

HNS Newsletter

Issue 269 - 13.06.2005.

<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

BLACK HAT BRIEFINGS & TRAINING USA

Attend the Black Hat Briefings & Training USA, July 23-28, 2005 in Las Vegas. World renowned security experts reveal tomorrow's threats today. Free of vendor pitches, the Briefings are designed to be pragmatic regardless of your security environment. Featuring 29 hands-on training courses and 10 conference, networking opportunities with over 2,000 delegates from 30+ nations.

- 9) Virus News

[**Security news**]

SECURITY BAROMETER SURVEY: THE PSYCHOLOGY OF SECURITY

Elaine Axby of Quocirca presents the findings from its IT security survey which compares the perceptions and realities of common security threats in today's world.

<http://www.net-security.org/news.php?id=7952>

MYTOB WORM DISABLES PC SECURITY

Anti-virus software maker Sophos has issued a warning on a new type of worm that is spreading rapidly and making it difficult for users of infected systems to clean up their Windows PCs.

<http://www.net-security.org/news.php?id=7953>

CA BOOSTS BIZ APPS' SECURITY

Computer Associates International today unveiled its eTrust Identity and Access Management Toolkit, a product targeted at helping developers build more manageable identity-based security into their business applications.

<http://www.net-security.org/news.php?id=7954>

HOW DO COMPUTER VIRUSES WORK?

Computer viruses are mysterious and grab our attention. On the one hand, viruses show us how vulnerable we are.

<http://www.net-security.org/news.php?id=7955>

CHEAPER, MORE SECURE ID SYSTEM SET OUT

Academics have proposed an alternative to the Government's plans for a national identity card scheme which they claim will be more secure, reliable, cost-effective and citizen-friendly.

<http://www.net-security.org/news.php?id=7956>

FEAR WILL KEEP DRIVING SECURITY SALES

Selling on fear is one way of getting an almost sure-fire sale.

<http://www.net-security.org/news.php?id=7957>

ARE VIRUS WRITERS CREATING A SUPER WORM?

Recent rash of Mytob worm variant has some security experts concerned.

<http://www.net-security.org/news.php?id=7958>

PUBLISHING SECURE FTP SERVERS BEHIND ISA FIREWALLS

This article discusses how to create a PASV mode FTP server or a secure FTP server which is behind ISA Server 2004.

<http://www.net-security.org/news.php?id=7959>

FIRMS WARNED THEY MAY BE TARGETS OF TROJAN SPIES

UK businesses should take urgent steps to check their systems are secure, police have warned after discovering one of the world's largest industrial espionage and hacking operations.

<http://www.net-security.org/news.php?id=7960>

WI-FI SECURITY: LEVERAGE WHAT YOU KNOW

How do you know that you've covered all the bases when it comes to wireless LAN security?

<http://www.net-security.org/news.php?id=7961>

DIRT CHEAP NETWORK SECURITY

Throwing money at security vulnerabilities may not make you safer at all. Follow this advice for low-cost and no-cost security measures to put your network beyond the reach of the bad guys.

<http://www.net-security.org/news.php?id=7962>

ANOTHER FLAW FOUND IN MOZILLA

It appears the Mozilla foundation must deal with another round of fixes to its popular browsers after a security firm pointed out that they are susceptible to a seven-year-old vulnerability that could let attackers spoof Web sites.

<http://www.net-security.org/news.php?id=7963>

INTERVIEW WITH THEO DE RAADT

What's your personal point of view about Security? Almost all security problems are simply a result of poor quality.

<http://www.net-security.org/news.php?id=7964>

MICROSOFT'S MOST SUCCESSFUL FAILURE

Someone once asked Pable Picasso which one of his many paintings was his favorite. His reply: the next one. Ask Steve Ballmer which version of Windows is the most secure and guess what his answer will be?

<http://www.net-security.org/news.php?id=7965>

COMPANIES RUSH TO PLUG 'DATA LEAKS'

The threat entails employees leaking sensitive data about customers, finances or intellectual property in violation of security policies and regulatory requirements.

<http://www.net-security.org/news.php?id=7966>

TECH VS. TERRORISM

The FBI stumbled badly in modernizing its IT to help fight terrorism. Here's how the bureau plans to get on track.

<http://www.net-security.org/news.php?id=7967>

INTRODUCING GT4 SECURITY

In this article, you are introduced to the Grid Security Infrastructure (GSI), the security component in Globus Toolkit 4 (GT4).

<http://www.net-security.org/news.php?id=7968>

THE TRUE COMPUTER PARASITE

It is now twenty years since Fred Cohen published his seminal research paper suggesting the potential threat of computer viruses. In the years since this publication, the risk that Cohen described has unquestionably been borne out, and alongside hackers, the threat of the computer virus is the security issue that has most clearly permeated the public mind.

<http://www.net-security.org/news.php?id=7969>

SECURE MAC AND LINUX AUTHENTICATION

There are several reasons I'm not a big Apple fan (high prices, blogger lawsuits etc.) but let's blame them for the right things.
<http://www.net-security.org/news.php?id=7970>

A TALE OF TWO HACKERS

Lapping up the sunshine outside a downtown cafe, Kevin Mitnick is apprehensive.
<http://www.net-security.org/news.php?id=7971>

HOW WELL DO YOU KNOW YOUR PARTNER?

This is an opinion piece with 8 helpful hints and tips on how to avoid becoming a victim of industrial espionage and malicious hackers.
<http://www.net-security.org/news.php?id=7972>

TELSPACE RESEARCH EXPOSES PEAK HACKER ASSAULT PERIODS

There are specific periods when Web servers are most vulnerable to hacker attacks, says Dino Covotsos, MD and founder of IT security provider Telspace.
<http://www.net-security.org/news.php?id=7973>

STUDY: FLAW DISCLOSURE HURTS SOFTWARE MAKERS' STOCK

Software makers stand to lose significant market value whenever a flaw is found in their products, two university researcher said in a paper published last week.
<http://www.net-security.org/news.php?id=7974>

HACKERS WANT YOU

Dave Bullard read these two books on hacking and immediately updated his computer security.
<http://www.net-security.org/news.php?id=7975>

RANKIN FRIEND DUIC DENIES HACKING INTO RBC COMPUTER

Daniel Duic denied a lawyer's suggestion yesterday that he regularly had the opportunity to get insider information on stocks by hacking into the server at brokerage firm RBC Dominion Securities Inc.
<http://www.net-security.org/news.php?id=7976>

PAOGA - AN ANSWER TO THE PRIVACY PROBLEM?

Information wants to be free, as the dotcom era cliché would have it. Sadly, that is true of your private personal details as anything else.
<http://www.net-security.org/news.php?id=7977>

MICROSOFT CENTRALIZES PATCH MANAGEMENT

Microsoft CEO Steve Ballmer introduces new versions of Windows Server Update Service and Microsoft Update to make it easier for customers to find and download security patches and software updates.

<http://www.net-security.org/news.php?id=7978>

SEAGATE'S DRIVE PLANS INCLUDE 500 GBS AND ENCRYPTION

Seagate Technology unveiled its 2005 lineup on Wednesday, which takes drives to the half-terabyte level and introduces a product family that encrypts data.

<http://www.net-security.org/news.php?id=7979>

BRIT HACK SUSPECT FACES EXTRADITION FIGHT

A Briton suspected of hacking into numerous US military and NASA computers faces an extradition fight following his arrest in London on Tuesday.

<http://www.net-security.org/news.php?id=7980>

ISPS FOUND INNOCENT OF AIDING ZOMBIE ATTACKS IN 'TRIAL'

Mock trial determines that ISPs still can do more to protect users.

<http://www.net-security.org/news.php?id=7981>

BANKING ON SECURITY

On the face of it banks face a conundrum when it comes to on-line security.

<http://www.net-security.org/news.php?id=7982>

AT&T'S SECURITY HEAD WEARS MANY HATS

AT&T's Chief Security Information Officer Ed Amoroso recently spoke with Network World about his job heading up security for one of the largest telecom companies in the world.

<http://www.net-security.org/news.php?id=7983>

GNER PRINTS PASSWORDS IN CUSTOMER MAGAZINE

Train operator's mainframe security publicised in photograph.

<http://www.net-security.org/news.php?id=7984>

VIRUS PHISHES FOR VICTIMS

The creators of the Mytob virus or its variants are trying a new trick to infect people's computers — phishing.

<http://www.net-security.org/news.php?id=7985>

BLUETOOTH HACK SHAKES MOBILE SECURITY

Cryptographers have discovered a security flaw in implementations of Bluetooth which allows hackers to pair their devices with prospective victims.

<http://www.net-security.org/news.php?id=7986>

TWO-THIRDS OF FIRMS HAVE INSUFFICIENT PASSWORD SECURITY

Survey reveals IT staff are keeping passwords on post-it notes.

<http://www.net-security.org/news.php?id=7987>

WHAT TO ASK WHEN EVALUATING INTRUSION-PREVENTION SYSTEMS

An intrusion-prevention system (IPS) is part of an overall security strategy to protect your network from attack.

<http://www.net-security.org/news.php?id=7988>

INSECURITY THROUGH OBSCURITY

Security through obscurity is probably one of the oldest tricks in the security book.

<http://www.net-security.org/news.php?id=7989>

USING A NETWORK ANALYSER AS A SECURITY TOOL

Every administrator these days has already built strong defences against hackers and virus attacks.

<http://www.net-security.org/news.php?id=7990>

SYMANTEC ASK COURT TO RULE HOTBAR.COM AS ADWARE

Symantec has filed suit in defence of its right to produce tools that classify programs from Hotbar.com as adware.

<http://www.net-security.org/news.php?id=7991>

IN THE FUTURE, EVERYONE'S PC WILL BE INFECTED FOR 15 MINUTES

Gartner research says "Warhol Worms" and four other topics comprise the five most overhyped security threats today.

<http://www.net-security.org/news.php?id=7992>

EVEN TAXI CABS ARE WORRIED ABOUT CONSUMER DATA SECURITY

TNS, a credit card payment service provider, has begun encrypting consumer data passing across wireless networks.

<http://www.net-security.org/news.php?id=7993>

BULLETIN BOARD HOSTER LOSES POSTINGS IN HACKER ATTACK

Ezboard, a hosting service to hundreds of thousands of online bulletin boards, suffered a hacker attack on Memorial Day that permanently erased countless postings.

<http://www.net-security.org/news.php?id=7994>

CODE SIGNING: IS IT A SECURITY FEATURE?

In this article, we'll take a look at how code signing works and where it fits into your organization's security plan.

<http://www.net-security.org/news.php?id=7995>

MICROSOFT FIXES HOTMAIL HACK

Malicious web page closed down as Redmond investigates.
<http://www.net-security.org/news.php?id=7996>

SPYWARE PROBE PI IN HOSPITAL AFTER FALL

A key suspect in a spyware-linked industrial espionage case was severely injured after falling down a stairwell on Wednesday during a break in questioning by Israeli police.
<http://www.net-security.org/news.php?id=7997>

INTEGRATING AND SECURING LINUX WITHOUT A SILVER BULLET

There is no silver bullet for dealing with dynamic Linux issues, but in this tip, author Peter Harrison offers sage advice for Linux security and integration.
<http://www.net-security.org/news.php?id=7998>

"WE THINK LIKE HACKERS" - MICROSOFT

Reports from TechEd, Microsoft's geek fest say that much of what's going on is around security.
<http://www.net-security.org/news.php?id=7999>

COMPUTER VIRUSES BECOME HACKER INFORMANTS

An emerging breed of computer virus that keeps hackers informed about the latest weaknesses in computer networks has been discovered by security experts.
<http://www.net-security.org/news.php?id=8000>

MICROSOFT WARNS ON SECURITY FIXES

Microsoft has issued an alert about a bumper package of security updates for Windows.

<http://www.net-security.org/advisory.php?id=4886>

SUSE Security Announcement - SUSE Security Summary Report
(SUSE-SR:2005:015)
<http://www.net-security.org/advisory.php?id=4885>

Ubuntu Security Notice - gaim vulnerability (USN-139-1)
<http://www.net-security.org/advisory.php?id=4884>

Mandriva Linux Security Update Advisory - wget (MDKSA-2005:098)
<http://www.net-security.org/advisory.php?id=4883>

Ubuntu Security Notice - gedit vulnerability (USN-138-1)
<http://www.net-security.org/advisory.php?id=4882>

SUSE Security Announcement - MozillaFirefox (SUSE-SA:2005:030)
<http://www.net-security.org/advisory.php?id=4880>

SUSE Security Announcement - kernel (SUSE-SA:2005:029)
<http://www.net-security.org/advisory.php?id=4879>

FreeBSD Security Advisory - BIND 9 DNSSEC remote denial of service
vulnerability (FreeBSD-SA-05:12.bind9)
<http://www.net-security.org/advisory.php?id=4878>

FreeBSD Security Advisory - gzip directory traversal and permission
race vulnerabilities (FreeBSD-SA-05:11.gzip)
<http://www.net-security.org/advisory.php?id=4877>

FreeBSD Security Advisory - Infinite loops in tcpdump protocol
decoding (FreeBSD-SA-05:10.tcpdump)
<http://www.net-security.org/advisory.php?id=4876>

Conectiva Linux Security Announcement - gaim (CLA-2005:964)
<http://www.net-security.org/advisory.php?id=4875>

Ubuntu Security Notice - linux-source-2.6.10, linux-source-2.6.8.1
vulnerabilities (USN-137-1)
<http://www.net-security.org/advisory.php?id=4874>

SGI Security Advisory - rpc.mountd security issues in IRIX
6.5.25-6.5.27 (20050601-01-P)
<http://www.net-security.org/advisory.php?id=4873>

SCO Security Advisory - UnixWare 7.1.4 UnixWare 7.1.3 UnixWare 7.1.1
: wu-ftp denial of service (SCOSA-2005.28)
<http://www.net-security.org/advisory.php?id=4872>

SCO Security Advisory - UnixWare 7.1.4 : MySQL updated MySQL (version
4.1.11) fixes security issues (SCOSA-2005.27)
<http://www.net-security.org/advisory.php?id=4871>

Mandriva Linux Security Update Advisory - a2ps (MDKSA-2005:097)
<http://www.net-security.org/advisory.php?id=4870>

Mandriva Linux Security Update Advisory - openssl (MDKSA-2005:096)
<http://www.net-security.org/advisory.php?id=4869>

Conectiva Linux Security Announcement - php4 (CLA-2005:961)
<http://www.net-security.org/advisory.php?id=4868>

Conectiva Linux Security Announcement - krb5 (CLA-2005:962)
<http://www.net-security.org/advisory.php?id=4867>

Conectiva Linux Security Announcement - ethereal (CLA-2005:963)
<http://www.net-security.org/advisory.php?id=4866>

Fedora Legacy Update Advisory - Updated kernel packages fix security
issues (FLSA:152532)
<http://www.net-security.org/advisory.php?id=4865>

Debian Security Advisory - krb4 (DSA 731-1)
<http://www.net-security.org/advisory.php?id=4864>

Conectiva Linux Security Announcement - libexif (CLA-2005:960)
<http://www.net-security.org/advisory.php?id=4863>

Articles can be contributed to articles@net-security.org

HOW WELL DO YOU KNOW YOUR PARTNER?

This is an opinion piece with 8 helpful hints and tips on how to avoid becoming a victim of industrial espionage and malicious hackers.

<http://www.net-security.org/article.php?id=795>

[Software]

Windows software is located at:

http://net-security.org/software_main.php?cat=1

Linux software is located at:

http://net-security.org/software_main.php?cat=2

Pocket PC software is located at:

http://net-security.org/software_main.php?cat=3

CONFIDENTIAL NOTES 1.0 (Pocket PC)

Confidential Notes is a practical and easy to use solution that increases your productivity and provides you with a high level of security for your mobile data.

<http://www.net-security.org/software.php?id=632>

DANTE 1.1.16 (Linux)

Dante is a circuit-level firewall/proxy that can be used to provide convenient and secure network connectivity to a wide range of hosts.

<http://www.net-security.org/software.php?id=43>

MARADNS 1.1.40 (Linux)

MaraDNS is a DNS server that strives to be secure and fully open-sourced.

<http://www.net-security.org/software.php?id=84>

MIMEDEFANG 2.52 (Linux)

MIMEDefang is a flexible MIME email scanner designed to protect Windows clients from viruses.

<http://www.net-security.org/software.php?id=214>

NESSQUICK 0.05 (Linux)

nessQuick is a quick PERL hack that pulls Nessus scan results from the .nbe file and imports that information into a MySQL database.

There is another script to generate a quick'n dirty report.

<http://www.net-security.org/software.php?id=270>

NUFW 1.0.7 (Linux)

NuFW is an "authenticating gateway". This means it requires authentication for any connections to be forwarded through the gateway.

<http://www.net-security.org/software.php?id=526>

SECURE DATA MANAGER 2.1.0 (Windows)

The SDM application was created to help you manage your passwords and other private information for web sites, computers, and other programs within one secure application.

<http://www.net-security.org/software.php?id=437>

SHOREWALL 2.4.0 (Linux)

Shorewall is an iptables based firewall that can be used on a dedicated firewall system, a multi-function masquerade gateway/server or on a standalone Linux system.

<http://www.net-security.org/software.php?id=40>

TINYCA 0.7.0 (Linux)

TinyCA is a simple graphical user interface to manage a small CA (Certification Authority).

<http://www.net-security.org/software.php?id=308>

VUURMUUR 0.5.67 (Linux)

Vuurmuur is a middle-end/front-end for netfilter/iptables.

<http://www.net-security.org/software.php?id=591>

[Webcasts]

All webcasts are located at:

<http://net-security.org/webcasts.php>

Spyware Protection for Small Business
Organized by Symantec on 14 June 2005, 9:00 AM
<http://www.net-security.org/webcast.php?id=377>

Architecting Your 802.1x-Based WLAN Deployment
Organized by Funk Software on 14 June 2005, 1:00 PM
<http://www.net-security.org/webcast.php?id=297>

Securing the Requirements and Design Phases of the Application
Development Lifecycle
Organized by Symantec on 16 June 2005, 9:00 AM
<http://www.net-security.org/webcast.php?id=378>

Correlating Vulnerability and Attack Data to Improve Enterprise
Security
Organized by Symantec on 21 June 2005, 9:00 AM
<http://www.net-security.org/webcast.php?id=379>

The Basics of WLAN Security
Organized by Funk Software on 21 June 2005, 1:00 PM
<http://www.net-security.org/webcast.php?id=275>

The Future of Authentication
Organized by RSA Security on 29 June 2005, 2:00 PM
<http://www.net-security.org/webcast.php?id=380>

eEye and IIS – Implementing a Multi-Layered Security Solution to Best
Address Spyware, Phishing and Zero Day Attacks
Organized by eEye on 14 July 2005, 2:00 PM
<http://www.net-security.org/webcast.php?id=376>

[Conferences]

All conferences are located at:
<http://net-security.org/conferences.php>

Second European PKI Workshop
Organized by University of Salford - 30 June-1 July 2005
<http://www.net-security.org/conference.php?id=118>

SIG SIDAR Conference on Detection of Intrusions and Malware &
Vulnerability Assessment (DIMVA 2005)
Organized by German Informatics Society - 7 July-8 July 2005
<http://www.net-security.org/conference.php?id=119>

The 4th European Conference on Information Warfare and Security (ECIW
2005)
Organized by Academic Conferences International - 11 July-15 July
2005
<http://www.net-security.org/conference.php?id=120>

The 32nd International Colloquium on Automata, Languages and
Programming (ICALP'05)
Organized by European Association for Theoretical Computer Science -
11 July-15 July 2005
<http://www.net-security.org/conference.php?id=121>

Black Hat Briefings & Training USA 2005
Organized by Black Hat - 23 July-28 July 2005
<http://www.net-security.org/conference.php?id=138>

14th USENIX Security Symposium
Organized by USENIX - 31 July-5 August 2005
<http://www.net-security.org/conference.php?id=136>

Crypto 2005
Organized by International Association for Cryptologic Research - 14
August-18 August 2005
