

## **HNS Newsletter**

Issue 252 - 14.02.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

---

### **INFOSEC WORLD 2005 IS WHERE CONNECTIONS ARE MADE!**

---

Expand your knowledge with the hottest topics and get real-world strategies and tested techniques for meeting your toughest information security challenges.

<http://www.misti.com/12/os05ba8.html>

---

#### **Table of contents:**

- 1) Security news
- 2) Vulnerabilities
- 3) Advisories
- 4) Articles
- 5) Software
- 6) Webcasts
- 7) Conferences
- 8) Security World
- 9) Virus News

#### **[ Security news ]**

---

##### **LINUX KERNEL SECURITY IS LACKING**

Recent events have shown that the way security in the Linux kernel is handled is broken, and it needs to be fixed right now.

<http://www.net-security.org/news.php?id=7082>

##### **COMBATING THE HIDDEN DANGERS OF ADWARE**

Adware may remain a threat to your Web users, but by adopting proactive filtering, you can ensure that the only unwanted advertisements they see are on TV.

<http://www.net-security.org/news.php?id=7083>

##### **COMPLAINT DROPPED AGAINST DDOS MAFIA**

Federal authorities in Los Angeles have dismissed a criminal complaint filed last August against four men accused of performing DDoS attacks for hire.

<http://www.net-security.org/news.php?id=7084>

#### A .NET DEVELOPER'S GUIDE TO WINDOWS SECURITY

Understanding just what user profiles are, and how they interact with the Windows registry system is key to keeping a secure system. Making sure that your programs store settings in the user-specific settings trees, rather than the program directory, will help keep passwords and other vital information secure.

<http://www.net-security.org/news.php?id=7085>

#### RIAA SUES THE DEAD

Death is no obstacle to feeling the long arm of the Recording Industry Ass. of America.

<http://www.net-security.org/news.php?id=7086>

#### CLI MAGIC: OPENSSSH

Let's explore OpenSSH, which replaces telnet and does a whole lot more.

<http://www.net-security.org/news.php?id=7087>

#### ONLINE BANKING VICTIM FILES SUIT

A Miami businessman is suing Bank of America over \$90,000 he says was stolen from his online banking account in a case that highlights the thorny question of who is responsible when a customer's computer is hacked into.

<http://www.net-security.org/news.php?id=7088>

#### EX-AOL WORKER PLEADS GUILTY

A former software engineer for America Online is charged with selling 92 million screen names and e-mail addresses to spammers. A judge finally lets the guy plead guilty to conspiracy.

<http://www.net-security.org/news.php?id=7089>

#### SAFE FROM A CYBERATTACK?

Nuclear regulatory officials formalize security standards for safety systems.

<http://www.net-security.org/news.php?id=7090>

#### USERS WANT SECURITY RETHINK

Jericho calls for new approach to enterprise security.

<http://www.net-security.org/news.php?id=7091>

#### PHISHERS TARGET MICROSOFT SECURITY INITIATIVE

Phishers are taking advantage of Microsoft's new software anti-piracy initiative by launching a wave of phishing e-mails in an attempt to get credit card numbers from Microsoft customers.

<http://www.net-security.org/news.php?id=7092>

#### 13 EU COUNTRIES LINK UP TO FIGHT SPAM

Anti-spam enforcement authorities in 13 European countries have agreed to work together when investigating complaints about cross-border spam from anywhere within the EU.

<http://www.net-security.org/news.php?id=7093>

#### HOLD THE PHONE, VOIP ISN'T SAFE

In recognition of the fact that new technologies are just as valuable to wrongdoers as to those in the right, a new industry group has formed to look at the security threats inherent in voice over internet protocol.

<http://www.net-security.org/news.php?id=7094>

#### EXPERTS PREDICT FIREFOX SPYWARE WILL SHOW UP THIS YEAR

Spyware experts indicate that with its increased popularity, Firefox itself will become a target for spyware creators, who are already poking at the open source browser alternative.

<http://www.net-security.org/news.php?id=7095>

#### SECURITY'S INSEPARABLE COUPLE

The most familiar names in network security are neither vendors nor geeks: Try Alice and Bob.

<http://www.net-security.org/news.php?id=7096>

#### FBI TURNS OFF UNCLASSIFIED E-MAIL SYSTEM

"We use these accounts to communicate with you folks, view Internet sites, and conduct other non-sensitive bureau business, such as sending out press releases," Special Agent Steve Lazarus, the FBI's media coordinator in Atlanta, says in an e-mail describing the problem.

<http://www.net-security.org/news.php?id=7097>

#### BT DEVELOPS FORMAL CAREER PLAN FOR SECURITY STAFF

BT is creating formal career development programmes for more than 400 full-time IT security professionals as it gears up to create an integrated cross-company security practice.

<http://www.net-security.org/news.php?id=7098>

#### BUSH BACKS BOOST FOR CYBERSECURITY

President Bush's proposed budget for fiscal 2006 would spend 7 percent more on information technology security year-over-year and add cybersecurity to the stable of cross-agency lines of business.

<http://www.net-security.org/news.php?id=7099>

#### IT SECURITY PUSHES FOR PROFESSIONAL STATUS

(ISC)<sup>2</sup>, the global organisation dedicated to training and accrediting IT security staff, has launched an international drive to highlight the professionalism of information security.

<http://www.net-security.org/news.php?id=7100>

#### SUMMIT TO TACKLE INTERNET CRIME

Police and computer experts in Wales will join force for an event aimed at finding ways of tackling the growing problem of internet crime.

<http://www.net-security.org/news.php?id=7101>

#### EMBEDDED PLATFORM TAKES VIRUS CONTROL ONBOARD

The Advantech XP Embedded Ready Platform is a ready-to-run ePlatform preloaded with Windows XP Embedded.

<http://www.net-security.org/news.php?id=7102>

#### HASHING OUT ENCRYPTION

Federal agencies have been put on notice that National Institute of Standards and Technology officials plan to phase out a widely used cryptographic hash function known as SHA-1 in favor of larger and stronger hash functions such as SHA-256 and SHA-512.

<http://www.net-security.org/news.php?id=7103>

#### MICROSOFT TO BUY SYBARI SOFTWARE

Microsoft said Tuesday that it plans to buy Sybari Software, a New York company that makes products to protect business computer systems from Internet threats, including viruses and spam.

<http://www.net-security.org/news.php?id=7104>

#### SPOOFING FLAW HITS WEB BROWSERS

Security firm warns of phishing risk with Firefox, Opera and others.

<http://www.net-security.org/news.php?id=7105>

#### KEEPING WIRELESS ROGUES IN CHECK

After months of testing and taking budget constraints into consideration, our security manager comes up with a wireless policy.

<http://www.net-security.org/news.php?id=7106>

#### USERS WANT SECURITY RETHINK

Jericho calls for new approach to enterprise security.

<http://www.net-security.org/news.php?id=7107>

#### MICROSOFT ANNOUNCES CRITICAL SECURITY BUGS

Microsoft Corp. released eight security fixes Tuesday that carry its highest threat rating and urged computer users to install them quickly because all the vulnerabilities they address could let attackers take complete control of systems.

<http://www.net-security.org/news.php?id=7108>

#### ARE YOUR SERVERS SECURE?

In a word, No. No machine connected to the internet is 100% secure.

<http://www.net-security.org/news.php?id=7109>

**FEDS LOOK TO FINALIZE IT SECURITY CONTROLS**  
NIST has issued the last draft of the new requirements.  
<http://www.net-security.org/news.php?id=7110>

**NESSUS ASSESSES SYSTEM VULNERABILITIES**  
Keeping a server or workstation updated with the latest security patches can be a daunting task.  
<http://www.net-security.org/news.php?id=7111>

**ACCESS CONTROL LISTS**  
If you've used Linux for a long time, you're probably quite familiar with file permissions. Indeed, managing permissions is a critical part of managing a Linux system.  
<http://www.net-security.org/news.php?id=7112>

**WINDOWS SERVER 2003 SP1 RC2 HAS BEEN RELEASED**  
Install Microsoft Windows Server 2003 Service Pack 1 (SP1) Release Candidate 2 (RC2) to help secure your server.  
<http://www.net-security.org/news.php?id=7113>

**BIOMETRICS: THE LEGAL CHALLENGE**  
One of the key drivers behind the push to take up biometric technologies is that governments are beginning to mandate that biometric identifiers such as facial images and fingerprints be used in official documents, including passports.  
<http://www.net-security.org/news.php?id=7114>

**NICTA BEGINS WEB SERVICES SECURITY PROJECT**  
National ICT Australia (Nicta) has announced a three-year, \$2 million agreement with Microsoft for a collaborative research project into the development of technologies to improve Web security.  
<http://www.net-security.org/news.php?id=7115>

**HACKERS SUED FOR TINKERING WITH XBOX GAMES**  
In the first case of its kind, a California video game maker is suing an entire community of software tinkerers for reverse engineering and modifying Xbox games that they legally purchased.  
<http://www.net-security.org/news.php?id=7116>

**THE ROOT OF MYSQL'S SECURITY EVIL?**  
The recent worm attack that hit thousands of MySQL installations reflects a growing trend in the malware world.  
<http://www.net-security.org/news.php?id=7117>

#### TASK FORCE TO FOCUS ON COMMON SECURITY

Officials from the Homeland Security Department and the Office of Management and Budget will lead an intra-agency task force on developing common solutions for cybersecurity.  
<http://www.net-security.org/news.php?id=7118>

#### IIS 6.0 SSL CERTIFICATE EXPORT AND ISA SERVER 2004 IMPORT

Sometimes you want to take an SSL certificate that you already own that is installed on your web server and import it into the ISA firewall's machine certificate store.  
<http://www.net-security.org/news.php?id=7119>

#### PENETRATION TESTING IPSEC VPNS

This article discusses a methodology to assess the security posture of an organization's IPsec based VPN architecture.  
<http://www.net-security.org/news.php?id=7120>

#### SYMANTEC HIT BY LARGE-SCALE FLAW

Security hole affects nearly every product Symantec sells.  
<http://www.net-security.org/news.php?id=7121>

#### SECURITY MANAGEMENT FOR THE LITTLER GUY

Security information management (SIM) systems aren't cheap; prices generally start in the tens of thousands of dollars.  
<http://www.net-security.org/news.php?id=7122>

#### UNEXPECTED ATTACK VECTORS

A new round of attacks and phishing attempts use some unexpected attack vectors that we should have been paying attention to, but weren't.  
<http://www.net-security.org/news.php?id=7123>

#### MY CAR HAS A VIRUS (AND OTHER SECURITY THREATS)

IBM has identified viruses on mobile devices and IP telephony security threats as looming network security risks for 2005. Last year viruses spam and phishing attacks posed the greatest problems.  
<http://www.net-security.org/news.php?id=7124>

#### WHY DO PC USERS PUT UP WITH SO MANY VIRUSES?

Why isn't everyone on a Mac?  
<http://www.net-security.org/news.php?id=7126>

#### GATEWAY TO SECURITY

A VPN gateway provides three essentials for your data: authentication, confidentiality and integrity. We show you what to look for in an enterprise-class device.  
<http://www.net-security.org/news.php?id=7127>

**RSA SECURITY TO OFFER BIG-COMPANY SECURITY TO SMBS**  
RSA Security is preparing to deliver a powerful authentication solution for the long-neglected small to medium-sized business (SMB) market.  
<http://www.net-security.org/news.php?id=7128>

**HP OFFERS DETECT AND CONTAIN SECURITY SOFTWARE**  
HP has started shipping software designed to limit the spread of viruses across corporate networks and reduce the damage they cause during an attack.  
<http://www.net-security.org/news.php?id=7129>

**VIRUS WARNING HITS WINDOWS MEDIA PLAYER**  
Users urged to be careful when viewing PNG images.  
<http://www.net-security.org/news.php?id=7130>

**SECURITY BEST PRACTICES FOR RED HAT AND FEDORA CORE**  
The Center for Internet Security (CIS) is a non-profit association for the promotion of computer security.  
<http://www.net-security.org/news.php?id=7131>

**LINUX DISASTER RECOVERY APP BRINGS LIGHT TO DARKENED N.Y. FIRM**  
In an instant, all the screens went black and the steady hum from the servers' cooling fans ceased, and with each passing second their precious data was unaccounted for, Peter Dominguez faced the potential loss of money and clientele.  
<http://www.net-security.org/news.php?id=7132>

**MICROSOFT'S ANTISPYWARE HIT BY A SPYWARE**  
A Trojan has hit Microsoft's AntiSpyware (Beta), which disables it, and steals banking details login Ids and passwords.  
<http://www.net-security.org/news.php?id=7133>

**SNIFFER DOG THREATENS ONLINE PRIVACY**  
Last month the US Supreme Court effectively trashed this principle in a case that could have a profound impact on privacy rights online.

### INFOSECURITY 2005 - INNOVATIVE METHOD FUELS BUSINESS OPPORTUNITIES

Two weeks ago, Reed Exhibitions held the annual Infosecurity Europe press conference. During the event, hosted in the classy London Millenium Knightsbrdige Hotel, selected journalists from all over the Europe including myself, were introduced to presentations held by 20 of the leading information security companies. In the next couple of weeks, HNS will publish a couple of audio sessions based on the selected presentations.

<http://www.net-security.org/article.php?id=766>

### COMBATING THE HIDDEN DANGERS OF ADWARE

Adware may remain a threat to your Web users, but by adopting proactive filtering, you can ensure that the only unwanted advertisements they see are on TV.

<http://www.net-security.org/article.php?id=765>

### CRIPPIN 2.4 (Pocket PC)

Crippin was designed to protect confidential files in case a Pocket PC is lost or stolen.

<http://www.net-security.org/software.php?id=544>

FLOPPYFW 2.0.11 (Linux)

floppyfw is a router with the advanced firewall-capabilities in Linux that fits on one single floppy disc.

<http://www.net-security.org/software.php?id=211>

KSES 0.2.2 (Linux)

kSES is an HTML/XHTML filter written in PHP.

<http://www.net-security.org/software.php?id=496>

MIMEDEFANG 2.51 (Linux)

MIMEDefang is a flexible MIME email scanner designed to protect Windows clients from viruses.

<http://www.net-security.org/software.php?id=214>

NMAP 3.81 (Linux)

Nmap ("Network Mapper") is an open source utility for network exploration or security auditing.

<http://www.net-security.org/software.php?id=1>

REVELATION 0.4.0 (Linux)

Revelation is a password manager for the GNOME 2 desktop.

<http://www.net-security.org/software.php?id=293>

SAMHAIN 2.0.4 (Linux)

Samhain is an open source file integrity and host-based intrusion detection system.

<http://www.net-security.org/software.php?id=125>

SNORT ALERT MONITOR 20050206 (Linux)

SAM is a real-time Snort alert monitor.

<http://www.net-security.org/software.php?id=248>

VUURMUUR 0.5.61 (Linux)

Vuurmuur is a middle-end/front-end for netfilter/iptables.

<http://www.net-security.org/software.php?id=591>

WINSCP 3.7.3 (Windows)

WinSCP is an open source SSH file transfer protocol and secure copy client for Windows using SSH.

<http://www.net-security.org/software.php?id=6>

YASSL 0.9.5 (Linux)

yaSSL is an SSL Library for programmers building security functionality into their applications and devices.
