[ **Security news** ]

---

**GERMAN TECH UNIVERSITY OFFERS SUMMER HACKING COURSE**  
Summer school gives researchers opportunity to explore intrusion techniques.

<http://www.net-security.org/news.php?id=8127>

#### **UK ID CARDS COSTS GO UP**

The government's proposals for ID cards are under fire today from the London School of Economics which estimates the scheme could cost twice as much as the government claims.

<http://www.net-security.org/news.php?id=8128>

#### TARGETED ATTACKS POSE NEW SECURITY CHALLENGE

Targeted hacker attacks, such as the one believed to have caused the massive credit card security breach disclosed this month, are low tech and well understood.

<http://www.net-security.org/news.php?id=8129>

#### UK TO OUTSOURCE BIOMETRIC VISA CHECKS TO MUMBAI

The UK is to outsource visa application checks "wherever there is an outsource partner", following trials in its largest visa posts in Mumbai, Delhi and Islamabad.

<http://www.net-security.org/news.php?id=8130>

#### THEY WELCOME WIRELESS SPAM?

Wireless carriers will have to fortify their defenses in the battle against text-messaging spam or eventually risk a customer revolt, industry watchers say.

<http://www.net-security.org/news.php?id=8131>

#### WHAT IS SPYWARE? THE INDUSTRY CAN'T AGREE

Many anti-spyware programs scour computer hard drives for those data-tracking files called cookies that we often get from Web visits.

<http://www.net-security.org/news.php?id=8132>

#### UNDERSTANDING CONTINUOUS DATA PROTECTION

A critical element of total backup systems, CDP products can help you find that needle in your data haystack. More importantly, they offer restoration capabilities that tape, replication and snapshot technologies lack.

<http://www.net-security.org/news.php?id=8133>

#### HOMELAND SECURITY CIO MUST BUILD AUTHORITY

President Bush last week tapped Agriculture Department CIO Scott Charbo for the top IT position at the Department of Homeland Security, a job rife with organizational and technological challenges.

<http://www.net-security.org/news.php?id=8134>

#### ADOPTION OF ALTERNATE E-MAIL SECURITY TECHNOLOGIES PUSHED

"Each protocol provides different answers to different problems involving e-mail security issues. But both new protocols deal with sender authentication," Thomas Gillis, senior vice president for worldwide marketing at IronPort Systems, said.

<http://www.net-security.org/news.php?id=8135>

#### AUSSIES PROSECUTE FIRST 'SPAMMER'

Australia is prosecuting the first alleged spammer under its new-ish Spam Act.

<http://www.net-security.org/news.php?id=8136>

#### USERS WANT PRAGMATIC SECURITY RULES

The massive scope of the CardSystems Solutions security breach earlier this month is likely to fuel even more calls for new data-protection regulations and tougher enforcement of existing ones, security managers said last week.

<http://www.net-security.org/news.php?id=8137>

#### ESECURITY MANAGEMENT COMES OF AGE

To keep pace with increasing complexity in enterprise business operations, the related information security processes and technologies have evolved into a reliable, mature system.

<http://www.net-security.org/news.php?id=8138>

#### BROWSER IDENTIFICATION FOR WEB APPLICATIONS

This paper outlines techniques that allow users to determine client browser types remotely.

<http://www.net-security.org/news.php?id=8139>

#### WHEN GOOD SECURITY GOES BAD

You've installed all the right hardware, and so your network is safe, right? Wrong! Too many administrators have found out that security is about more than hardware alone. Here's what to do when good security goes bad.

<http://www.net-security.org/news.php?id=8140>

#### SECURITY WORRIES NET USERS

US consumers are more concerned about identity theft and the security of online commerce in the wake of recent data breaches, say surveys released last week.

<http://www.net-security.org/news.php?id=8141>

#### PORN SPAM ON THE RISE AGAIN

Inboxes sizzle as junk mailers resurrect the old scams.

<http://www.net-security.org/news.php?id=8142>

#### FEDS FACE DEADLINES ON SMART ID CARDS

Plans due this week; technical issues, coordination pose hurdles for agencies.

<http://www.net-security.org/news.php?id=8143>

#### CYBERSECURITY GROUP SPREADS TO EUROPE

CSIA works on issues such as privacy and information integrity.

<http://www.net-security.org/news.php?id=8144>

**PRIVACY FEARS PROMPT CVS TO TURN OFF ONLINE SERVICE**  
Drugstore chain CVS Corp. has temporarily disabled a feature on its Web site after concerns were raised that unauthorized persons could improperly obtain customer-purchase records via e-mail.  
<http://www.net-security.org/news.php?id=8145>

**CA BUYS FIREWALL DEVELOPER TINY SOFTWARE**  
CA buys firewall developer Tiny Software  
<http://www.net-security.org/news.php?id=8146>

**U.S. OFFICIALS: INFORMATION SHARING KEY TO SECURITY**  
IT should be an important consideration when reforming U.S. intelligence systems, according to a government report.  
<http://www.net-security.org/news.php?id=8147>

**ENCRYPT DATA OR INVITE DISASTER**  
In today's workplace, stealing information doesn't require a covert Special Forces team.  
<http://www.net-security.org/news.php?id=8148>

**PROTECTING THE NUMBERS**  
E-commerce is buried beneath a blanket of fear. Online purchases, according to some observers, are down by nearly half; Internet banking by nearly a third.  
<http://www.net-security.org/news.php?id=8149>

**WHERE'S THE THREAT?**  
As consultants, seeing one client who recognizes the importance of security, regardless of their size, is vilifying.  
<http://www.net-security.org/news.php?id=8150>

**RSS: SAFE AT ANY FEED?**  
When Microsoft laid out its plans last week for building RSS into Longhorn, it didn't say anything about how it might secure the automated feeds.  
<http://www.net-security.org/news.php?id=8151>

**SECURITY EXECs: UNDER PRESSURE AND UNDER PREPARED**  
A new survey of corporate security executives shows that their jobs are more difficult to handle than just a year ago, and they're not prepared to handle some significant security issues.  
<http://www.net-security.org/news.php?id=8152>

**ADWARE FIRM 180SOLUTIONS IN IMAGE MAKEOVER**  
Adware maker 180solutions has embarked on an image makeover with a campaign to notify users that its software is installed on their systems and tips on removing its software.  
<http://www.net-security.org/news.php?id=8153>

#### SECURITY VENDORS RESPOND TO HEIGHTENED CONCERNS

CA adds firewall, other vendors offer updates.  
<http://www.net-security.org/news.php?id=8154>

#### POPE WORM TURNS NASTY

'Conspiracy theory' about death of John Paul II lures unsuspecting users.  
<http://www.net-security.org/news.php?id=8155>

#### HP INTRODUCES BIOMETRIC LAPTOP

The new notebook PC includes a fingerprint sensor.  
<http://www.net-security.org/news.php?id=8156>

#### NASA HACKER JAILED

A US man was jailed for four months last week after he was convicted of hacking into US government computers and defacing web sites.  
<http://www.net-security.org/news.php?id=8157>

#### CYBERCRIMINALS GET A 10-YEAR JAIL SENTENCE

Two men have been sentenced to a total of 10 years in prison for their roles in a wide range of online fraud activities, U.K. authorities said this week.  
<http://www.net-security.org/news.php?id=8158>

#### DENIAL OF SERVICE ATTACKS: "SMURFING"

This article provides good information on what a Denial of Service (DoS) attack is and why they can be so harmful to networks and sites on the Internet.  
<http://www.net-security.org/news.php?id=8159>

#### XEN DEVELOPERS FOCUS ON SECURITY

Enhanced virtual desktop could protect remote consumer transactions.  
<http://www.net-security.org/news.php?id=8160>

#### TRIAL FOR GERMAN SASSER WRITER BEGINS NEXT TUESDAY

Plenty of eyeballs will be scouring the 'Net next Tuesday to learn more about the fate of Sven Jaschan.  
<http://www.net-security.org/news.php?id=8161>

#### LINUX SECURITY DEFINED

A system running Linux is highly versatile and can be made as secure as a system running UNIX.  
<http://www.net-security.org/news.php?id=8162>

#### SMART HANDHELDS ARE DUMB SECURITY RISK

Nearly half of UK businesses do not secure smart handheld devices to the same high level they secure laptop computers.

<http://www.net-security.org/news.php?id=8163>

#### SECURITY FEATURES ON MPEG DECODER PREVENT PIRACY

To prevent the piracy of digital broadcasts on pay television, NEC Electronics America, Inc. rolled out a single-chip MPEG decoder with enhanced security features for digital set-top boxes (STBs).

<http://www.net-security.org/news.php?id=8164>

#### FOR BETTER SECURITY, KEEP AN EYE ON ACTIVEX

You probably have encountered ActiveX controls on the Internet. Web pages that play music probably use them. ActiveX controls also can open Windows Media movies or Microsoft Word documents inside a browser window.

<http://www.net-security.org/news.php?id=8165>

#### ANTI-SPYWARE MARKET TO ROCKET

The corporate anti-spyware market is predicted to explode over the next four years extending to more than 540m seats in 2009, a 30-fold increase from an estimated 16m seats in 2005, according to a study by analysts the Radicati Group published this week.

<http://www.net-security.org/news.php?id=8166>

#### CO-OPERATING WITH THE INTERNET POLICE

National Hi-Tech Crime Unit chief Sharon Lemon aims to work with businesses and IT vendors.

<http://www.net-security.org/news.php?id=8167>

#### HOW TO DEAL WITH PUSHY SECURITY VENDORS

I find myself feeling disturbed this month. Why? Because of security vendors that don't know how to tone down the hype.

<http://www.net-security.org/news.php?id=8168>

#### BLUETOOTH BACKERS OFFER SECURITY TIPS

Users of the wireless technology are urged to take precautions to avoid attacks.

<http://www.net-security.org/news.php?id=8169>

#### INDIA TO TIGHTEN DATA-SECRECENCY LAWS

India will tighten laws to prevent cyber crimes and ensure data secrecy after a call center employee allegedly sold personal data on 1,000 British customers, an official said Wednesday.

<http://www.net-security.org/news.php?id=8170>

#### OPEN SOURCE HIDES SECRET DATA

The art of hiding information from anyone except from the intended receiver has been used for many centuries.

<http://www.net-security.org/news.php?id=8171>

#### MICROSOFT HELPS JAPAN'S CYBERCOPS

Microsoft Corp. is providing Japan's National Police Agency (NPA) with early warnings about security threats.

<http://www.net-security.org/news.php?id=8172>

#### NORWEGIAN POSTS CRACK FOR GOOGLE VIDEO SOFTWARE

It took only a day for this experienced hacker to crack Google's new video viewer.

<http://www.net-security.org/news.php?id=8173>

#### SECURITY FEARS OVER MEDICAL DATABASE

Electronic records pose greater threat than ID cards, BMA told.

<http://www.net-security.org/news.php?id=8174>

#### MICROSOFT READY TO DISCUSS RSS SECURITY

Microsoft will be taking a closer look at the security of a new Web publishing technology it plans to integrate into the next major version of Windows, code-named Longhorn.

<http://www.net-security.org/news.php?id=8175>

#### ENCRYPTION - THE MISSING DEFENCE TOOL IN MANY COMPANIES; SECURITY POLICY

There is a real threat to data security if tapes are not encrypted, no matter how high the level of physical security used when transporting tapes to a "secure" area away from the primary business location for disaster recovery plans.

<http://www.net-security.org/news.php?id=8176>

#### CREDIT CARD SECURITY: SAGA OF BROKEN RULES

Remember this equation: (security + privacy) - action = liability

<http://www.net-security.org/news.php?id=8177>

#### MEN BLAMED FOR SPYWARE SURGE

Male workers are twice as likely as their female colleagues to swap music files at work on a daily basis, according to a new survey by censorware firm Surfcontrol.

<http://www.net-security.org/news.php?id=8178>

#### ATTACKERS SEEK VULNERABLE VERITAS BACKUP INSTALLATIONS

Users urged to apply patch.

<http://www.net-security.org/news.php?id=8179>

#### THREAT TO ENTERPRISE SECURITY - WI-FI

With the rapid adoption of Wi-Fi networks by enterprise IT departments everywhere, network security now involves an entirely new dimension of vulnerability to malicious hackers and casual intruders.  
<http://www.net-security.org/news.php?id=8180>

#### FBI PROBES PHISHING OF EBAY IN NORWAY

A Norwegian Internet radio site has been shut down pending an FBI investigation of a possible attempt to swindle customers of the eBay Web auction house, the company hosting the site said Wednesday.  
<http://www.net-security.org/news.php?id=8181>

#### MICROSOFT IN TALKS TO BUY ADWARE DEVELOPER

Purchase could fall through because of concerns about how deal would be seen by the public.  
<http://www.net-security.org/news.php?id=8182>

#### SHARE PERMISSIONS

This article will take an in-depth look at the pitfalls and suggested methods on how to protect the resources that are shared from servers to users on the network.  
<http://www.net-security.org/news.php?id=8183>

#### FIGHTING EPO VIRUSES

This article studies complex Entry Point Obscuring (EPO) viruses, by looking at the detection and removal of the difficult Win32.CTX.Phage virus.  
<http://www.net-security.org/news.php?id=8184>

#### ID THEFT TIPS

When you and your family or friends go on vacation, you can't let your guard against ID theft go too! Don't let identity thieves take away all the fun from your summer vacation.  
<http://www.net-security.org/news.php?id=8185>

#### HACKERS UNLEASH INDUSTRIAL SPY TROJAN

Malware targets very small number of high value domains.  
<http://www.net-security.org/news.php?id=8186>

#### RATS IN THE SECURITY WORLD

There are many rats in the security world, starting with email and other insecure protocols that should be abandoned overnight.  
<http://www.net-security.org/news.php?id=8187>

#### ANTI-SPAM SUCCESS DRIVES MALWARE AUTHORS DOWNMARKET

Crooks are turning to spyware scams because it's getting harder to make money from spam, according to a leading UK anti-virus expert.  
<http://www.net-security.org/news.php?id=8188>

#### FAKE MICROSOFT SECURITY ALERT INCLUDES TROJAN PATCH

Bogus security bulletin links to malicious software that gives attackers complete access to the infected machine.

<http://www.net-security.org/news.php?id=8189>

#### AFFORDABLE IT: SECURING YOUR IM SYSTEMS

Your end users are going to use Instant Messaging systems - with or without IT's blessing. Find out how to keep your network safe and secure, whether your IM app is public or private.

<http://www.net-security.org/news.php?id=8190>

#### FIRMS STILL NEGLECTING PDA SECURITY

Survey finds high number of firms failing to enforce security guidelines.

<http://www.net-security.org/news.php?id=8191>

### 1ST SECURITY AGENT 6.1 (Windows)

1st Security Agent offers an administrative support for controlling which users are allowed to access your PC and the level of access each user may have.

<http://www.net-security.org/software.php?id=255>

AIRSNORT 0.2.7e (Linux)

AirSnort is a wireless LAN (WLAN) tool which recovers encryption keys.

<http://www.net-security.org/software.php?id=262>

ANTIPHARMING 1.00 (Windows)

AntiPharming uses active and passive protections for identifying and stopping Pharming attacks.

<http://www.net-security.org/software.php?id=203>

CAIN & ABEL 2.7.3 (Windows)

Cain & Abel is a password recovery tool for Microsoft operating systems.

<http://www.net-security.org/software.php?id=110>

FAKE AP 0.3.2 (Linux)

Black Alchemy's Fake AP generates thousands of counterfeit 802.11b access points.

<http://www.net-security.org/software.php?id=259>

GENERIC SECURITY SERVICE 0.0.15 (Windows)

A Generic Security Service (GSS-API) implementation.

<http://www.net-security.org/software.php?id=96>

IP-TOOLS 2.50 (Windows)

IP-Tools offers many TCP/IP utilities in one program.

<http://www.net-security.org/software.php?id=275>

KEYCHAIN 2.5.4.1 (Linux)

Keychain helps you to manage RSA and DSA keys in a convenient and secure manner.

<http://www.net-security.org/software.php?id=239>

MAILSCANNER 4.43.8 (Linux)

MailScanner is a virus scanner for e-mail designed for use on e-mail gateways.

<http://www.net-security.org/software.php?id=144>

NIKTO 1.35 (Linux)

Nikto is a web server scanner which performs comprehensive tests against web servers.

<http://www.net-security.org/software.php?id=223>

NMAP PARSER 1.01 (Linux)

An nmap parser for xml scan data using PERL.

<http://www.net-security.org/software.php?id=532>

#### OPENPROTECT 5.0.3 (Linux)

OpenProtect is a server-side email protector which guards against spam and viruses in addition to providing content filtering, using a variety of open- source packages.

<http://www.net-security.org/software.php?id=247>

#### ORACLE PASSWORD REPOSITORY 1.1.8 (Linux)

This is a Unix-based secure tool for storage and retrieval of Oracle database passwords.

<http://www.net-security.org/software.php?id=418>

#### PASSWORD POLICY ENFORCER 4.01 (Windows)

Password Policy Enforcer checks every new password for compliance with the password policy.

<http://www.net-security.org/software.php?id=98>

#### PDFKEY PRO 1.0 (Mac OS X)

With PDFKey Pro you can easily recover editing and printing capabilities to password protected PDF documents.

<http://www.net-security.org/software.php?id=246>

#### PRELUDE MANAGER 0.9.0 RC6 (Linux)

Prelude Manager is the main program of the Prelude Hybrid IDS suite.

<http://www.net-security.org/software.php?id=264>

#### RSSH 2.2.3 (Linux)

rsch is a restricted shell for use with OpenSSH, allowing only scp and/or sftp.

<http://www.net-security.org/software.php?id=236>

#### SAMHAIN 2.0.8 (Linux)

Samhain is an open source file integrity and host-based intrusion detection system.

<http://www.net-security.org/software.php?id=125>

#### SECRETS PROTECTOR PRO 2005 3.01 (Windows)

A three-in-one privacy tool: folder locker, secure eraser and privacy manager.

<http://www.net-security.org/software.php?id=234>

#### SECURE HIVE 1.1.0.0 (Windows)

Secure Hive encryption software protects files, emails, graphics and text.

<http://www.net-security.org/software.php?id=240>

#### SECURITY ADMINISTRATOR 10.1 (Windows)

This password-protected security utility enables you to impose a variety of access restrictions to protect your privacy and stop others from tampering with your PC.

<http://www.net-security.org/software.php?id=256>

#### SECURITY FILTER 2.0 (Windows)

SecurityFilter is a Java Servlet Filter that mimics container managed security.

<http://www.net-security.org/software.php?id=237>

## [ Conferences ]

All conferences are located at:  
<http://net-security.org/conferences.php>

-----  
SIG SIDAR Conference on Detection of Intrusions and Malware &  
Vulnerability Assessment (DIMVA 2005)  
Organized by German Informatics Society - 7 July-8 July 2005  
<http://www.net-security.org/conference.php?id=119>

The 4th European Conference on Information Warfare and Security (ECIW  
2005)  
Organized by Academic Conferences International - 11 July-15 July  
2005  
<http://www.net-security.org/conference.php?id=120>

The 32nd International Colloquium on Automata, Languages and  
Programming (ICALP'05)  
Organized by European Association for Theoretical Computer Science -  
11 July-15 July 2005  
<http://www.net-security.org/conference.php?id=121>

Black Hat Briefings & Training USA 2005  
Organized by Black Hat - 23 July-28 July 2005  
<http://www.net-security.org/conference.php?id=138>

14th USENIX Security Symposium  
Organized by USENIX - 31 July-5 August 2005  
<http://www.net-security.org/conference.php?id=136>

3rd Annual Midwest Network Security Forum  
Organized by The Institute for Applied Network Security - 3 August-4  
August 2005  
<http://www.net-security.org/conference.php?id=139>

Crypto 2005  
Organized by International Association for Cryptologic Research - 14  
August-18 August 2005  
<http://www.net-security.org/conference.php?id=122>

8th Information Security Conference(ISC'05)  
Organized by Institute for Infocomm Research - 21 September-23  
September 2005  
<http://www.net-security.org/conference.php?id=123>

The 4th International Workshop for Applied PKI (IWAP'05)  
Organized by Institute for Infocomm Research - 21 September-23  
September 2005  
<http://www.net-security.org/conference.php?id=124>

RSA Conference Europe 2005  
Organized by RSA Conference - 17 October-19 October 2005  
<http://www.net-security.org/conference.php?id=133>

CNIS 2005: IASTED International Conference on Communication, Network  
and Information Security  
Organized by IASTED - 14 November-16 November 2005  
<http://www.net-security.org/conference.php?id=137>

Asiacrypt 2005  
Organized by International Association for Cryptologic Research - 1  
December-4 December 2005  
<http://www.net-security.org/conference.php?id=125>
