

HNS Newsletter

Issue 257 - 21.03.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

Make plans now to attend **Black Hat Briefings & Training Europe**, March 29-April 1 in Amsterdam, the world's premier technical security event. Featuring 30 speakers in four tracks, 10 training sessions, with 250 delegates from 20 nations attending. Learn about the technical security market drivers in the European market. You can download an electronic brochure at our site, which will provide you with a 100 Euros discount.

[Security news]

F-SECURE TAKES ON HIDDEN MALICIOUS CODE

Finnish security firm F-Secure last week debuted a scanner for "rootkits", software used by some hackers to hide their malicious code, and posted a free beta of the tool to its website.

<http://www.net-security.org/news.php?id=7341>

STUDY: CIOs TO TARGET NETWORK SECURITY

What are local chief information officers putting at the top of their to-do lists in the next year?

<http://www.net-security.org/news.php?id=7342>

MICROSOFT SECURITY PRACTICE RAISES FEARS

Peiter "Mudge" Zatkó, a security expert who has worked for both the Clinton and Bush administrations, said the risk from Microsoft's

effort was "the worst possible thing for national security."
<http://www.net-security.org/news.php?id=7343>

SCHNEIER: TOKENS WON'T COMPLETELY SECURE DATA
Technology isn't going to protect e-commerce customers -- stronger government regulation is what will get the attention of online banks and merchants, forcing them to stop being casual about security, said Bruce Schneier, founder and chief technology officer of Counterpane Internet Security.
<http://www.net-security.org/news.php?id=7344>

ALTERNATIVE BROWSER SPYWARE INFECTS IE
Some useful citizen has created an installer that will nail IE with spyware, even if a surfer is using Firefox (or another alternative browser) or has blocked access to the malicious site in IE beforehand.
<http://www.net-security.org/news.php?id=7345>

THE CISM PREP GUIDE: MASTERING THE FIVE DOMAINS OF INFORMATION SECURITY MANAGEMENT
Certified Information Security Manager (CISM) is a certification developed by the Information Systems Audit and Control Association (ISACA). This book is a guide that is supposed to make your road to certification easier. Read on to get the details.
<http://www.net-security.org/news.php?id=7346>

APPLICANTS FACE REJECTION FOR HACKING ATTEMPTS
An applicant to the business school of Duke University who tried to hack into his admission file has been rejected, school officials said Friday.
<http://www.net-security.org/news.php?id=7347>

AOL EXPLAINS ITS PRIVACY POLICY
America Online spokesman Andrew Weinstein responded to a request for more information about AOL Instant Messenger's terms of service, which I wrote about Saturday after spotting it on Slashdot.
<http://www.net-security.org/news.php?id=7348>

SUPERMARKETS NEXT IN LINE FOR PHISHING ATTACKS
Online retailers are likely to become the next target of 'phishing' scams, UK police warned last weekend.
<http://www.net-security.org/news.php?id=7349>

FTC BARS BOGUS ANTI-SPYWARE CLAIMS
Free scans detected spyware that wasn't there.
<http://www.net-security.org/news.php?id=7350>

DECEPTIVE DUO HACKER CHANGES PLEA

Robert Lyttle, one of two hackers behind the Deceptive Duo team responsible for a number of network breaches in 2002, including a U.S. Navy database, has decided to plead guilty to the charges filed by the U.S. Attorneys' Office last year, according to documents filed in the case.

<http://www.net-security.org/news.php?id=7351>

FIRMS OVERLOOK THREAT FROM THE ENEMY WITHIN

Sites not fully protected, according to study.

<http://www.net-security.org/news.php?id=7352>

REVISITING NLB BIDIRECTIONAL AFFINITY ON ISA SERVER 2004 SE

Given that NLB is a popular feature, I think its important to provide you more information on this subject.

<http://www.net-security.org/news.php?id=7353>

IT SEC COMMUNITY HAS FALSE SENSE OF SECURITY

A false sense of security could lead IT managers to getting the sack, a new survey has revealed.

<http://www.net-security.org/news.php?id=7354>

STRESS AFFLICTS SECURITY BOSSES

Keeping computer viruses at bay is more stressful than divorce, warns a survey.

<http://www.net-security.org/news.php?id=7355>

AWARD RECOGNISES US PROFESSOR'S CONTRIBUTION TO CYBER SECURITY

The International Information Systems Security Certification Consortium, (ISC)2, has presented Dorothy Denning, one of the world's leading information security experts, with an award for her contribution to cyber security and encryption.

<http://www.net-security.org/news.php?id=7356>

SECURE YOUR SERVER WITH LIDS

The Linux Intrusion Detection System (LIDS) is a kernel patch for both 2.4 and 2.6 kernels that adds Mandatory Access Control (MAC) and other security enhancements to the Linux kernel.

<http://www.net-security.org/news.php?id=7357>

CONTROVERSIAL REPORT FINDS WINDOWS MORE SECURE THAN LINUX

Contrary to popular wisdom, Windows appears to be more secure than a popular version of Linux, according to an upcoming report from two security researchers.

<http://www.net-security.org/news.php?id=7358>

PERSONAL INFORMATION TAKEN IN NEVADA DMV OFFICE BREAK-IN

Personal information from more than 8,900 people was stolen when thieves broke into a Nevada Department of Motor Vehicles office, officials said Friday.

<http://www.net-security.org/news.php?id=7359>

GOVERNMENT AND INDUSTRY BACK IT SECURITY PROFESSIONALISM PLANS

Proposals to create a professional institution that would set minimum standards of professionalism for IT security specialists have won backing from the government and leading businesses.

<http://www.net-security.org/news.php?id=7360>

MICROSOFT TO DITCH PASSWORDS

"We are at a confidence crisis. For the first time we run the risk of taking a step backwards and the reason is the threat of identity theft," said RSA Security chief executive Art Coviello.

<http://www.net-security.org/news.php?id=7361>

GET SMART ABOUT AV GOOD BUYS AND BAD BUYS

While security purchases are likely to be the most crucial decisions an organisation will make, anti-virus (AV) software remains AV software whichever way you choose to look at it.

<http://www.net-security.org/news.php?id=7362>

NEW WORM THROWS 'SMACHDOWN' ON USERS

Elitper-D, a worm new to the Wild, is conning users by disguising itself as a screensaver.

<http://www.net-security.org/news.php?id=7363>

EUROPEAN IT HEADS HAVE FALSE SENSE OF SECURITY

70 percent of companies are open to internet attack.

<http://www.net-security.org/news.php?id=7364>

HACKERS CAN BEAT SECURITY TOKENS

Two-factor authentication 'doesn't solve anything', claims security expert.

<http://www.net-security.org/news.php?id=7365>

UK FIRMS FACE 'SPIRALLING THREAT' FROM EMAIL MISUSE

Clear and present danger as 'banter culture' prevails.

<http://www.net-security.org/news.php?id=7366>

NETWORKING TITANS BUILD OUT SAN, MAN WARES

Network vendors are pushing the envelope with hardware tuned for backup, larger networks, and wireless security, as evidenced by new wares from Cisco, Foundry, and Juniper.

<http://www.net-security.org/news.php?id=7368>

WINDOWS FIREWALLS LACKING

For something as simple as a firewall for Windows servers, a good solution just doesn't exist.

<http://www.net-security.org/news.php?id=7367>

CHOICEPOINT SAYS IT'S SORRY

ChoicePoint's chief executive apologized Tuesday to 145,000 customers exposed to identity theft but he had difficulty convincing some lawmakers the company was doing enough to resolve the problem.

<http://www.net-security.org/news.php?id=7369>

MICROSOFT SECURITY PRACTICE RAISES CONCERNS

Microsoft Corp. is giving early versions of its software security patches to the U.S. Air Force and other organizations, a practice some experts fear could give rogue hackers important details about how to break into unprotected computers on a massive scale.

<http://www.net-security.org/news.php?id=7370>

IT MANAGER SENTENCED TO PRISON IN HACKING CASE

An Orange, Calif., IT manager who earlier pled guilty to hacking into his previous employer's computer network was sentenced Monday to five months in prison, the U.S. Attorney's Office said Tuesday.

<http://www.net-security.org/news.php?id=7371>

BOTNETS MULTIPLYING OVER IRC

Honeynet Project reports hundreds of attacks a month.

<http://www.net-security.org/news.php?id=7372>

WRITING AN INCIDENT HANDLING AND RECOVERY PLAN

The following is an outline of a typical generalized incident handling and response plan for a small to mid-sized organization that doesn't have a dedicated incident response staff.

<http://www.net-security.org/news.php?id=7373>

FIMA CONFERENCE FOCUSES ON IM SECURITY

Instant messaging has revolutionized the way colleagues communicate, but increasing regulations and a growing number of security breaches in the medium have businesses concerned about how much sensitive information might be getting into the wrong hands.

<http://www.net-security.org/news.php?id=7374>

US CYBER-SECURITY 'NEARLY FAILING'

Government agencies scrape through with a 'D+' rating.

<http://www.net-security.org/news.php?id=7375>

LIMEWIRE PATCHES SERIOUS SNOOPING BUGS

Limewire users need to update their software following the discovery of a brace of vulnerabilities.

<http://www.net-security.org/news.php?id=7376>

HACKERS CONTROL MORE THAN A MILLION PCS

German study finds botnet attacks worse than expected.

<http://www.net-security.org/news.php?id=7377>

MAKE SECURITY BUSINESS-ORIENTATED, SAYS EXPERT

Information security today is not about tackling the hacker question but using security models to create business value, according to KPMG risk advisory associate director Rob Goldberg.

<http://www.net-security.org/news.php?id=7378>

AUDITORS FIND IRS WORKERS PRONE TO HACKERS

More than one-third of Internal Revenue Service employees and managers who were contacted by Treasury Department inspectors posing as computer technicians provided their computer login and changed their password.

<http://www.net-security.org/news.php?id=7379>

"HOLY FATHER" ON ROOTKIT WRITING FOR FUN AND PROFIT

Rootkit author discusses efforts to highlight weaknesses in software security.

<http://www.net-security.org/news.php?id=7380>

A METHOD FOR FORENSIC PREVIEWS

This article explains the forensic preview process, whereby a production machine is left as undisturbed as possible while it is evaluated for potential intrusion and compromise.

<http://www.net-security.org/news.php?id=7381>

SECURE BATCH EMAIL WITH UUCP AND SSH

The POP protocol is no solution for people (like me) who want to fetch their email in a practical and efficient manner from multiple locations, be it from a dial-up account or a fixed Internet link.

Thus, it seemed to me that UUCP over SSH provides great benefits for those people.

<http://www.net-security.org/news.php?id=7382>

ALLIANCE TO SECURE WIRED AND WIRELESS NETWORKS

Performance Technologies has teamed up with Open System Consultants (OSC) to provide GSM operators secure authentication, authorisation and accounting for wired or wireless networks.

<http://www.net-security.org/news.php?id=7383>

INTERNATIONAL HACKERS ATTEMPT MASSIVE HEIST
High Tech Crime Unit smashes £220m hacking ring.
<http://www.net-security.org/news.php?id=7384>

ANTI-VIRUS VULNERABILITIES STRIKE AGAIN
Users of McAfee's anti-virus products were warned this week of a potentially serious security vulnerability.
<http://www.net-security.org/news.php?id=7385>

NETWORKS UNDER THREAT FROM RFID ROLLOUTS
IDC's report, commissioned by Cisco, predicts that RFID will have a significant impact on enterprise networks not just because of the number of tags involved, but because of the amount of data each tag could hold and the number of times it is scanned during transit or processing.
<http://www.net-security.org/news.php?id=7386>

ROOTKITS LEAVE ANTIVIRUS SYSTEMS POWERLESS
No defence in standard antivirus code.
<http://www.net-security.org/news.php?id=7387>

WILL BIOMETRIC SECURITY HARM USERS?
Microsoft has launched a keyboard that uses biometric data for authentication, the nattily named Optical Desktop Elite with Fingerprint Reader for Bluetooth.
<http://www.net-security.org/news.php?id=7388>

AUTOMATED PATCHING, EASY APPROACH TO SECURITY
Patch management is an essential administration task within today's busy IT networks with the constant threat of new security bugs.
<http://www.net-security.org/news.php?id=7389>

IM VIRUSES INCREASE BY 50 PER CENT A MONTH
F-Secure detects more than 200 instant messaging worms.
<http://www.net-security.org/news.php?id=7390>

LINUX KERNEL SECURITY, AGAIN
It's a sad day when an ancient fork bomb attack can still take down most of the latest Linux distributions.
<http://www.net-security.org/news.php?id=7391>

HOW TO JUSTIFY INFORMATION SECURITY SPENDING
At a recent seminar on information security management, I heard that FUD (fear, uncertainty and doubt) is dead, that ROI is dead and that the insurance model is dead.
<http://www.net-security.org/news.php?id=7392>

ARE YOU SAFER WITH FIREFOX?

Is Firefox a more secure web browser than Microsoft's Internet Explorer?

<http://www.net-security.org/news.php?id=7393>

PLANNED BANK HEIST RAISES TROJAN WARNINGS

A recently foiled bank heist in London has some security experts issuing heightened warnings about key-logging Trojans.

<http://www.net-security.org/news.php?id=7394>

EXPERTS SUSPECT INSIDER IN HACKERS BID TO STEAL £220M

Detectives are investigating the possibility of insider involvement in a daring electronic bid to steal £220m from the London headquarters of a Japanese corporate bank.

AIRSCANNER MOBILE ENCRYPTER 2.1b (Pocket PC)

This tool secures data residing on your PDA and lets you lock your device to keep others from using it.

<http://www.net-security.org/software.php?id=547>

AUTOPSY FORENSIC BROWSER 2.04 (Linux)

The Autopsy Forensic Browser is a graphical interface to the command line digital forensic analysis tools in The Sleuth Kit.

<http://www.net-security.org/software.php?id=216>

BASTILLE LINUX 2.2.5 (Linux)

The Bastille Hardening System attempts to "harden" or "tighten" the Linux operating system.

<http://www.net-security.org/software.php?id=217>

BOTAN 1.4.6 (Linux)

Botan aims to be a portable, easy to use, and efficient C++ crypto library.

<http://www.net-security.org/software.php?id=94>

DAZUKO 2.0.6 (Linux)

A common interface across all platforms is needed for 3rd party file access control. With such an interface, focus could be redirected from OS hacking to solving real problems. The interface is here.

<http://www.net-security.org/software.php?id=434>

ID_BANK 1.23 (Windows)

ID_Bank is a secure identity and password protection system.

<http://www.net-security.org/software.php?id=91>

IPCOP 1.4.4 (Linux)

IPCop Firewall is a Linux firewall distribution geared towards home and SOHO (Small Office/Home Office) users.

<http://www.net-security.org/software.php?id=147>

LUTELWALL 0.96 (Linux)

Lutel's Firewall Script is a Linux IPtables shell script written in bash for use as a firewall and NAT/masquerade router.

<http://www.net-security.org/software.php?id=379>

MARADNS 1.0.25 (Linux)

MaraDNS is a DNS server that strives to be secure and fully open-sourced.

<http://www.net-security.org/software.php?id=84>

NUFW 1.0.1 (Linux)

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

OS-SIM 0.9.8rc2 (Linux)

OSSIM is a distribution of open source products that are integrated to provide an infrastructure for security monitoring.

<http://www.net-security.org/software.php?id=304>

ROOTKIT HUNTER 1.2.2 (Linux)

This scanning tool ensures you're clean of nasty tools.

<http://www.net-security.org/software.php?id=531>

SAMHAIN 2.0.5a (Linux)

Samhain is an open source file integrity and host-based intrusion detection system.

<http://www.net-security.org/software.php?id=125>

SSL-EXPLORER 0.1.8 (Windows)

The 3SP SSL-Explorer is the world's first open-source SSL-based VPN solution of its kind.

<http://www.net-security.org/software.php?id=579>

THE SLEUTH KIT 2.00 (Linux)

The Sleuth Kit is a collection of UNIX-based command line file system forensic tools.

<http://www.net-security.org/software.php?id=215>
