

## **HNS Newsletter**

Issue 268 - 06.06.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

---

### **INFOSECURITY CANADA**

---

Infosecurity Canada, taking place June 14-16, 2005 at the Metro Toronto Convention Centre, brings together professionals interested in IT security with suppliers of security products and solutions. It offers attendees a comprehensive conference program, coupled with an exhibition floor occupied by leading companies, where they can thoroughly evaluate solutions available to them.

[ **Security news** ]

---

#### **MANAGING IM AND E-MAIL THREATS IN THE WORKPLACE**

Unmanaged instant messaging is becoming a major problem in the workplace, security experts warn. According to Francis Costello, chief marketing officer for Akonix Systems, a provider of software to manage instant messaging and e-mail, 80 to 90 percent of all companies have some instant messaging in use by employees.

<http://www.net-security.org/news.php?id=7910>

#### **FEDS TAKE AIM AT SPYWARE, BUT IT ISN'T OPTIMISTIC**

Many purveyors of spam are beyond the reach of two proposed laws, tech pros say.

<http://www.net-security.org/news.php?id=7911>

#### HYBRID WORM WAVE OF THE FUTURE

A new worm that hit users this week is a perfect example of the future of malicious code, said Panda Software. And that future looks ominous.

<http://www.net-security.org/news.php?id=7912>

#### BIG BROTHER TRIES TO MUSCLE ISPS

The Bush administration asked a federal appeals court Friday to restore its ability to compel Internet service providers to turn over information about their customers or subscribers as part of its fight against terrorism.

<http://www.net-security.org/news.php?id=7913>

#### OVISLINK RS-1000 SECURITY GATEWAY REVIEWED

The appliance focuses purely on broadband security so wireless networking is not on the menu which is a pity considering the price.

<http://www.net-security.org/news.php?id=7914>

#### SECURITY BEST PRACTICES

Centralization, automation, problem prioritization--many IT-security professionals are embracing those concepts as they fight off the never-ending onslaught of threats.

<http://www.net-security.org/news.php?id=7915>

#### CRIMINAL INTENT: WHAT, ME WORRY?

How much cybercrime simply goes undetected?

<http://www.net-security.org/news.php?id=7916>

#### US BIOMETRIC ID REQUEST RAISES ID CONCERN IN UK

The UK government plans to issue its ID card as a passport with biometric identifiers stored in a chip – and the US wants those chips to be compatible with its own scanners, raising the possibility that US agencies could have access to the ID Card database.

<http://www.net-security.org/news.php?id=7917>

#### FIREWALLS AND WORMS

Some of the activity that worms/viruses can cause may not be caught by anti-virus software.

<http://www.net-security.org/news.php?id=7918>

#### DHS FALLS SHORT ON CYBERDUTIES

The Department of Homeland Security has failed to fulfill the cybersecurity responsibilities it has been assigned since its creation in January 2003, according to a government report released last week.

<http://www.net-security.org/news.php?id=7919>

#### FINDING SECURITY IN A WIRELESS WORLD

As WLANs continue to rapidly proliferate, the technology is scarcely discussed without mention of security concerns.

<http://www.net-security.org/news.php?id=7920>

#### IBM UNVEILS NEW PRIVACY TECHNOLOGY

DB2 Anonymous Resolution enables selected data sharing.

<http://www.net-security.org/news.php?id=7921>

#### HARDWARE SECURITY SCHEME WORKS AT NET INFRASTRUCTURE

Two small networking companies are collaborating on a new concept for network security.

<http://www.net-security.org/news.php?id=7922>

#### MIDEAST INCREASINGLY AT RISK FROM CYBER-CRIME

Almost halfway through 2005 and it already seems as though this year will far surpass 2004 as the worst year on record for global cyber-crime.

<http://www.net-security.org/news.php?id=7923>

#### INFRARED MEETS SPEED AND SECURITY NEEDS

Bluetooth and its ilk may be making the news, but there is an alternative, and in the battle for wireless networks the short-range option may prove to be the victor.

<http://www.net-security.org/news.php?id=7924>

#### SUPPORTING ISA FIREWALL NETWORKS PROTECTING ILLEGAL TOP-LEVEL DOMAINS

Of all the issues in ISA firewall networking, the one that most commonly gets people hot under the collar is that of the split DNS.

<http://www.net-security.org/news.php?id=7925>

#### INVESTMENT BANK UBS: ONE OF OUR DISC DRIVES IS MISSING

Investment bank UBS has launched an investigation after a disc reckoned to contain sensitive client data went missing.

<http://www.net-security.org/news.php?id=7926>

#### FBI VETERAN TO SECURE MICROSOFT

Expert to face uphill struggle?

<http://www.net-security.org/news.php?id=7927>

#### HP STAKES BID TO DOMINATE ID MARKET

HP last week made a grab for a bigger slice of the lucrative identity market with the release of a National Identity System (NIS) based on Microsoft's .NET platform.

<http://www.net-security.org/news.php?id=7928>

#### LONDON COUPLE ARRESTED FOR ROLE IN LARGE-SCALE INDUSTRIAL ESPIONAGE

According to several media reports, Israeli police have revealed their findings of a large-scale industrial espionage scandal.

<http://www.net-security.org/news.php?id=7929>

#### NEC DELAYS QUANTUM CRYPTOGRAPHY SYSTEM

Company hoped to sell the technology later this year, but delayed it for at least three years.

<http://www.net-security.org/news.php?id=7930>

#### ISRAELI POLICE UNCOVER TROJAN INDUSTRIAL SPY RING

The malware was allegedly used to steal corporate secrets.

<http://www.net-security.org/news.php?id=7931>

#### BLANK VIRUS BLANKS EMAIL

A new version of the Bagle Downloader is spreading like wildfire via email, according to email filtering firm MessageLabs.

<http://www.net-security.org/news.php?id=7932>

#### EMPLOYEE TRAINING & EDUCATION CAN MITIGATE THREATS

Security isn't only about protecting your network from external threats; it's also about protecting against threats from within.

<http://www.net-security.org/news.php?id=7933>

#### SPAM HURTS DEVELOPING COUNTRIES MOST, OECD SAYS

Underdeveloped nations lack technology, money and knowledge to stop unwanted e-mail.

<http://www.net-security.org/news.php?id=7934>

#### AN INTRODUCTION TO SECURING LINUX WITH APACHE, PROFTPD AND SAMBA

Many machines come with default installations of Apache and Samba, and a few others even include a FTP daemon. While these services may be disabled by default, some users may be inclined to use these programs. This article is a brief, but in-depth tutorial on how to keep these applications up-to-date and secure.

<http://www.net-security.org/news.php?id=7935>

#### FEDERAL AGENCIES TO USE RFID, BUT CITE SECURITY CONCERNS

Thirteen of the largest federal agencies are using or plan to use radio-frequency identification technology, according to a study released last week by the Government Accountability Office.

<http://www.net-security.org/news.php?id=7936>

#### DETERRENCE MUST BE THE KEY TO AVOIDING DDOS ATTACKS

Computing talks to the corporate victims of a malicious distributed denial of service attack.

<http://www.net-security.org/news.php?id=7937>

**NETWORK SECURITY REVENUES TO RISE 27% TO \$1.3 BILLION**  
Infonetics says revenues rose 5% in first quarter, will grow 15% per year between 2004 and 2008.  
<http://www.net-security.org/news.php?id=7938>

**NEW MYTOB WORM POSES AS IT ADMINISTRATOR**  
Another variant of the Mytob worm began wiggling its way into inboxes this week, enticing recipients to open an e-mail attachment that could allow a remote hacker to access and perform commands on an infected machine.  
<http://www.net-security.org/news.php?id=7939>

**COLLEGES REJECT APPLICANTS WHO FOLLOWED HACKING INSTRUCTIONS**  
Stanford University's Graduate School of Business has rejected 41 applicants who tried to access an admissions Web site earlier this year in hopes of learning their fate ahead of schedule.  
<http://www.net-security.org/news.php?id=7940>

**NEW BILL PROPOSES 10-YEAR SENTENCE FOR ONLINE FRAUD**  
Home Office gets tough on phishing.  
<http://www.net-security.org/news.php?id=7941>

**EUROPE PCS MOST USED IN ATTACKS**  
European computers are the most susceptible to exploitation by hackers looking to carry out distributed denial of service (DDoS) attacks on internet businesses, according to two reports released last week.  
<http://www.net-security.org/news.php?id=7942>

**BAGLE VIRUS PERIL IN EMPTY E-MAIL**  
Another variant of the computer virus, Bagle, has quickly been making its way across the net, say security experts.  
<http://www.net-security.org/news.php?id=7943>

**M-COMMERCE SECURITY RISKS EXPOSED**  
Vulnerabilities in mobile applications offer a way to attack otherwise secure web sites, according to independent security consultancy SecureTest.  
<http://www.net-security.org/news.php?id=7944>

**TIME TO BLOW SPYWARE'S COVER**  
The need for systems and processes that root out spyware is becoming acute.  
<http://www.net-security.org/news.php?id=7945>

**TAKING THE SPAM FIGHT BEYOND MESSAGE DEFLECTION**  
AppRiver, Habeas, OmniTI tools protect e-mail senders and recipients.  
<http://www.net-security.org/news.php?id=7946>

#### COMPANIES TAKE TO THE SECURITY WARPATH

Eric Litt, chief information security officer at General Motors, calls it "management by inclusion".

<http://www.net-security.org/news.php?id=7947>

#### KEYBOARD COPS

Forget leaving fingerprints at the scene of the crime. Today's police know that the hard evidence they find on your hard drive can put you behind bars.

<http://www.net-security.org/news.php?id=7948>

#### HOW SAVVY ARE YOU ABOUT YOUR ONLINE SECURITY?

U.S. residents are "dangerously ignorant" of the data that Web site owners collect on them, a study shows.

<http://www.net-security.org/news.php?id=7949>

#### WHY YOUR SECURITY INVESTIGATION IS GOING TO FAIL

Walking in to a business and finding the smoldering corpse of a mishandled security investigation seems to be all too common lately.

<http://www.net-security.org/news.php?id=7950>

#### THE ART OF SELLING SECURITY

We asked security officers to share creative methods they've used to get funding for infosec projects.

<http://www.net-security.org/news.php?id=7951>

#### INFOSECURITY CANADA

---

Infosecurity Canada, taking place June 14-16, 2005 at the Metro Toronto Convention Centre, brings together professionals interested in IT security with suppliers of security products and solutions. It offers attendees a comprehensive conference program, coupled with an exhibition floor occupied by leading companies, where they can thoroughly evaluate solutions available to them.
