features in Fedora Core 3 is Security-Enhanced Linux, which some people believe will make Linux a truly military-grade secure operating system. But SELinux is available to secure many other distributions as well.

<http://www.net-security.org/news.php?id=7015>

CLAM ANTIVIRUS: OPEN SOURCE VS. THE BAD GUYS

Open source software, in the form of Clam AntiVirus, can help you detect rogue programs before they hit your inbox, whether you run Linux or Windows.

<http://www.net-security.org/news.php?id=7016>

FBI BACKS TRANSATLANTIC ANTI-SPAM SUMMIT

A delegation of British MPs heads over to Washington next month to discuss information security with US politicians.

<http://www.net-security.org/news.php?id=7017>

INTERNET SECURITY SUITES FACE OFF

These products promise to protect you from more than just viruses. We see how they stack up.

<http://www.net-security.org/news.php?id=7018>

WEB SECURITY GROUP READIES LAUNCH

A volunteer group is launching this month to provide a forum for free, open source documentation, tools and standards for Web application security.

<http://www.net-security.org/news.php?id=7019>

LENGTH OF HACKER'S PRISON TERM DEBATED

Law enforcement recovered records of Jeffrey Lee Parson's online conversations with other hackers in which he said he was looking for a copy of the Blaster worm and that he was thinking about spreading a version of it. "Hehehe," he wrote, "and watch me get caught."
<http://www.net-security.org/news.php?id=7020>

NIST REPORT URGES CAUTION WITH VOIP SECURITY

A new report from the National Institute of Standards and Technology urges federal agencies and other organizations to take care in switching to voice-over-IP technology because of security concerns.
<http://www.net-security.org/news.php?id=7021>

SECURITY FIRM SAYS SPAMMERS AHEAD OF THE GAME

The threat of e-mail viruses, Internet scams and other attacks by spammers grew worse last year, despite stepped-up defense efforts by technology firms and government, an e-mail security firm reported Wednesday.
<http://www.net-security.org/news.php?id=7022>

MYDOOM ONE YEAR LATER: MORE ZOMBIES, MORE SPAM

Virus now considered the beginning of sophisticated virus writers with illegal profit in mind.
<http://www.net-security.org/news.php?id=7023>

APPLE ISSUES OS X SECURITY PATCH

Apple Computer has issued a security patch to correct seven vulnerabilities in the OS X operating system, including flaws in the Safari browser, the Mac Mail e-mail program, the ColorSync system, and other parts of the OS.
<http://www.net-security.org/news.php?id=7024>

LATEST BAGLE MUTANT ON THE RAMPAGE

Worm contains backdoor for hacker to execute arbitrary programs.
<http://www.net-security.org/news.php?id=7025>

MS MULLS CHARGING FOR ANTI-SPYWARE APP

Microsoft is leaving its options open on charging for full versions of anti-spyware and virus disinfection tools.
<http://www.net-security.org/news.php?id=7026>

MICROSOFT ENHANCES SQL 2005 SECURITY

Forthcoming release more secure by default, claims Redmond.
<http://www.net-security.org/news.php?id=7027>

THE ROLE OF EMAIL SECURITY IN MEETING REGULATORY REQUIREMENTS

Due to the nature of the potential content of email, ranging from a simple customer query to financial projections, the use of this application demands particular attention to ensure that its management helps to secure regulatory compliance.
<http://www.net-security.org/news.php?id=7028>

BLIND BUFFER OVERFLOWS IN ISAPI EXTENSIONS

This paper will outline the risks ISAPI Extensions pose and how they can be exploited by third parties without any binary exposure or knowledge using blind stack overflows. This method can enable remote code execution in proprietary and third party applications.

<http://www.net-security.org/news.php?id=7029>

HOW TO AVOID PHISHING SCAMS

In this article, I will explain exactly how this type of scam works and how to avoid being a victim.

<http://www.net-security.org/news.php?id=7030>

MALICIOUS BOT TARGETS MYSQL DATABASES WITH WEAK PASSWORDS

A malicious bot program is breaking into poorly-secured MySQL databases running on Windows web servers.

<http://www.net-security.org/news.php?id=7031>

CLEAR SKIES FOR AREA 51 HACKER

Federal prosecutors formally dropped charges this month against an amateur astronomer who exposed a buried surveillance network surrounding the Air Force's mysterious "Area 51" air base in Nevada.

<http://www.net-security.org/news.php?id=7032>

BIG NET ATTACK TIPPED IN NEXT 10 YEARS

Don't say we didn't warn you: At some point in the next decade, there will be a "devastating attack" on the internet or power grid.

<http://www.net-security.org/news.php?id=7033>

THE ENCRYPTION FACTOR

Quantum computing is set to revolutionise the way we work. Trouble is, it could crack any of today's security codes in a fraction of a second.

<http://www.net-security.org/news.php?id=7034>

[Vulnerabilities]

All vulnerabilities are located here:

http://www.net-security.org/archive_vuln.php

Ingate Firewall: Removed PPTP Tunnels Not Deactivated Vulnerability

<http://www.net-security.org/vuln.php?id=4005>

WinAMP in_cdda.dll CDA Device Name Buffer Overflow Vulnerability

<http://www.net-security.org/vuln.php?id=4004>

Pocket IE Multiple Vulnerabilities
<http://www.net-security.org/vuln.php?id=4003>

Openswan XAUTH/PAM Buffer Overflow Vulnerability
<http://www.net-security.org/vuln.php?id=4002>

phpEventCalendar HTML Injection Vulnerability
<http://www.net-security.org/vuln.php?id=4001>

eXponent 0.95 Multiple Vulnerabilities
<http://www.net-security.org/vuln.php?id=4000>

Microsoft NetDDE Service Unauthenticated Remote Buffer Overflow
Vulnerability
<http://www.net-security.org/vuln.php?id=3999>

Siteman 1.1.10 User Database Line Insertion Vulnerability
<http://www.net-security.org/vuln.php?id=3998>

[Advisories]

All advisories are located at:
http://www.net-security.org/archive_advi.php

Gentoo Linux Security Advisory - Gallery: Cross-site scripting
vulnerability (GLSA 200501-45)
<http://www.net-security.org/advisory.php?id=4411>

Gentoo Linux Security Advisory - ncpfs: Multiple vulnerabilities
(GLSA 200501-44)
<http://www.net-security.org/advisory.php?id=4410>

Gentoo Linux Security Advisory - f2c: Insecure temporary file
creation (GLSA 200501-43)
<http://www.net-security.org/advisory.php?id=4409>

Gentoo Linux Security Advisory - VDR: Arbitrary file overwriting
issue (GLSA 200501-42)
<http://www.net-security.org/advisory.php?id=4408>

Gentoo Linux Security Advisory - TikiWiki: Arbitrary command execution (GLSA 200501-41)
<http://www.net-security.org/advisory.php?id=4407>

Gentoo Linux Security Advisory - ngIRCd: Buffer overflow (GLSA 200501-40)
<http://www.net-security.org/advisory.php?id=4406>

Gentoo Linux Security Advisory - SquirrelMail: Multiple vulnerabilities (GLSA 200501-39)
<http://www.net-security.org/advisory.php?id=4405>

OpenPKG Security Advisory - sasl (OpenPKG-SA-2005.004)
<http://www.net-security.org/advisory.php?id=4404>

Debian Security Advisory - New f2c packages fix insecure temporary files (DSA 661-1)
<http://www.net-security.org/advisory.php?id=4403>

Mandrakelinux Security Update Advisory - Updated bind packages fix vulnerability (MDKSA-2005:023)
<http://www.net-security.org/advisory.php?id=4402>

US-CERT Technical Cyber Security Alert - Multiple Denial-of-Service Vulnerabilities in Cisco IOS (TA05-026A)
<http://www.net-security.org/advisory.php?id=4401>

Gentoo Linux Security Advisory - Perl: rmtree and DBI tmpfile vulnerabilities (GLSA 200501-38)
<http://www.net-security.org/advisory.php?id=4400>

Gentoo Linux Security Advisory - GraphicsMagick: PSD decoding heap overflow (GLSA 200501-37)
<http://www.net-security.org/advisory.php?id=4399>

SCO Security Advisory - UnixWare 7.1.4 UnixWare 7.1.3 UnixWare 7.1.1: x.org possible local socket hijacking (SCOSA-2005.8)
<http://www.net-security.org/advisory.php?id=4398>

Debian Security Advisory - New kdebbase packages fix authentication bypass (DSA 660-1)
<http://www.net-security.org/advisory.php?id=4397>

Cisco Security Advisory - Crafted Packet Causes Reload on Cisco Routers (1.0)
<http://www.net-security.org/advisory.php?id=4396>

Cisco Security Advisory - Multiple Crafted IPv6 Packets Cause Reload (1.0)
<http://www.net-security.org/advisory.php?id=4395>

Debian Security Advisory - New libpam-radius-auth packages fix several vulnerabilities (DSA 659-1)
<http://www.net-security.org/advisory.php?id=4394>

Mandrakelinux Security Update Advisory - Updated cups packages fix multiple vulnerabilities (MDKSA-2005:022)
<http://www.net-security.org/advisory.php?id=4393>

Mandrakelinux Security Update Advisory - Updated tetex packages fix buffer overflow vulnerability (MDKSA-2005:021)
<http://www.net-security.org/advisory.php?id=4392>

Mandrakelinux Security Update Advisory - Updated kdegraphics packages fix buffer overflow vulnerability (MDKSA-2005:020)
<http://www.net-security.org/advisory.php?id=4391>

Mandrakelinux Security Update Advisory - Updated koffice packages fix buffer overflow vulnerability (MDKSA-2005:019)
<http://www.net-security.org/advisory.php?id=4390>

Mandrakelinux Security Update Advisory - Updated cups packages fix buffer overflow vulnerability (MDKSA-2005:018)
<http://www.net-security.org/advisory.php?id=4389>

Mandrakelinux Security Update Advisory - Updated xpdf packages fix buffer overflow vulnerability (MDKSA-2005:017)
<http://www.net-security.org/advisory.php?id=4388>

Mandrakelinux Security Update Advisory - Updated gpdf packages fix buffer overflow vulnerability (MDKSA-2005:016)
<http://www.net-security.org/advisory.php?id=4387>

Turbolinux Security Announcement - ImageMagick, a2ps, gzip, iptables, libxml, libxml2 (26/Jan/2005)
<http://www.net-security.org/advisory.php?id=4386>

SCO Security Advisory - OpenServer 5.0.6 OpenServer 5.0.7: wu-ftp local users can bypass access restrictions (SCOSA-2005.6)
<http://www.net-security.org/advisory.php?id=4385>

SCO Security Advisory - OpenServer 5.0.6 OpenServer 5.0.7: scosessoin local privilege elevation (SCOSA-2005.5)
<http://www.net-security.org/advisory.php?id=4384>

Gentoo Linux Security Advisory - AWStats: Remote code execution (GLSA 200501-36)
<http://www.net-security.org/advisory.php?id=4383>

Ubuntu Security Notice - Perl DBI module vulnerability (USN-70-1)
<http://www.net-security.org/advisory.php?id=4382>

Conectiva Linux Security Announcement - CLA-2005:921 (xpdf)
<http://www.net-security.org/advisory.php?id=4381>

Debian Security Advisory - New libdbi-perl packages fix insecure temporary file (DSA 658-1)
<http://www.net-security.org/advisory.php?id=4380>

Debian Security Advisory - New xine-lib packages fix arbitrary code execution (DSA 657-1)
<http://www.net-security.org/advisory.php?id=4379>

Debian Security Advisory - New vdr packages fix insecure file access (DSA 656-1)
<http://www.net-security.org/advisory.php?id=4378>

Debian Security Advisory - New zhcon packages fix unauthorised file access (DSA 655-1)
<http://www.net-security.org/advisory.php?id=4377>

Gentoo Linux Security Advisory - Evolution: Integer overflow in camel-lock-helper (GLSA 200501-35)
<http://www.net-security.org/advisory.php?id=4376>

Mandrakelinux Security Update Advisory - Updated mailman packages fix vulnerabilities (MDKSA-2005:015)
<http://www.net-security.org/advisory.php?id=4375>

Mandrakelinux Security Update Advisory - Updated squid packages fix multiple vulnerabilities (MDKSA-2005:014)
<http://www.net-security.org/advisory.php?id=4374>

Mandrakelinux Security Update Advisory - Updated ethereal packages fix multiple vulnerabilities (MDKSA-2005:013)
<http://www.net-security.org/advisory.php?id=4373>

Mandrakelinux Security Update Advisory - Updated zhcon packages fix vulnerability (MDKSA-2005:012)
<http://www.net-security.org/advisory.php?id=4372>

KDE Security Advisory - kpdf Buffer Overflow Vulnerability
(2005-01-19)
<http://www.net-security.org/advisory.php?id=4371>

KDE Security Advisory - Multiple vulnerabilities in Konversation
(20050121)
<http://www.net-security.org/advisory.php?id=4370>

KDE Security Advisory - KOffice PDF Import Filter Vulnerability
(2005-01-20)
<http://www.net-security.org/advisory.php?id=4369>

SUSE Security Announcement - realplayer 8 (SUSE-SA:2005:004)
<http://www.net-security.org/advisory.php?id=4368>

Gentoo Linux Security Advisory - Konversation: Various
vulnerabilities (GLSA 200501-34)
<http://www.net-security.org/advisory.php?id=4367>

Ubuntu Security Notice - evolution vulnerability (USN-69-1)
<http://www.net-security.org/advisory.php?id=4366>

Ubuntu Security Notice - enscript vulnerabilities (USN-68-1)
<http://www.net-security.org/advisory.php?id=4365>

Gentoo Linux Security Advisory - MySQL: Insecure temporary file
creation (GLSA 200501-33)
<http://www.net-security.org/advisory.php?id=4364>

Gentoo Linux Security Advisory - KPdf, KOffice: Stack overflow in
included Xpdf code (GLSA 200501-32)
<http://www.net-security.org/advisory.php?id=4363>

Gentoo Linux Security Advisory - teTeX, pTeX, CTeX: Multiple
vulnerabilities (GLSA 200501-31)
<http://www.net-security.org/advisory.php?id=4362>

Pocket PC software is located at:

http://net-security.org/software_main.php?cat=3

EMAILTRACKERPRO 4 (Windows)

eMailTrackerPro is the e-mail analysis tool that enables you to track Internet e-mails back to the sender.

<http://www.net-security.org/software.php?id=294>

ETHERREAL 0.10.9 (Linux)

Ethereal is a free network protocol analyzer.

<http://www.net-security.org/software.php?id=99>

FIREHOL R5 1.224 (Linux)

FireHOL is a Linux iptables firewall generator.

<http://www.net-security.org/software.php?id=307>

GRSECURITY 2.1.1 (Linux)

grsecurity is a complete security system for Linux 2.4 that implements a detection/prevention/containment strategy.

<http://www.net-security.org/software.php?id=208>

JSCH 0.1.20 (Windows)

JSch is a pure Java implementation of SSH2.

<http://www.net-security.org/software.php?id=417>

PAM_PASSWDQC 0.7.6 (Linux)

pam_passwdqc is a simple password strength checking module for PAM-aware password changing programs, such as passwd.

<http://www.net-security.org/software.php?id=228>

PASSWD_EXP 1.2.2 (Linux)

Passwd_exp notifies users via email of password or account expiration.

<http://www.net-security.org/software.php?id=221>

SNORT 2.3.0 (Linux)

Snort is a lightweight network intrusion detection system, capable of performing real-time traffic analysis and packet logging on IP networks.

<http://www.net-security.org/software.php?id=112>

YASSL 0.9.2 (Linux)
yaSSL is an SSL Library for programmers building security
functionality into their applications and devices.
<http://www.net-security.org/software.php?id=521>

[Conferences]

All conferences are located at:
<http://net-security.org/conferences.php>

Australasian Information Security Workshop 2005
Organized by Australian Computer Society and The University of
Newcastle - 31 January-3 February 2005
<http://www.net-security.org/conference.php?id=107>

Airscanner Wireless Security Bootcamp
Organized by Airscanner - 3 February-4 February 2005
<http://www.net-security.org/conference.php?id=103>

The 12th Annual Network and Distributed System Security Smposium
2005
Organized by The Internet Society Organization Commitee - 3
February-4 February 2005
<http://www.net-security.org/conference.php?id=108>

Winter 2005 Biometrics Summit
Organized by Advanced Learning Institute - 23 February-25 February
2005
<http://www.net-security.org/conference.php?id=129>

Fast Software Encryption 2005
Organized by European Network of Excellence - 24 February-25 February
2005
<http://www.net-security.org/conference.php?id=109>

Financial Cryptography and Security (FC 05) Ninth International
Conference
Organized by RSA Security - 28 February-3 March 2005
<http://www.net-security.org/conference.php?id=110>

International Workshop on Coding and Cryptography (WCC 2005)
Organized by Selmersenteret, INRIA - 14 March-18 March 2005
<http://www.net-security.org/conference.php?id=111>

Third IEEE International Information Assurance Workshop (IWIA'05)
Organized by IEEE Computer Society Task Force on Information
Assurance - 24 March-25 March 2005
<http://www.net-security.org/conference.php?id=112>

ECCE E-crime and Computer Evidence 2005
Organized by n-gate ltd. - 29 March-30 March 2005
<http://www.net-security.org/conference.php?id=94>

Indonesia Cryptology and Information Security Conference 2005
Organized by Lembaga Sandi Negara RI - 30 March-31 March 2005
<http://www.net-security.org/conference.php?id=113>

The 1st International Workshop on Systems and Network Security
(SNS2005)
Organized by University of Colorado at Colorado Springs - 4 April-8
April 2005
<http://www.net-security.org/conference.php?id=114>

Infosec World 2005
Organized by MIS Training Institute - 4 April-6 April 2005
<http://www.net-security.org/conference.php?id=128>

4th Annual PKI R&D Workshop (PKI'05)
Organized by National Institute of Standards and Technology - 19
April-21 April 2005
<http://www.net-security.org/conference.php?id=115>

Infosecurity Europe 2005
Organized by Reed Exhibitions - 26 April-28 April 2005
<http://www.net-security.org/conference.php?id=126>

DallasCon 2005 Professional Cyber Defense Conference
Organized by DallasCon - 2 May-5 May 2005
<http://www.net-security.org/conference.php?id=127>
