

## **HNS Newsletter**

Issue 259 - 04.04.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

---

### **REGISTER FOR INFOSECURITY EUROPE 2005**

---

Infosecurity Europe is Europe's number one, dedicated Information Security event. Now in its 10th anniversary year, Infosecurity Europe continues to provide an unrivalled education programme, new products & services, over 250 exhibitors and over 10,000 visitors from every segment of the industry.

---

**Get all the information at: <http://www.infosec.co.uk/hns>**

---

#### **Table of contents:**

- 1) Security news
- 2) Vulnerabilities
- 3) Advisories
- 4) Articles
- 5) Software
- 6) Webcasts
- 7) Conferences
- 8) Security World
- 9) Virus News

#### **[ Security news ]**

---

**SEC FAULTED FOR LAX DATA SECURITY IN GAO REPORT**  
Personal data held in a government database is at increased risk of unauthorized disclosure, modification, or loss--possibly without anyone knowing, government auditors reported Thursday.  
<http://www.net-security.org/news.php?id=7430>

**TODAY'S "HACKER" MOST INTERESTED IN MONEY**  
More malicious code out to get secret information.  
<http://www.net-security.org/news.php?id=7431>

**SIX YEARS AFTER MELISSA, MASS-MAILED MALWARE HAS PEAKED**  
On March 26, 1999, Melissa, the first virus that spread by mailing copies of itself to addresses it dug out of infected machines, swept the Internet. Six years later, mass-mailed worms have reached their

peak, said the researcher who led authorities to the hacker who wrote Melissa.

<http://www.net-security.org/news.php?id=7432>

#### HOW TO HIRE AN IT SECURITY CONSULTANT

Relying on the three Ts can help: thoroughness, timing, and trust.

<http://www.net-security.org/news.php?id=7433>

#### SECURITY DEBATE CENTERS ON FIREFOX AND IE

Microsoft Internet Explorer developer Dave Massy responded to a Mozilla Foundation claim that Firefox will "always" be more secure.

<http://www.net-security.org/news.php?id=7434>

#### MICROSOFT FUNDING OF SECURITY REPORT DECRIED

Finding that system is superior to Linux is biased, critics say.

<http://www.net-security.org/news.php?id=7435>

#### MICROSOFT CONSIDERING DESKTOP, SECURITY CERTS

New cert options for MCPs may be in future.

<http://www.net-security.org/news.php?id=7436>

#### WHY DUE DILIGENCE AS A DEFENSE IS NOT ENOUGH

While businesses have invested in technologies such as firewalls, intrusion detection, and now intrusion prevention, we are all too familiar with FUD (Fear, Uncertainty, and Doubt). How many presentations have you attended in the last six months where a security service provider discusses "Code Red", "Nimda" or "Slammer"? The most recent of these is now two years old. So why are we still discussing them? One word, "fear".

<http://www.net-security.org/news.php?id=7437>

#### MITNICK SEQUEL FAILS TO HACK IT

Whereas Art of Deception had a simple theme - how social engineering gets around your computer defences - Art of Intrusion is less sure of its ground.

<http://www.net-security.org/news.php?id=7438>

#### LEGAL FEARS HALT APPLE VIRUS COMPETITION

Organisers scrap \$25,000 challenge to infect OS X.

<http://www.net-security.org/news.php?id=7439>

#### ORACLE SNAPS UP SECURITY FIRM

Database behemoth Oracle continued its shopping spree yesterday when it bought Oblix, a privately-owned security firm, for an undisclosed amount.

<http://www.net-security.org/news.php?id=7440>

#### CISCO, EARTHLINK, MCI JOIN FORCES AGAINST CYBER ATTACKS

Telecom equipment providers and network operators, including Cisco Systems Inc., EarthLink Inc. and MCI Inc., unveiled on Monday an alliance to combat cyber attacks.

<http://www.net-security.org/news.php?id=7441>

#### DNA KEY TO DECODING HUMAN FACTOR

For law enforcement officials charged with busting sophisticated financial crime and hacker rings, making arrests and seizing computers used in the criminal activity is often the easy part.

<http://www.net-security.org/news.php?id=7442>

#### THE 10 WORST SECURITY PRACTICES

Security specialists are constantly on the lookout for proven methods we can replicate to keep our networks and data safe.

<http://www.net-security.org/news.php?id=7443>

#### INDUSTRY TEAMS UP TO FINGER HACKERS

Official database to examine the behaviour of attacks against IT systems.

<http://www.net-security.org/news.php?id=7444>

#### STOLEN UC BERKELEY LAPTOP EXPOSES PERSONAL DATA

A thief recently walked into a University of California, Berkeley office and swiped a computer laptop containing personal information about nearly 100,000 alumni.

<http://www.net-security.org/news.php?id=7445>

#### PRACTICALLY CERTIFIED

Recent changes to the GIAC makes one question the value of certification for the security industry.

<http://www.net-security.org/news.php?id=7446>

#### BREAKING FIREWALLS WITH OPENSSSH AND PUTTY

If the system administrator deliberately filters out all traffic except port 22 (ssh), to a single server, it is very likely that you can still gain access other computers behind the firewall.

<http://www.net-security.org/news.php?id=7447>

#### TACKLING THE ENEMY WITHIN

Staff training is as vital to network security as the most cutting-edge patch or state-of-the-art email filter.

<http://www.net-security.org/news.php?id=7448>

#### NET FINGERPRINTS COMBAT ATTACKS

Eighty large net service firms have switched on software to spot and stop net attacks automatically.

<http://www.net-security.org/news.php?id=7449>

#### PHISHERS SPREAD NET FOR SMALLER PREY

Fraudsters moving away from banks towards e-commerce sites.  
<http://www.net-security.org/news.php?id=7450>

#### NEW WARPS TO PROVIDE SECURITY EARLY WARNING

The government has stepped up its drive to protect the UK's critical technology infrastructure by backing the creation of computer security and cybercrime information exchanges for businesses in Yorkshire and the North East.  
<http://www.net-security.org/news.php?id=7451>

#### PHONE HACKERS TAP INTO HOSPITAL

Cyber criminals have hacked into a private hospital's telephone system, racking up almost \$5,000 in international calls in an attack experts warn is becoming increasingly common.  
<http://www.net-security.org/news.php?id=7452>

#### MICROSOFT WORKING ON NEW ID SYSTEM

Microsoft Corp. will build software for managing identities into Windows in order to beef up security by giving users more control over their personal information, the world's largest software maker said Tuesday.  
<http://www.net-security.org/news.php?id=7453>

#### NETWORK TO FIGHT BACK AGAINST DOS ATTACKS

"Service providers that are cooperating by sharing attack fingerprints are helping mitigate these threats more quickly and closer to the source, thus making the Internet a more secure place," says Yankee Group senior analyst Jim Slaby.  
<http://www.net-security.org/news.php?id=7454>

#### LOGON TYPE CODES REVEALED

The logon/logoff category of the Windows security log gives you the ability to monitor all attempts to access the local computer.  
<http://www.net-security.org/news.php?id=7455>

#### MALWARE COMES OF AGE: THE ARRIVAL OF THE TRUE COMPUTER PARASITE

Even though malware has been a recognised threat within the general IT community for well over 15 years, it is effectively a bigger problem now than it has ever been before.  
<http://www.net-security.org/news.php?id=7456>

#### ANALYSTS SLAM HACKER LAW CHANGES

Technology darling Derek Wyatt MP is proposing changes to the Computer Misuse Act next week but analysts from the Butler Group says the changes don't go far enough.  
<http://www.net-security.org/news.php?id=7457>

#### EUROPEANS WORRY ABOUT ONLINE BANKING SECURITY

Phishing, keystroke logging and other types of scams are increasingly worrying users of online banking services in Europe while scaring others away, according to a report issued Tuesday from Forrester Research Inc.

<http://www.net-security.org/news.php?id=7458>

#### EMEA ENTERPRISE SECURITY MARKET UP 49% IN Q4 2004

The Europe, Middle East and Africa (EMEA) enterprise security market continued its impressive record of growth in the fourth quarter of 2004 to achieve the highest value yet seen in a single quarter.

<http://www.net-security.org/news.php?id=7459>

#### SURFERS URGED TO TAKE PHISHING IQ TEST

Get smart, not ripped off.

<http://www.net-security.org/news.php?id=7460>

#### MICROSOFT DROPS BLASTER VIRUS WRITER FINE

Parsons' punishment, an alternative to paying Microsoft back the money, was the result of an agreement between prosecutors, defense attorneys and Microsoft representatives yesterday.

<http://www.net-security.org/news.php?id=7462>

#### PROTECT WIRELESS ACCESS USING MAC ADDRESS FILTERS

There are a number of basic steps you should take to protect your wireless network and filtering MAC addresses is one more way to secure it.

<http://www.net-security.org/news.php?id=7463>

#### 7 COMPUTER SECURITY TIPS FOR STUDENTS

Preparing for school used to mean filling a backpack with a handful of sharpened pencils, spiral notebooks, and a dozen textbooks.

<http://www.net-security.org/news.php?id=7464>

#### NEW IDENTITY THEFT SCENARIOS

Just wanted to let in all of my friends and family on a secret I learned while attending an Identity Theft class put on at the Ontario Convention Center on March 22, 2005.

<http://www.net-security.org/news.php?id=7465>

#### SWEATING OVER SECURITY - NEW EXAMS FROM MICROSOFT

Two new exams for developers really put your secure coding expertise to the challenge.

<http://www.net-security.org/news.php?id=7466>

#### APPRENTICE HACKER RINGS UP LARGE PHONE BILL

An "apprentice" hacker broke into the PABX (private automatic branch exchange) system of John James Hospital in Canberra, Australia, last

week and made more than A\$5,000 (US\$3,850) worth of international calls.

<http://www.net-security.org/news.php?id=7467>

#### WEB BROWSER FORENSICS, PART 1

This article provides a case study of digital forensics, and investigates incriminating evidence using a user's web browser history.

<http://www.net-security.org/news.php?id=7468>

#### VENDORS OFFER IP-TELEPHONY SECURITY SERVICES

Enterasys Networks and Lucent Technologies introduced a package of services designed to improve the security of IP telephony networks.

<http://www.net-security.org/news.php?id=7469>

#### MICROSOFT EXPANDS WINDOWS PIRACY CHECK ON DOWNLOADS

Policy will apply to local language add-ons.

<http://www.net-security.org/news.php?id=7470>

#### WINDOWS SERVER 2003 SP1 IS HERE

SP1 heavily laced with security fixes.

<http://www.net-security.org/news.php?id=7471>

#### US INTEL AGENCIES 'INCOMPETENT'

US intelligence agencies suffer from a poor analytical process influenced by presumptions and biases, and poor data collection capabilities, according to an unclassified report just out from the Commission on the Intelligence Capabilities of the United States Regarding Weapons of Mass Destruction.

<http://www.net-security.org/news.php?id=7472>

#### MOZILLA BUG BOUNTY PAYS FAULT-FINDERS

Users who find flaws offered \$500 per bug plus a free T-shirt.

<http://www.net-security.org/news.php?id=7473>

#### IM USERS GO PRIVATE TO GET SECURE

A quarter of surveyed readers are using private enterprise instant messaging systems which are more secure than the public systems.

<http://www.net-security.org/news.php?id=7474>

#### ENTERPRISE SECURITY BOOM CONTINUES

The market for enterprise security is growing at its highest rate ever in Europe, according to analyst firm Canalys.

<http://www.net-security.org/news.php?id=7475>

#### GRID COMPUTING CAN ALLOW SECURITY THREATS

Security experts on Wednesday recommended that IT administrators

clearly identify and understand the security risks associated with large-scale grid computing deployments.  
<http://www.net-security.org/news.php?id=7476>

#### BLOGGER CATCHES IDENTITY THIEVES

This morning, I found out that thousands of dollars of charges had been made on two of my credit cards in the past two days. Now, the identity thieves are sitting in jail. This is how it happened.  
<http://www.net-security.org/news.php?id=7477>

#### EU PUSHES FOR SAFEGUARDS ON BIOMETRIC TECHNOLOGIES

Report examine effects of EU's decision to use biometric passports, visas, resident permits.  
<http://www.net-security.org/news.php?id=7478>

#### IDENTITY THEFT: ARE ORGANIZATIONS OBLIGED TO NOTIFY CLIENTS?

Although identity theft is not a new offense, the Internet has provided perpetrators with new means to misappropriate personal data.  
<http://www.net-security.org/news.php?id=7479>

#### LAWSUITS DRIVE 'SPAM KING' RICHTER TO BANKRUPTCY

The received wisdom in libertarian circles is that email anti-spam laws don't work, so they're not worth trying.  
<http://www.net-security.org/news.php?id=7480>

#### MICROSOFT FILES 117 PHISHING LAWSUITS

Software giant seeking to identify large-scale operations, collect damages.  
<http://www.net-security.org/news.php?id=7481>

#### SECURING YOUR ONLINE PRIVACY WITH TOR

The Tor project can help you keep your online communication private.  
<http://www.net-security.org/news.php?id=7482>

#### MARCH'S BUG STORY: OLD WORMS MAINTAIN GRIP

Older worms and viruses continued to dominate March's list of Top 10 baddest apples, security firms say.  
<http://www.net-security.org/news.php?id=7483>
