

HNS Newsletter  
Issue 280 - 29.08.2005.  
<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

-----  
\*\*\*\*\* Master of Science in Information Security \*\*\*\*\*  
-----

Earn your Master of Science in Information Security online from Norwich University. The National Security Agency has designated Norwich a center of Academic Excellence in Information Security. The program offers a solid education in the management of information assurance, and the unique case study method means you will gain consulting experience as you progress through the program. Using today's e-Learning technology, you can earn this esteemed degree, without disrupting your career or home life.

-----  
**WHAT IS CLAMXAV (AND DO MAC USERS REALLY NEED ANTIVIRUS?)**  
ClamXav is a free virus checker for Mac OS X.  
<http://www.net-security.org/news.php?id=8630>

#### "HACK"-DOOR ADMISSIONS

A number of prestigious colleges and universities across the country have discovered they are being hacked at an alarming rate.  
<http://www.net-security.org/news.php?id=8631>

#### GERMANY LAUNCHES IT SECURITY INITIATIVE

Interior minister says companies need to do more to protect systems.

<http://www.net-security.org/news.php?id=8632>

#### HUNDREDS OF STANFORD UNIVERSITY WEB SITES DEFACED

A crew of Brazilian defacers known as Unknown Core penetrated a server belonging to the University of Stanford and defaced 306 sites.  
<http://www.net-security.org/news.php?id=8633>

#### COMMENTS ON NETWORK ANOMALY DETECTION SYSTEM ARTICLE

Richard Bejtlich was asked to comment on Paul Proctor's new article in the August 2005 Information Security magazine, titled A Safe Bet?.  
<http://www.net-security.org/news.php?id=8634>

#### EYE-WITNESS ACCOUNT OF A GLOBAL VIRUS OUTBREAK

On Sunday the 14th we found a new virus around noon...  
<http://www.net-security.org/news.php?id=8635>

#### QUESTIONS SURROUND SMARTPHONE SECURITY

Wireless vendors are rolling out a new generation of handheld computers called smartphones for corporate users, but many network executives say they won't consider them until the means to manage and secure them are clear.  
<http://www.net-security.org/news.php?id=8636>

#### HACKERS ROB ONLINE GAMERS

Game cheating reaches a new low.  
<http://www.net-security.org/news.php?id=8637>

#### CYBERCRIME FLOURISHING IN RUSSIA, ROMANIA

Romania, along with Russia, is a hotbed of computer crime.  
<http://www.net-security.org/news.php?id=8638>

#### NET ACCESS SECURITY PLANS SOW CONFUSION

The worms that threatened Windows computers last week made clear once again that vulnerable desktops and laptops pose a serious threat.  
<http://www.net-security.org/news.php?id=8639>

#### VERITAS USERS CRY FOUL OVER SECURITY INFO

Veritas may have been taken over by security giant Symantec, but end users have been left wanting better notification in the wake of a critical vulnerability with its backup software.  
<http://www.net-security.org/news.php?id=8640>

#### FBI USES CYBER LAB TO CATCH SEXUAL PREDATORS

The New Haven-based lab is also used to investigate more sophisticated computer crimes, including Internet and credit card fraud, identity and intellectual property theft, and hacking.

<http://www.net-security.org/news.php?id=8641>

#### WIRELESS WIRETAPPING

A Federal Communications Commission (FCC) announced earlier this month that it intends to expand a mid-1990s ruling that allows law enforcement officers to wiretap conventional phone lines.

<http://www.net-security.org/news.php?id=8642>

#### INTELLECTUAL PROPERTY IS FOCUS AT NEW JOB

Our security manager starts a new position with a mandate to keep company IP from walking out the door.

<http://www.net-security.org/news.php?id=8643>

#### BEWARE AND BE AWARE OF ROOTKITS

Attackers are increasingly turning to stealthy rootkits to keep anti-virus vendors from detecting and deleting malicious worms or Trojan horses, a Russian security firm said Monday.

<http://www.net-security.org/news.php?id=8644>

#### ID THEFT SPYWARE SCAM UNCOVERED

Thousands of computer users have been caught out by a huge ID theft ring.

<http://www.net-security.org/news.php?id=8645>

#### US AIR FORCE SCRAMBLES AFTER PRIVACY BREACH

The US Air Force has been forced to notify more than 33,000 airmen that their personal details might have been exposed following the discovery of a computer security breach.

<http://www.net-security.org/news.php?id=8646>

#### INFORMATION SECURITY IN CAMPUS AND OPEN ENVIRONMENTS

This article is geared towards techies at libraries and schools and will attempt to address common security problems that may pop up at these institutions. The author gears the solutions towards Open Source, freeware, and base operating system security in a Windows XP/2k environment.

<http://www.net-security.org/news.php?id=8647>

#### BEST PRACTICES FOR WIRELESS SECURITY AND MANAGEMENT

Learn best practices for deploying, managing, and securing enterprise wireless handheld fleets.

<http://www.net-security.org/news.php?id=8648>

#### EARTHLINK GOES SECURITY SHOPPING

Earthlink said that it bought the assets of anti-spyware maker Aluria Software.

<http://www.net-security.org/news.php?id=8649>

#### SUN KICKS OFF OPEN DRM PROJECT

Open digital rights technology aimed at furthering digital content.

<http://www.net-security.org/news.php?id=8650>

#### LEGAL DISASSEMBLY

When Michael Lynn went to give a presentation at Black Hat, little did he know he would ignite a legal firestorm questioning whether even the act of looking for security vulnerabilities violates the law.

<http://www.net-security.org/news.php?id=8651>

#### 'ETHICAL HACKERS' RECRUITED

A new generation of "ethical hackers" are to be trained in Wales to test and protect the world's computer security systems.

<http://www.net-security.org/news.php?id=8652>

#### MALICIOUS HACKERS TURN ON EACH OTHER

In the early days of computer attacks, when bright teens could bring down corporate systems, the point was often to trumpet a malicious hacker's success. No longer.

<http://www.net-security.org/news.php?id=8653>

#### CRIMEWARE EPIDEMIC SPREADING FAST

Epic battle shaping up between phishers and counter-phishers.

<http://www.net-security.org/news.php?id=8654>

#### US TOPS POLL OF SPYWARE PURVEYORS

Spyware purveyors are expanding their distribution channels and adopting new tactics in a bid to cash-in by infesting more PCs with parasitic malware.

<http://www.net-security.org/news.php?id=8655>

#### SARBANES-OXLEY SEEN AS BIGGEST IT TIME WASTER

Deployment of unproven technologies also ranked as potential waste of time in IBM user group poll.

<http://www.net-security.org/news.php?id=8656>

#### SPYWARE PLAGUE GOES CORPORATE

20 per cent increase in incidents during the last quarter.

<http://www.net-security.org/news.php?id=8657>

#### IDENTITY MANAGEMENT ARCHITECTURES AND DIGITAL IDENTITY

After some analysis, you've decided that your company needs to beef up its digital identity infrastructure.

<http://www.net-security.org/news.php?id=8658>

#### CA PATCHES SECURITY FLAWS IN MULTIPLE PRODUCTS

Computer Associates [CA] has issued patches to fix security flaws involving its Message Queuing software that affect many of its products.

<http://www.net-security.org/news.php?id=8659>

#### IDEAL-TO-REALIZED SECURITY ASSURANCE IN CRYPTOGRAPHIC KEYS (PART 2)

In the final installment of this two-part series, we'll cover two closely related collision attacks - the birthday attack and the meet-in-the-middle attack.

<http://www.net-security.org/news.php?id=8660>

#### ADVANCED VULNERABILITY MANAGEMENT

When security administrators think about vulnerability management, they think about the cool tools at their disposal. But running scans does not make for a good vulnerability management process.

<http://www.net-security.org/news.php?id=8661>

#### A LAYERED APPROACH TO NETWORK SECURITY

Fresh off a company conference call where the primary topic was this week's Windows Plug and Play worm, Arun DeSouza was asked for his thoughts on this most recent major attack on the operating system.

<http://www.net-security.org/news.php?id=8662>

#### NOT ALL SECURITY PROS ARE EQUAL

Experts warn that organizations should look for a lot more than certifications before allowing someone to protect their corporate assets.

<http://www.net-security.org/news.php?id=8663>

#### "DONNIE BRASCO" UNVEILS NEW SECURITY CAMERAS

The retired undercover FBI agent who infiltrated the Bonanno Crime Family will unveil one of the latest tools in the arsenal of homeland security products Wednesday.

<http://www.net-security.org/news.php?id=8664>

#### CISCO PATCHES IDS SOFTWARE, SENSORS AGAINST SPOOFING

A vulnerability in Cisco's security monitors could let attackers spoof the network giant's intrusion detection software and sensors, the company reveals in multiple security advisories.

<http://www.net-security.org/news.php?id=8665>

#### MICROSOFT FIND SPAM BILL HARD TO SWALLOW

The US executive charged with leading Microsoft's global drive against spam and phishing frauds paid a flying visit to Wellington last week to try to talk the Government out of passing its proposed anti-spam bill in its current form.

<http://www.net-security.org/news.php?id=8666>

#### BANKS ABANDONING SSL ON HOME PAGE LOG-INS

Some of the biggest banks have abandoned the practice of posting their online account log-in screens on SSL-protected pages in an effort to boost page response time.

<http://www.net-security.org/news.php?id=8667>

#### ADVICE ON ASSESSING YOUR IT SECURITY POSTURE

Most people will agree that Information Technology (IT) is changing or altering business processes and work environments at a dizzying pace. Unfortunately for those responsible for maintaining the security posture of these processes and environments, security changes faster.

<http://www.net-security.org/news.php?id=8668>

#### THEY SPY WITH THEIR MALICIOUS EYE

Spyware are programs that monitor user activity and subsequently transmit user information to remote servers.

<http://www.net-security.org/news.php?id=8669>

#### VOIP EMERGING AS NEXT SPAM ENTRYWAY

The challenge in building VoIP anti-spam tools is finding algorithms that can determine if calls are generated by humans or machines.

<http://www.net-security.org/news.php?id=8670>

#### SPYWARE EYES BIGGER BUCKS

Spyware is getting more dangerous and has become a greater threat for the enterprise, according to the latest quarterly state of spyware report from Webroot Software.

<http://www.net-security.org/news.php?id=8671>

#### ZOTOB WORMS CAN AFFECT XP COMPUTERS

Microsoft admitted that the Zotob worm and similar worms could also affect certain Windows XP computers in a security advisory issued on Tuesday.

<http://www.net-security.org/news.php?id=8672>

#### PHISHERS AND SECURITY FIRMS IN MALWARE 'ARMS RACE'

Conventional phishing attacks launched via spam messages are becoming eclipsed by sophisticated malware.

<http://www.net-security.org/news.php?id=8673>

#### WHY YOU NEED TO ADD "PROTECT DOMAIN NAME" TO THE SECURITY CHECKLIST

Domain name hijacking broadly refers to acts where a registered domain name is misused or stolen from the rightful name holder.

<http://www.net-security.org/news.php?id=8674>

#### THREE BURNING IT SECURITY ISSUES

Jay Heiser, conference co-chairman and Gartner vice-president, shares his insight on three burning IT security issues ahead of the Gartner IT Security Summit 2005.

<http://www.net-security.org/news.php?id=8675>

#### ENSURING APPS SECURITY FROM THE GET-GO

Closing the gap between developers and users is the first step toward making sure applications are secure.

<http://www.net-security.org/news.php?id=8676>

#### MICROSOFT VOWS TO PLAY NICE WITH SECURITY CHIP

Windows Vista eases privacy concerns over security chip.

<http://www.net-security.org/news.php?id=8677>

#### DEVELOPING SECURE SOFTWARE IS A MANAGEMENT ISSUE

When security vulnerabilities in a vendor's software are exploited, significant costs are faced by the vendor and its software users.

<http://www.net-security.org/news.php?id=8678>

#### IS THE REAL ID ACT THE REAL DEAL FOR ID SECURITY?

Is the Real ID Act a step toward a safer society or a threat to the liberties we hold dear?

<http://www.net-security.org/news.php?id=8679>

#### IN ANY LANGUAGE, IM WORM A PAIN

A new "multiple language" smart worm is spreading through Instant Messaging, checking system settings of IM clients and then sending messages in the appropriate language.

<http://www.net-security.org/news.php?id=8680>

#### GLOBAL PHISHING OUTBREAK HITS FOUR BANKS

Thieves get busy.

<http://www.net-security.org/news.php?id=8681>

#### AN INTRODUCTION IP SPOOFING

IP spoofing is a technique used to gain unauthorized access to computers.

<http://www.net-security.org/news.php?id=8682>

#### DETECT WEAK NETWORK PASSWORDS WITH HYDRA

Hydra is a network login cracker for more than 30 network services.

<http://www.net-security.org/news.php?id=8683>

#### CONSISTENT VOICE NEEDED ON SECURITY ISSUES, SAYS TECHNET

Zannetos seeks to articulate industry views to Congress.

<http://www.net-security.org/news.php?id=8684>

#### THE GIMP THREATENS PIN NUMBER SECURITY

This must be a first: Linux image manipulation programme the GIMP has been fingered as a possible tool in uncovering people's PIN numbers as sent through the post.

<http://www.net-security.org/news.php?id=8685>

#### PROTECTING YOUR EMAIL NETWORK WITH A LAYERED SECURITY ARCHITECTURE

In this webcast Sendmail will explain the four basic layers of email security architecture, typical security gaps in complex email networks and how to fix them, and best practices to improve email security in a multi-vendor environment.

<http://www.net-security.org/news.php?id=8686>

#### MICROSOFT TO RELEASE ANTIPHISHING TOOL BEFORE IE 7

Phishing filter will be available for IE 6 running on Windows XP with SP2 installed.

<http://www.net-security.org/news.php?id=8687>

#### CYBERCROOKS LURE CITIZENS INTO INTERNATIONAL CRIME

Consumer-level financial fraud has been around since thieves first thought to filch blank checks from mailboxes.

<http://www.net-security.org/news.php?id=8688>

#### LIVE ON TELEVISION, A WORM ATTACKS

"There were some high-profile customers that were attacked by the worm," said Debby Fry Wilson, director of Microsoft's Security Response Center.

<http://www.net-security.org/news.php?id=8689>

#### DISTANCE DETECTION MAY HELP SECURE WI-FI

Technology could prevent unauthorised access.

<http://www.net-security.org/news.php?id=8690>

#### THREE INDICTED IN U.S. SPAM CRACKDOWN

The accused could face long prison sentences if convicted by a grand jury in Arizona.

<http://www.net-security.org/news.php?id=8691>

#### CHINESE WEBSITES ATTACK US DEFENCE NETWORKS

Websites in China are being used to launch attacks on US Defence Department computer networks and other US agencies, according to reports in the Washington Post.

\*\*\*\*\* Master of Science in Information Security \*\*\*\*\*

-----  
Earn your Master of Science in Information Security online  
from Norwich University. The National Security Agency has  
designated Norwich a center of Academic Excellence in  
Information Security. The program offers a solid education  
in the management of information assurance, and the unique  
case study method means you will gain consulting experience  
as you progress through the program. Using today's e-Learning  
technology, you can earn this esteemed degree, without  
disrupting your career or home life.
