

HNS Newsletter
Issue 278 - 15.08.2005.
<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

***** Acunetix Web Vulnerability Scanner *****

Audit your website security with Acunetix Web Vulnerability Scanner: Attackers are concentrating their efforts on attacking applications on your website. Up to 75% of cyber attacks are launched on shopping carts, forms, login pages, dynamic content etc. Check your website for vulnerabilities to SQL injection, Cross site scripting and other web attacks.

[Security news]

SHINING A LIGHT ON ENTERPRISE GRID SECURITY
GRIDtoday editor Derrick Harris recently spoke with Glenn Brunette, vice chair of the EGA Grid Security Working Group and a distinguished engineer and chief security architect for the client solutions division at Sun Microsystem.
<http://www.net-security.org/news.php?id=8506>

SECURITY DOWNLOAD MUST CLEARLY DISCLOSE ADWARE
Advertising.com has settled charges made by the Federal Trade Commission (FTC) that it failed adequately to disclose the bundling of adware with a free security download.
<http://www.net-security.org/news.php?id=8507>

SECURITY FIRMS BLOCK USB ACCESS
Sygate, McAfee enhance host-based services to guard against siphoning by portable storage devices.
<http://www.net-security.org/news.php?id=8508>

MICROSOFT SLAMS VISTA VIRUS REPORT
Problem reported by F-Secure is 'non-existent'.
<http://www.net-security.org/news.php?id=8509>

ANTI-SPYWARE FIRM WARNS OF MASSIVE ID THEFT RING
Officials at Sunbelt Software, said the company stumbled upon a massive ID theft ring.
<http://www.net-security.org/news.php?id=8510>

WEB SERVICES' SECURITY FACTOR
Basic practices such as authentication can protect Web services from hackers and limit access to authorized personnel.
<http://www.net-security.org/news.php?id=8511>

SEALING THE DEAL WITH SECURITY CERTIFICATIONS
When it comes to security, obviously no company--big or small--takes it lightly these days. Selecting the right solution provider for the security job is a task that also takes serious consideration.
<http://www.net-security.org/news.php?id=8512>

FIVE MUST-HAVE HACKER TOOLS FOR THE SECURITY ADMIN
In this webcast, guest speaker Tom Bowers, CISSP, PMP and Certified Ethical Hacker, identifies five must-have hacker tools for the security admin.
<http://www.net-security.org/news.php?id=8513>

ATTACKS BEWILDER VERISIGN
Key overseer of the Internet says online world now a 'war zone'.
<http://www.net-security.org/news.php?id=8514>

NIGERIAN POLICE CRACK DOWN ON E-SCAMS
Here's how some scams originate.
<http://www.net-security.org/news.php?id=8515>

OS EXPLOITS ARE 'OLD HAT'
Security issues involving Cisco kit highlighted in Michael Lynn's presentation at Black Hat are characteristic of networking vendors in general.
<http://www.net-security.org/news.php?id=8516>

THE CASE OF THE STOLEN WI-FI: WHAT YOU NEED TO KNOW
Tapping into a wireless network can be against the law, and letting a stranger access yours also can have serious repercussions.
<http://www.net-security.org/news.php?id=8517>

TARGETING THE ENEMY WITHIN

Insider security risks grow as partners and suppliers increasingly have access to corporate networks. Here's what companies are doing about the threat.

<http://www.net-security.org/news.php?id=8518>

PHP WEB APPLICATION SECURITY

We'll discuss some of the main security "gotchas" when developing PHP web applications, from proper user input sanitization to avoiding SQL injection vulnerabilities.

<http://www.net-security.org/news.php?id=8519>

RED HAT BANGS SECURITY DRUM

Security initiatives unveiled.

<http://www.net-security.org/news.php?id=8520>

SPYWARE COSTS IT \$130,000 MONTHLY

More than 1,000 IT managers and end users reveals that spyware and other unsanctioned downloads are resulting in average monthly costs of \$130,000 to IT enterprises.

<http://www.net-security.org/news.php?id=8521>

WIRETAPS FOR VOIP

The Federal Communications Commission (FCC) is expanding the reach of U.S. wiretapping laws to wireline broadband providers and Internet telephone companies.

<http://www.net-security.org/news.php?id=8522>

PERSONAL IMPLANTED CHIPS AND PRIVACY

Radio frequency identification (RFID) chips implanted into human beings hold the promise of improving patient care.

<http://www.net-security.org/news.php?id=8523>

SHORT INTERVIEW WITH GIOVANNI VIGNA

Giovanni Vigna is the Associate Professor, Reliable Software Group, Department of Computer Science at the University of California, Santa Barbara. He is the leader of the Shellphish team, the winners of this year's DEFCON Capture The Flag competition.

<http://www.net-security.org/news.php?id=8524>

FEW OBSTACLES DETER CYBER-TERRORISTS

Al Qaeda has become the first guerrilla movement to migrate from physical space to cyberspace.

<http://www.net-security.org/news.php?id=8525>

SECURITY FIRM WARNS OF IM WORM

Less than a week after sounding the warning bell regarding a barrage of threats coming through public Instant Messaging (IM) clients,

Akonix Security Center said it has discovered another bug.
<http://www.net-security.org/news.php?id=8526>

ENCRYPTION USE INCREASES

Many firms are increasing their use of encryption to boost IT security, new research has found.
<http://www.net-security.org/news.php?id=8527>

HOW TO SECURE YOUR WIRELESS NETWORK

This purpose of this article is to help you understand the terminology of wireless security in the home setting as well as to develop a check list for key security oriented steps you should take when setting up and using your network.
<http://www.net-security.org/news.php?id=8528>

NETWORK SOLUTIONS CEO ON DOMAIN NAME SECURITY

Network Solutions Chairman and CEO Champ Mitchell talked with Computerworld's Sharon Machlis about his company's plans, explained how the Hushmail domain hijacking really happened and weighed in on the security of the domain name system.
<http://www.net-security.org/news.php?id=8529>

WARNING TO IT SECURITY PROS: IT'S AUGUST - ON GUARD!

August has traditionally been a rough month for IT security pros, an anti-virus vendor warned Tuesday as it told users to keep alert even as business slows down.
<http://www.net-security.org/news.php?id=8530>

LESSONS LEARNED FROM CORPORATE SECURITY BREACHES

With information security breaches in the U.S. now reported at a rate of one every three days, corporate privacy and security officers need to take stock about what's happening and what they can do about it.
<http://www.net-security.org/news.php?id=8531>

FORTINET LOSES ANTI-VIRUS PATENT RULING

The US International Trade Commission has passed an order blocking Fortinet from importing its FortiGate antivirus firewall products into the US pending resolution of a patent dispute with rival Trend Micro.
<http://www.net-security.org/news.php?id=8532>

STEALING YOUR NEIGHBOR'S NET

The spread of wireless is opening lots of opportunity to log on for free, but experts urge caution.
<http://www.net-security.org/news.php?id=8533>

TIPPINGPOINT LEANS INTO NETWORK THREATS

Intrusion-detection and intrusion-prevention products have come a

long way in a short time, as vendors have been fast to incorporate new detection techniques and bolster defenses to an ever-widening range of threats.

<http://www.net-security.org/news.php?id=8534>

SECURE YOUR APPS FOR NOTES AND WEB CLIENTS

In this webcast, We will look at application security using a top-down approach, teaching you about all of the access points for an application and introducing you to tips and techniques for troubleshooting application security.

<http://www.net-security.org/news.php?id=8535>

FORMER 'SPAM KING' PAYS MS \$7M TO SETTLE LAWSUIT

Former 'Spam King' Scott Richter has agreed to pay Microsoft \$7m to settle an anti-spam lawsuit.

<http://www.net-security.org/news.php?id=8536>

MICROSOFT ISSUES 3 CRITICAL SECURITY BULLETINS

Microsoft on Tuesday issued six security bulletins for Windows, half of them carrying critical vulnerabilities, with the majority of the bugs able to be exploited remotely.

<http://www.net-security.org/news.php?id=8537>

BLU-RAY CONSORTIUM LAUNCHES NEW DVD SECURITY FEATURES

One of the two groups vying to produce the next generation of DVDs rolled out new security features Tuesday to entice entertainment and electronics companies to adopt its technology.

<http://www.net-security.org/news.php?id=8538>

BLUETOOTH: IS IT A SECURITY THREAT?

Is it secure? Can it be made secure? What are particular security concerns? We'll take a look at those questions in this article.

<http://www.net-security.org/news.php?id=8539>

HARMLESS HACKERS OR TEEN CRIMINALS?

'Arrest me, I know the password!'

<http://www.net-security.org/news.php?id=8540>

MICROSOFT'S HONEYMONKEYS PROVE PATCHING WINDOWS WORKS

Microsoft's Strider HoneyMonkey research project sniffs out sites hosting malicious code for patching or legal action.

<http://www.net-security.org/news.php?id=8541>

GUIDE FOR SECURING WINDOWS SERVER ACTIVE DIRECTORY INSTALLATIONS

This guide is an update to the Windows 2000 guide and assists IT professionals who participate in security planning for an Active Directory service deployment and who are running a secure Active Directory operation.

<http://www.net-security.org/news.php?id=8542>

MANAGING LINUX DAEMONS WITH INIT SCRIPTS

What happens if you're building from source, and no init script is supplied? What if you're writing the source and haven't ever built an init script?

<http://www.net-security.org/news.php?id=8543>

AOL RAFFLES SPAMMER'S GOLD BARS

AOL is planning to give away assets seized from spammers in a US sweepstake due to launch Wednesday.

<http://www.net-security.org/news.php?id=8544>

SECURING THE ENTERPRISE: DEVELOPING AN ANTI-PHISHING STRATEGY

News reports break daily on the increasing frequency and cost of identity theft crimes. These electronic crimes target a broad range, from large multi-national organizations to individuals.

<http://www.net-security.org/news.php?id=8545>

HACKERS BREAK INTO TWO UNIVERSITIES - 100,000 IDENTITIES AT RISK

Hackers broke into the computer networks of two universities and may have accessed 100,000 identities, including Social Security numbers, school officials in California and Texas said this week.

<http://www.net-security.org/news.php?id=8546>

THE HIDDEN BOOT CODE OF THE XBOX

The principles, the implementations and the security vulnerabilities of the 512 bytes ROM will be discussed in this article.

<http://www.net-security.org/news.php?id=8547>

MICROSOFT INITIALLY RELEASED CORRUPTED IE PATCH

The patch for Internet Explorer that Microsoft earlier this week urged users to install as soon as possible was flawed, the company says.

<http://www.net-security.org/news.php?id=8548>

LATEST PHISHING SCAM GOES LOW TECH

This one asks users to fax their credit card details to a toll-free number.

<http://www.net-security.org/news.php?id=8549>

CRITICS SLAM NET WIRETAPPING RULE

An FCC ruling that internet telephony services must provide the same built-in wiretapping capabilities as conventional phone companies has civil libertarians feeling burned.

<http://www.net-security.org/news.php?id=8550>

FAX-BACK PHISHING SCAM TARGETS PAYPAL

Phishers have gone retro with a scam that tries to dupe victims into faxing their banking details to fraudsters.

<http://www.net-security.org/news.php?id=8551>

BELKIN ADDS SIMPLE WLAN SECURITY SETUP

Belkin today announced that it has enhanced the installation wizard of selected wireless routers to include simplified wireless security setup.

<http://www.net-security.org/news.php?id=8552>

DHS HEAD: BUSINESSES NEED TO FOCUS ON CYBERSECURITY

Chertoff also calls for incentives to private sector.

<http://www.net-security.org/news.php?id=8553>

FBI: BUSINESSES (STILL) RELUCTANT TO REPORT CYBER ATTACKS

Roughly 20% of businesses report computer intrusions annually, a figure the agency believes is low.

<http://www.net-security.org/news.php?id=8554>

INTELLIGENT PATCHING STRATEGIES

Learn what intelligent patching is, what to look for in a system and how it can provide the necessary audit trails you need to lower downtime and troubleshooting time and also create a self-documenting environment for your business.

<http://www.net-security.org/news.php?id=8555>

WHEN IT COMES TO IM, FIRST THINK SECURITY

As IT administrators increasingly move to adopt enterprise-level instant messaging software, industry players say their first thought should be about how to make it secure.

<http://www.net-security.org/news.php?id=8556>

SECURITY EXPERT: MORE DEVELOPER EDUCATION NEEDED

Many programmers don't understand how code errors cause vulnerabilities.

<http://www.net-security.org/news.php?id=8557>

AOL TO GIVE AWAY SPAMMER LOOT

Cash and a Hummer are part of assets recovered from New Hampshire man.

<http://www.net-security.org/news.php?id=8558>

MICROSOFT EXPLOIT CODE HITS THE WEB

Windows Plug-and-Play hole could give hackers complete control.

<http://www.net-security.org/news.php?id=8559>

TRAFFIC HACKERS HIT RED LIGHT

If you've ever been stuck in traffic longing for a magic box that could turn all your red lights to green, beware: Acting on that fantasy became a federal crime this week.

<http://www.net-security.org/news.php?id=8560>

STUDENTS, AND SECURITY THREATS, HEAD TO STANFORD

Stanford University's School of Education deploys new security modules from Juniper Networks to tighten security and boost network performance.

<http://www.net-security.org/news.php?id=8561>

HOME PC FACE SECURITY ONSLAUGHT

If your house was burgled only 12 minutes after you moved in, you would probably think about selling up and moving on pretty quickly.

<http://www.net-security.org/news.php?id=8562>

LIVING WITH SPYWARE

Virtually every PC that connects to the Internet on a regular basis will by now have acquired its own collection of spy- and adware hangers-on.

<http://www.net-security.org/news.php?id=8563>

CISCO SECURITY FLAP IS MUCH ADO ABOUT SOMETHING

Michael Lynn: Your 15 minutes are up. Cisco Systems: You're still on the clock.

<http://www.net-security.org/news.php?id=8564>

THE FINGERPRINT OF PAPER

Scientists devise new way to foil forgeries.
