[Security news]

WIRELESS SECURITY HANDSET MECHANISM SET FOR DEMO

Texas Instruments, Orange and Trusted Logic are to demonstrate a new wireless security handset mechanism designed to eliminate unauthorised handset use and fraud.

<http://www.net-security.org/news.php?id=7135>

HP INTRODUCES SERVER-BASED ANTI-WORM SOFTWARE

Hewlett-Packard on Friday rolled out a software add-on for its ProLiant servers and HP BladeSystem that shuts down the inside-the-network spread of worms or viruses within milliseconds.

<http://www.net-security.org/news.php?id=7136>

SPAMMERS OUTWIT BLACKLIST STRATEGY

Spammers now have a trick to help them sneak around junk mail filters.

<http://www.net-security.org/news.php?id=7137>

EVALUATING YOUR FIREWALL

John Traenkenschuh considers some of the basic problems confronting firewall administrators. What's the point of having a firewall, if it can't keep intruders out? And what are some of the business and networking issues that cause firewalls to fail at their duty?
<http://www.net-security.org/news.php?id=7138>

FEAR AND LOATHING IN INFORMATION SECURITY

If I were to tell you that I'm proud to be a hacker, would you wish I was dead?
<http://www.net-security.org/news.php?id=7139>

TOP WLAN GEAR

We pitted four top names in wireless against one another in a bruising battery of testing. Our previous review's Editor's Choice repeated its victory, thanks to its well-designed switches and sophisticated access points.
<http://www.net-security.org/news.php?id=7140>

NEXT VIRUS THREAT: WIRELESS PHONES

McAfee and Innopath teaming up to offer security software.
<http://www.net-security.org/news.php?id=7141>

E-MAIL: THE THREAT WITHIN

The law treats emails as 'discoverable documents' in exactly the same way as all other forms of written communication, and as such, just as much care and attention should be taken regarding the content of emails as with other forms of business communication.
<http://www.net-security.org/news.php?id=7142>

NOVELL UNVEILS SECURITY APPLIANCE

Novell this week is expected to launch a software-based security appliance for small and midsized businesses that will protect them from threats such as hackers, viruses, worms, spam and intrusions.
<http://www.net-security.org/news.php?id=7143>

WI-FI ALLIANCE TO BEEF UP SECURITY

The Wi-Fi Alliance is trying to further beef up standard security.
<http://www.net-security.org/news.php?id=7144>

SUPPLIER GROUP TO ADDRESS VOIP SECURITY CONCERNS

Suppliers and consultants have reacted to criticism of the security of voice over IP technology by forming a group - the VoIP Security Alliance - to address user concerns.
<http://www.net-security.org/news.php?id=7145>

DEMO@15 SHOW FOCUSES ON SECURE NETWORKS

Risk assessment is major theme.
<http://www.net-security.org/news.php?id=7146>

CIO'S TURN SPOTLIGHT ON SARBANES SECURITY ISSUE

Security group aims to clear up confusion over the impact of Sarbanes-Oxley on IT security and the role of the IT department in ensuring compliance.

<http://www.net-security.org/news.php?id=7147>

MORE ADVISORIES, MORE SECURITY

More and more, we see articles questioning the security of a given platform based solely on the number of advisories published - and this approach is simply wrong, writes Thierry Carrez, of Gentoo Linux.

<http://www.net-security.org/news.php?id=7148>

CLEVER SERVICE HAS KEY TO E-MAIL SECURITY

How can you be sure your e-mails are safe from prying eyes? To most of us e-mailing mom or even sending work-related e-mails, security really isn't of great concern.

<http://www.net-security.org/news.php?id=7149>

SECURING LINUX WITH MANDATORY ACCESS CONTROLS

Some in the security industry say that Linux is inherently insecure, that the way Linux enforces security decisions is fundamentally flawed, and the only way to change this is to redesign the kernel.

<http://www.net-security.org/news.php?id=7150>

FEATHER LINUX FOR FIREWALLS

The firewall infrastructure of GNU/Linux consists of two parts, the kernel (netfilter) and the configuration structure (iptables).

<http://www.net-security.org/news.php?id=7151>

WHITE HOUSE MAY MAKE NSA THE 'TRAFFIC COP' OVER U.S. COMPUTER NETWORKS

The Bush administration is considering making the National Security Agency -- famous for eavesdropping and code breaking -- its "traffic cop" for ambitious plans to share homeland security information across government computer networks, a senior NSA official says.

<http://www.net-security.org/news.php?id=7152>

KEEPING SECRETS

Most organisations would be shocked to learn of the amount of commercially sensitive information stored in notebook PCs walking out their office doors each day.

<http://www.net-security.org/news.php?id=7153>

CISCO UNVEILS SECURITY OFFERINGS

Cisco Systems today is unveiling nine new software and hardware products, and upgrades to protect corporate computer networks from hackers and other Internet threats.

<http://www.net-security.org/news.php?id=7154>

PROTECTING THE ADMINISTRATOR ACCOUNT

There are some basic and advanced options that you can configure within Windows Active Directory to protect this valued account.

<http://www.net-security.org/news.php?id=7155>

PASSWORDS? WE DON'T NEED NO STINKING PASSWORDS

Concerns over online security are continuing to slow consumer e-commerce growth.

<http://www.net-security.org/news.php?id=7156>

HOW MUCH SECURITY WILL MICROSOFT BE ALLOWED?

Microsoft's announcements at the RSA conference are good news for Windows users, but one has to wonder if they'll really go through unchallenged.

<http://www.net-security.org/news.php?id=7157>

DEFENSE PICKS TWO FOR PKI

Defense Department officials selected two companies to provide digital certificate validation for the department's public-key infrastructure (PKI), a decision that some officials feel could spur a faster move to paperless e-government.

<http://www.net-security.org/news.php?id=7158>

SECURITY FEARS STILL HURTING E-COMMERCE

Many consumers reluctant to shop or bank online.

<http://www.net-security.org/news.php?id=7159>

T-MOBILE HACKER PLEADS GUILTY IN LOS ANGELES

A hacker who broke into the network of T-Mobile USA and accessed personal information of hundreds of customers including a Secret Service agent has pleaded guilty to a single felony hacking charge.

<http://www.net-security.org/news.php?id=7160>

MICROSOFT PLANS NEW IE BROWSER, BETTER SECURITY

Microsoft Corp. will release a new version of Internet Explorer, the world's most widely used Web browsing software, with stronger, built-in security features, chairman Bill Gates said on Tuesday.

<http://www.net-security.org/news.php?id=7161>

MICROSOFT WILL MAKE ANTISPYWARE SOFTWARE FREE OF CHARGE

Microsoft Corp. will give away software to battle spyware, adware and other privacy-invading pests, company co-founder Bill Gates said Tuesday.

<http://www.net-security.org/news.php?id=7162>

PROVIDING DATABASE ENCRYPTION

In this paper, we explore a new approach for data privacy and security in which a security administrator protecting privacy at the level of individual fields and records, and providing seamless mechanisms to create, store, and securely access databases.

<http://www.net-security.org/news.php?id=7163>

HACKING VICTIMS FACE LEGAL THREAT

Or is it an insurance sales pitch?

<http://www.net-security.org/news.php?id=7164>

MITSUBISHI PREPS ZIGBEE FOR ENTERPRISE SECURITY APPS

Mitsubishi readies wireless system that can carry data at up to 250Kbps and uses very little power.

<http://www.net-security.org/news.php?id=7165>

LINUX USERS FEELING MORE SECURE

There are thousands of programmers across the world helping to develop Linux and other open-source applications, and they can quickly jump to the rescue of users with problems associated with hackers, said Stephan Scholz of Astaro Corp. and David Allen of CR Consulting.

<http://www.net-security.org/news.php?id=7166>

NEW SECURITY TOOLS FOCUS ON THE DATA

The increasing mobility of digitized data and a growing concern over privacy is driving security from the network perimeter down to the data level.

<http://www.net-security.org/news.php?id=7167>

SPAM GETS VOCAL WITH VOIP

We're all learning to live with spam but an even more annoying nuisance lies just around the corner. Spit (Spam over internet telephony) is set to become the next pervasive medium for scammers, penis pill purveyors and the rest.

<http://www.net-security.org/news.php?id=7168>

MICROSOFT PROMISES HEAVY INVESTMENT TO TACKLE SECURITY THREATS

Microsoft is spending a third of its \$6bn research and development budget on IT security.

<http://www.net-security.org/news.php?id=7169>

SECURITY SOFTWARE SHOOTOUT

Not only is Symantec ready for Microsoft's looming invasion of its turf, its feisty CEO John Thompson is positively spoiling for a fight.

<http://www.net-security.org/news.php?id=7170>

RESEARCHERS FIND SECURITY FLAW IN SHA-1

Discovery could speed up cracking of the widely used encryption algorithm.

<http://www.net-security.org/news.php?id=7171>

DIGITAL-RIGHTS MANAGEMENT A KEY THEME AT RSA CONFERENCE

Authentica, Liquid Machines, and Microsoft were among the companies offering new or enhanced versions of DRM software.

<http://www.net-security.org/news.php?id=7172>

SECURITY AT RISK FROM FAILURE TO WIPE DISKS
Study of old PCs shows basic protection measures are being overlooked.
<http://www.net-security.org/news.php?id=7173>

MORE WATCHFUL, PROBABLY NOT SAFER
Are you safer now than you were four years ago?
<http://www.net-security.org/news.php?id=7174>

NEW MYDOOM WORM USES SEARCH ENGINES TO SPREAD
Worm variant is using e-mail addresses found through popular search engines.
<http://www.net-security.org/news.php?id=7175>

NOVELL TAKES ENTERPRISE SECURITY FOCUS
Novell is using the platform of this week's LinuxWorld show to roll out a string of products and open source activities aimed at boosting Linux security, in many cases to enterprise levels.
<http://www.net-security.org/news.php?id=7176>

MICROSOFT ON 'ROOTKITS': BE AFRAID, BE VERY AFRAID.
Microsoft security researchers are warning about a new generation of powerful system monitoring programs, or "rootkits," that are almost impossible to detect using current security products and that could pose a serious risk to corporations and individuals.
<http://www.net-security.org/news.php?id=7177>

IS LINUX SECURITY A MYTH?
There are rare occasions in IT when a particular architecture reaches a point where it stops being purely IT driven and takes on a life of its own.
<http://www.net-security.org/news.php?id=7178>

USERS BYPASS COPY PROTECTION ON PORTABLE NAPSTER
Users have found a way to skirt copy protection on Napster Inc's portable music subscription service just days after its high-profile launch, potentially letting them make CDs with hundreds of thousands of songs for free.
<http://www.net-security.org/news.php?id=7179>

TREATING INFECTED SYSTEMS
So your computer has a virus, a Trojan, or one of the other growing range of pests, what do you do?
<http://www.net-security.org/news.php?id=7180>

RESEARCHERS: TYPING STYLE CAN BE A PASSWORD
The way you type is as unique as your eye color or speech patterns and can be used instead of a password to protect your computer, researchers at Louisiana Tech and Penn State say.
<http://www.net-security.org/news.php?id=7181>

CRYPTOGRAPHERS TO HOLLYWOOD: PREPARE TO FAIL ON DRM
Movie industry representatives at RSA 2005 in San Francisco today called on the IT industry in thwarting illegal file sharing before the problem threatened its revenues.
<http://www.net-security.org/news.php?id=7182>

ANALYST: MICROSOFT SECURITY MOVES 'MANDATORY'
"These are must-do moves for Microsoft," says Yankee Group analyst Laura DiDio. "They need to show the industry at large -- their customers, prospective customers, press, analysts and critics -- that they're stepping up to the plate and making every possible effort to make their systems more secure."
<http://www.net-security.org/news.php?id=7183>

STARTUP DIGS OUT NETWORK WORMS
The designers of security semiconductors are finding they must inspect application flows ever more closely if they are to wall off computer viruses and worms that are crawling higher up the software stack.
<http://www.net-security.org/news.php?id=7184>

STUDY FINDS WINDOWS MORE SECURE THAN LINUX
Believe it or not, a Windows Web server is more secure than a similarly set-up Linux server, according to a study presented yesterday by two Florida researchers.
<http://www.net-security.org/news.php?id=7185>

SECURITY CARD KEEPS UP WITH 10GBIT/S NETWORKS
The MTP-10G is billed as the world's first wire-speed 10Gbit/s network intrusion detection and prevention system.
<http://www.net-security.org/news.php?id=7186>

WARNING ON HARD DRIVES' SECURITY
Half the hard disks studied had personal or commercial information.
<http://www.net-security.org/news.php?id=7187>

SECURITY EXPERTS WARN OF 'SCARY' NEW WEB SCAM
A Lancashire-based PC hardware site has become the victim of a sophisticated and disturbing new online fraud.
<http://www.net-security.org/news.php?id=7188>

TEETHING PROBLEMS FOR WIRELESS LANS
The Wireless LAN is an emerging trend, but as with most young technologies, it is plagued by insecurities.
<http://www.net-security.org/news.php?id=7189>

CHECK YOUR FILESYSTEMS' INTEGRITY WITH AFICK
With new threats showing up every day, administrators find it increasingly hard to establish continued trust with their filesystems.
<http://www.net-security.org/news.php?id=7190>

CLARKE RIPS MICROSOFT OVER SECURITY
Former White House adviser alludes to its vulnerabilities.
<http://www.net-security.org/news.php?id=7191>

[Vulnerabilities]

All vulnerabilities are located here:
http://www.net-security.org/archive_vuln.php

Invision Power Boards 1.3.1 Cross Site Scripting Vulnerability
<http://www.net-security.org/vuln.php?id=4034>

hpm_guestbook.cgi JavaScript Injection Vulnerability
<http://www.net-security.org/vuln.php?id=4033>

Multiple Vulnerabilities Resulting From Use of Apple OSX HFS+
<http://www.net-security.org/vuln.php?id=4032>

osCommerce 2.2-MS2 Cross Site Scripting Vulnerability
<http://www.net-security.org/vuln.php?id=4031>

ZoneAlarm 5.1 Invalid Pointer Dereference Vulnerability
<http://www.net-security.org/vuln.php?id=4030>

Kdelibs 3.3.2 Insecure Temporary File Creation Vulnerability
<http://www.net-security.org/vuln.php?id=4029>

[Advisories]

All advisories are located at:
http://www.net-security.org/archive_advi.php

Debian Security Advisory - bidwatcher (DSA 687-1)
<http://www.net-security.org/advisory.php?id=4537>

Fedora Legacy Update Advisory - Updated cyrus-sasl resolves security vulnerabilities (FLSA:2137)
<http://www.net-security.org/advisory.php?id=4536>

SUSE Security Announcement - SUSE Security Summary Report (SUSE-SR:2005:005)
<http://www.net-security.org/advisory.php?id=4535>

Gentoo Linux Security Advisory - GProFTPD: gprostats format string vulnerability (GLSA 200502-26)
<http://www.net-security.org/advisory.php?id=4534>

Gentoo Linux Security Advisory - Squid: Denial of Service through DNS responses (GLSA 200502-25)
<http://www.net-security.org/advisory.php?id=4533>

Mandrakelinux Security Update Advisory - kdelibs (MDKSA-2005:045)
<http://www.net-security.org/advisory.php?id=4532>

Mandrakelinux Security Update Advisory - tetex (MDKSA-2005:044)
<http://www.net-security.org/advisory.php?id=4531>

Mandrakelinux Security Update Advisory - xpdf (MDKSA-2005:043)
<http://www.net-security.org/advisory.php?id=4530>

Mandrakelinux Security Update Advisory - gpdf (MDKSA-2005:042)
<http://www.net-security.org/advisory.php?id=4529>

Mandrakelinux Security Update Advisory - cups (MDKSA-2005:041)
<http://www.net-security.org/advisory.php?id=4528>

Mandrakelinux Security Update Advisory - postgresql (MDKSA-2005:040)
<http://www.net-security.org/advisory.php?id=4527>

SGI Security Advisory - SGI Advanced Linux Environment 3 Security Update #27 (20050207-01-U)
<http://www.net-security.org/advisory.php?id=4526>

Gentoo Linux Security Advisory - Midnight Commander: Multiple vulnerabilities (GLSA 200502-24)
<http://www.net-security.org/advisory.php?id=4525>

HP Security Bulletin - HP Web-enabled Management Software Remote Buffer Overflow (HPSBMA01116)
<http://www.net-security.org/advisory.php?id=4524>

KDE Security Advisory - Buffer overflow in fliccd of kdedu/kstars/indi (2005-02-15)
<http://www.net-security.org/advisory.php?id=4523>

Debian Security Advisory - gftp (DSA 686-1)
<http://www.net-security.org/advisory.php?id=4522>

Turbolinux Security Announcement - postgresql, MySQL, squid, cups (17/Feb/2005)
<http://www.net-security.org/advisory.php?id=4521>

Ubuntu Security Notice - php4 vulnerability (USN-66-2)
<http://www.net-security.org/advisory.php?id=4520>

Debian Security Advisory - emacs21 (DSA 685-1)
<http://www.net-security.org/advisory.php?id=4519>

Ubuntu Security Notice - mailman vulnerabilities (USN-78-2)
<http://www.net-security.org/advisory.php?id=4518>

Mandrakelinux Security Update Advisory - rwho (MDKSA-2005:039)
<http://www.net-security.org/advisory.php?id=4517>

Gentoo Linux Security Advisory - KStars: Buffer overflow in fliccd (GLSA 200502-23)
<http://www.net-security.org/advisory.php?id=4516>

Gentoo Linux Security Advisory - wpa_supplicant: Buffer overflow vulnerability (GLSA 200502-22)
<http://www.net-security.org/advisory.php?id=4515>

Conectiva Linux Security Announcement - evolution (CLA-2005:925)
<http://www.net-security.org/advisory.php?id=4514>

Ubuntu Security Notice - lesstif1-1 vulnerabilities (USN-83-1)
<http://www.net-security.org/advisory.php?id=4513>

Debian Security Advisory - typespeed (DSA 684-1)
<http://www.net-security.org/advisory.php?id=4512>

Mandrakelinux Security Update Advisory - emacs (MDKSA-2005:038)
<http://www.net-security.org/advisory.php?id=4511>

Gentoo Linux Security Advisory - lighttpd: Script source disclosure (GLSA 200502-21)
<http://www.net-security.org/advisory.php?id=4510>

Gentoo Linux Security Advisory - Emacs, XEmacs: Format string vulnerabilities in movemail (GLSA 200502-20)
<http://www.net-security.org/advisory.php?id=4509>

Debian Security Advisory - postgresql (DSA 683-1)
<http://www.net-security.org/advisory.php?id=4508>

Ubuntu Security Notice - linux-source-2.6.8.1 vulnerabilities (USN-82-1)
<http://www.net-security.org/advisory.php?id=4507>

Debian Security Advisory - awstats (DSA 682-1)
<http://www.net-security.org/advisory.php?id=4506>

Mandrakelinux Security Update Advisory - mailman (MDKSA-2005:037)
<http://www.net-security.org/advisory.php?id=4505>

Gentoo Linux Security Advisory - PostgreSQL: Buffer overflows in PL/PgSQL parser (GLSA 200502-19)
<http://www.net-security.org/advisory.php?id=4504>

Gentoo Linux Security Advisory - AWStats: Remote code execution (GLSA 200501-36:03)
<http://www.net-security.org/advisory.php?id=4503>

Gentoo Linux Security Advisory - VMware Workstation: Untrusted library search path (GLSA 200502-18)
<http://www.net-security.org/advisory.php?id=4502>

Gentoo Linux Security Advisory - Opera: Multiple vulnerabilities (GLSA 200502-17)
<http://www.net-security.org/advisory.php?id=4501>

Conectiva Linux Security Announcement - XFree86 (CLA-2005:924)
<http://www.net-security.org/advisory.php?id=4500>

Symantec Security Advisory - Symantec UPX Parsing Engine Heap Overflow (SYM05-003)
<http://www.net-security.org/advisory.php?id=4499>

Zone Labs Security Advisory - Zone Labs IPC Instability (ZL05-01)
<http://www.net-security.org/advisory.php?id=4498>

Debian Security Advisory - htdig (DSA 680-1)
<http://www.net-security.org/advisory.php?id=4497>

Debian Security Advisory - toolchain-source (DSA 679-1)
<http://www.net-security.org/advisory.php?id=4496>

SUSE Security Announcement - mailman (SUSE-SA:2005:007)
<http://www.net-security.org/advisory.php?id=4495>

Gentoo Linux Security Advisory - ht://Dig: Cross-site scripting
vulnerability (GLSA 200502-16)
<http://www.net-security.org/advisory.php?id=4494>

Gentoo Linux Security Advisory - PowerDNS: Denial of Service
vulnerability (GLSA 200502-15)
<http://www.net-security.org/advisory.php?id=4493>

Gentoo Linux Security Advisory - mod_python: Publisher Handler
vulnerability (GLSA 200502-14)
<http://www.net-security.org/advisory.php?id=4492>

Mandrakelinux Security Update Advisory - cpio (MDKSA-2005:032-1)
<http://www.net-security.org/advisory.php?id=4491>

Gentoo Linux Security Advisory - Perl: Vulnerabilities in perl-suid
wrapper (GLSA 200502-13)
<http://www.net-security.org/advisory.php?id=4490>

Gentoo Linux Security Advisory - Webmin: Information leak in Gentoo
binary package (GLSA 200502-12)
<http://www.net-security.org/advisory.php?id=4489>

Trustix Secure Linux Security Advisory - bind clamav cpio cups
mod_python perl postgresql python squid (#2005-0003)
<http://www.net-security.org/advisory.php?id=4488>

Debian Security Advisory - netkit-rwho (678-1)
<http://www.net-security.org/advisory.php?id=4487>

PROVIDING DATABASE ENCRYPTION AS A SCALABLE ENTERPRISE INFRASTRUCTURE SERVICE - PROTECTING AGAINST EXTERNAL AND INTERNAL THREATS

As databases become networked in more complex multi-tiered applications, their vulnerability to external attack grows.

<http://www.net-security.org/article.php?id=768>

THE THREAT WITHIN - WHY BUSINESSES NEED TO MANAGE AND MONITOR EMPLOYEE EMAIL USAGE

The law treats emails as 'discoverable documents' in exactly the same way as all other forms of written communication, and as such, just as much care and attention should be taken regarding the content of emails as with other forms of business communication.

<http://www.net-security.org/article.php?id=767>

[Software]

Windows software is located at:
http://net-security.org/software_main.php?cat=1

Linux software is located at:
http://net-security.org/software_main.php?cat=2

Pocket PC software is located at:
http://net-security.org/software_main.php?cat=3

AIRSCANNER MOBILE ENCRYPTER 2.0b (Pocket PC)

This tool secures data residing on your PDA and lets you lock your device to keep others from using it.

<http://www.net-security.org/software.php?id=547>

DANSGUARDIAN 2.8.0.4 (Linux)

DansGuardian is a web content filter. It filters the actual content of pages based on many methods including phrase matching, PICS filtering and URL filtering.

<http://www.net-security.org/software.php?id=233>

IPTABLES 1.3.0 (Linux)

The netfilter/iptables project is the Linux 2.4.x / 2.5.x firewalling subsystem.

<http://www.net-security.org/software.php?id=4>

LIBNIDS 1.20 (Linux)

Libnids is an implementation of an E-component of Network Intrusion Detection System.

<http://www.net-security.org/software.php?id=466>

MARADNS 1.0.24 (Linux)

MaraDNS is a DNS server that strives to be secure and fully open-sourced.

<http://www.net-security.org/software.php?id=84>

NESSUS 2.2.3 (Linux)

Nessus is a free, powerful, up-to-date and easy to use remote security scanner.

<http://www.net-security.org/software.php?id=19>

NUFW 1.0 RC1 (Linux)

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

ROOTKIT HUNTER 1.2.0 (Linux)

This scanning tool ensures you're clean of nasty tools.

<http://www.net-security.org/software.php?id=531>

SHOREWALL 2.2.1 (Linux)

Shorewall is an iptables based firewall that can be used on a dedicated firewall system, a multi-function masquerade gateway/server or on a standalone Linux system.

<http://www.net-security.org/software.php?id=40>

WINSCP 3.7.4 (Windows)

WinSCP is an open source SSH file transfer protocol and secure copy client for Windows using SSH.

<http://www.net-security.org/software.php?id=6>

XPROBE2 0.2.2 (Linux)

Xprobe 2 is an active operating system fingerprinting tool with a different approach to operating system fingerprinting.

<http://www.net-security.org/software.php?id=231>

XSS-PROXY 0.0.11 (Linux)

XSS-Proxy is a tool for leveraging Cross-Site-Scripting (XSS) flaws to hijack victim browsers and allows a bi-directional interactive control channel between attacker, victim browser and an XSS vulnerable site.

Make Regulatory Compliance Pay with Enterprise Provisioning - 7 steps to reducing the costs of ongoing compliance

Organized by RSA Security on 24 February 2005, 11:00 AM

<http://www.net-security.org/webcast.php?id=358>

[Conferences]

All conferences are located at:

<http://net-security.org/conferences.php>

Winter 2005 Biometrics Summit

Organized by Advanced Learning Institute - 23 February-25 February 2005

<http://www.net-security.org/conference.php?id=129>

Fast Software Encryption 2005

Organized by European Network of Excellence - 24 February-25 February 2005

<http://www.net-security.org/conference.php?id=109>

Financial Cryptography and Security (FC 05) Ninth International Conference

Organized by RSA Security - 28 February-3 March 2005

<http://www.net-security.org/conference.php?id=110>

International Workshop on Coding and Cryptography (WCC 2005)

Organized by Selmersenteret, INRIA - 14 March-18 March 2005

<http://www.net-security.org/conference.php?id=111>

Third IEEE International Information Assurance Workshop (IWIA'05)

Organized by IEEE Computer Society Task Force on Information Assurance - 24 March-25 March 2005

<http://www.net-security.org/conference.php?id=112>

Black Hat Briefings & Training Europe 2005

Organized by Black Hat Briefings - 26 March-1 April 2005

<http://www.net-security.org/conference.php?id=130>

ECCE E-crime and Computer Evidence 2005

Organized by n-gate ltd. - 29 March-30 March 2005

<http://www.net-security.org/conference.php?id=94>

Indonesia Cryptology and Information Security Conference 2005

Organized by Lembaga Sandi Negara RI - 30 March-31 March 2005

<http://www.net-security.org/conference.php?id=113>

The 1st International Workshop on Systems and Network Security (SNS2005)

Organized by University of Colorado at Colorado Springs - 4 April-8 April 2005

<http://www.net-security.org/conference.php?id=114>

Infosec World 2005

Organized by MIS Training Institute - 4 April-6 April 2005

<http://www.net-security.org/conference.php?id=128>

Black Hat Briefings & Training Asia 2005

Organized by Black Hat Briefings - 5 April-8 April 2005

<http://www.net-security.org/conference.php?id=131>

4th Annual PKI R&D Workshop (PKI'05)

Organized by National Institute of Standards and Technology - 19 April-21 April 2005

<http://www.net-security.org/conference.php?id=115>

Infosecurity Europe 2005

Organized by Reed Exhibitions - 26 April-28 April 2005

<http://www.net-security.org/conference.php?id=126>

DallasCon 2005 Professional Cyber Defense Conference
Organized by DallasCon - 2 May-5 May 2005
<http://www.net-security.org/conference.php?id=127>

The International Conference on Computational Science & Its
Applications (ICCSA 05)
Organized by Institute of High Performance Computing - 9 May-12 May
2005
<http://www.net-security.org/conference.php?id=116>
