

HNS Newsletter
Issue 315 - 15.05.2006.
<http://net-security.org>

This is a newsletter delivered to you by Help Net Security. It covers weekly roundups of security events that were in the news the past week.

** Free Download -- Affordable Security Information Management **

New Activeworx Security Center v3 collects security event logs from all of your security devices and vendors to provide a single integrated view. ASC includes real-time correlation and analysis, immediate alerts, built-in reports for compliance and administration along with forensics tools. ASC's intuitive design is both easy to install and easy to use offering you mission-critical security tools at an affordable price. Download a Free Evaluation and be up and running in under 30 minutes.

[Security news]

MALAYSIA WELCOMES THE WORLD IN FIGHT AGAINST CYBER-TERRORISM
IMPACT is its name, and making an impact in the battle against cyber-terrorism is its mission. The Malaysian initiative seeks to bring together governments and the international private sector to deal with increasing threats in cyberspace.
<http://www.net-security.org/news.php?id=11105>

'SPAMFORD' WALLACE FINED \$4M OVER SPYWARE BIZ
Sanford 'Spamford' Wallace has been fined \$4m and ordered to restrict the deceptive spyware practices of his company, Smartbot.Net, after losing a lawsuit brought by the US Federal Trade Commission.
<http://www.net-security.org/news.php?id=11106>

NIST ISSUES DRAFT GUIDANCE FOR IT SECURITY METRICS
The National Institute of Standards and Technology has released the initial public draft of its Special Publication 800-80 titled Guide for Developing Performance Metrics for Information Security.

<http://www.net-security.org/news.php?id=11107>

STRACE - TROUBLESHOOTING TOOL FOR ALL LINUX USERS

Many times I have come across seemingly hopeless situations where a program when compiled and installed in GNU/Linux just fails to run.

<http://www.net-security.org/news.php?id=11108>

DOGS TRAINED TO SNIFF OUT FAKE DVDS

Two black Labradors have become the world's first dogs to be trained to search for counterfeit DVDs, a trade organisation have said.

<http://www.net-security.org/news.php?id=11109>

MICROSOFT PREPS CRITICAL WINDOWS, EXCHANGE PATCHES

Microsoft on Tuesday plans to release three patches for several of its software products, including at least two critical updates for known vulnerabilities, according to the company's monthly security update.

<http://www.net-security.org/news.php?id=11110>

PIRACY ON THE OPEN SEAS

Advocates of non-proprietary software find the ultimate comeback for Microsoft.

<http://www.net-security.org/news.php?id=11111>

DATA BREACH NOTIFICATION LAW UNLIKELY THIS YEAR

Lawmakers have introduced more than 10 bills dealing with data breach notification.

<http://www.net-security.org/news.php?id=11112>

USE RFID FOR PEOPLE TRACKING

This article introduces one of the most popular scenarios for Radio Frequency Identification (RFID) technology - people tracking.

<http://www.net-security.org/news.php?id=11113>

DIAMONDS TAKE A QUANTUM LEAP TO IT SECURITY

Diamond-based devices could be helping IT managers detect network snooping and prevent information theft as anti-eavesdropping technology from the University of Melbourne gets venture funding.

<http://www.net-security.org/news.php?id=11114>

SOFTWARE SECURITY ANALYSIS WITH BOGOSEC

BogoSec is a source code metric tool that wraps multiple source code scanners, invokes them on its target code, and produces a final score that approximates the security quality of the code.

<http://www.net-security.org/news.php?id=11115>

HACKER HITS TORONTO TRANSIT MESSAGE SYSTEM

With a \$25 remote, hacker was able to reprogram scrolling LED signs on local trains.

<http://www.net-security.org/news.php?id=11116>

SERVER MONITORING WITH MUNIN AND MONIT

This article describes how to monitor your server with munin and monit.

<http://www.net-security.org/news.php?id=11117>

DEFEAT SPAM WITH SPAMBAYES

Spam email is the plague of the 21st century; SpamBayes is its cure. This client-side application analyzes all incoming email messages and automatically sorts out those that are unwanted.

<http://www.net-security.org/news.php?id=11118>

GONE IN 20 MINUTES: USING LAPTOPS TO STEAL CARS

High-tech thieves are becoming increasingly savvy when it comes to stealing automobiles equipped with keyless entry and ignition systems.

<http://www.net-security.org/news.php?id=11119>

LITTLE SNITCH 1.2.2 - ACTS AS A GREAT INFORMANT

When it comes to your workstation, one of the things you certainly want to be aware of is what's happening with your outgoing network connections.

<http://www.net-security.org/news.php?id=11120>

HOW COMPANIES CAN MANAGE STRONG AUTHENTICATION INTELLIGENTLY

The most recent phishing attacks have shown how professional internet fraudsters steal passwords and identities. To exclude the growing security risk, experts recommend dual-factor authentication – also known as “strong” authentication. The use of security systems for strong authentication practically excludes the risk of passwords being deliberately stolen or cracked.

<http://www.net-security.org/news.php?id=11121>

E-MAIL IS EXHIBIT A

As more legal cases revolve around E-mail evidence, companies are turning to new tools to better monitor and manage E-mail usage.

<http://www.net-security.org/news.php?id=11122>

HOODWINKING THE CENSORS

Three computer geeks at the U of T are renowned developers of anti-censorship software, including a program out this month that could allow people to outwit the world's most repressive regimes.

<http://www.net-security.org/news.php?id=11123>

UK HACKERS CONDEMN MCKINNON TRIAL

The UK's hacking community has strongly criticised how fellow hacker Gary McKinnon has been treated.

<http://www.net-security.org/news.php?id=11124>

SOURCEFIRE'S SNORT HAS A REAL NOSE FOR INTRUDERS

Open source intrusion detection and prevention technology is being used to bolster security in several products; new features could make

it even more popular.

<http://www.net-security.org/news.php?id=11125>

A TRUE EBAY CRIME STORY

It was the scandal that rocked the internet. A seemingly worthless painting sold on eBay in early 2000 for \$135,805 -- all because buyers believed it might be the work of the 20th-century abstract painter Richard Diebenkorn.

<http://www.net-security.org/news.php?id=11126>

ETHICS, HACKING, AND RELIGION

What do ethics, hacking, and religion all have to do with each other? Seth Fogie takes a look at how these three subjects are interwoven.

<http://www.net-security.org/news.php?id=11127>

SURVEY: SECURITY HOT, PAYCHECKS NOT

A new Dark Reading survey suggests that the people riding the security wave aren't exactly raking in the dough.

<http://www.net-security.org/news.php?id=11128>

COMPLIANCE AND SECURITY

There's a tug-of-war between satisfying regulatory requirements and handling IT security, says survey.

<http://www.net-security.org/news.php?id=11129>

BOT HERDER PLEADS GUILTY TO HOSPITAL HACK

A 20-year-old Californian pleaded guilty last week to causing damage to computers in Seattle's Northwest Hospital when his bot software compromised systems in the healthcare facility.

<http://www.net-security.org/news.php?id=11130>

TROJAN TARGETS WORLD OF WARCRAFT GAMERS

According to Symantec, a new trojan called "Infostealer.Wowcraft" is making the rounds. Unlike many malicious programs, however, it makes no attempt to steal your credit card information.

<http://www.net-security.org/news.php?id=11131>

CISCO'S UNIFIED WIRELESS NETWORK

Network Computing tested elements of Cisco's Unified Wireless Network and were impressed with not only how well it has assimilated Airespace's technology but also its integration across the entire enterprise network.

<http://www.net-security.org/news.php?id=11132>

RANSOMWARE RISING

A relatively new form of malware may be starting to gain popularity among virus writers and Internet scam artists.

<http://www.net-security.org/news.php?id=11133>

F-SECURE LATEST S60 SMARTPHONE PLATFORM

Security firm F-Secure has updated its mobile anti-virus software to

support the latest version of the S60 interface, 3rd Edition, which runs on the newest version of the Symbian OS, 9.1.
<http://www.net-security.org/news.php?id=11134>

HACKERS EYEING INTERNET TELEPHONY

Australian businesses enjoying voice over internet protocol telephony could have less than 12 months before their networks become a target of malicious activity.
<http://www.net-security.org/news.php?id=11135>

SECURITY, THE MICROSOFT WAY

Microsoft has every intention of working with networking giant Cisco on network access control protocols in its next version of Windows, the head of Microsoft's security technology unit said at an event here Monday.
<http://www.net-security.org/news.php?id=11136>

VISTA'S SECURITY WILL BE PAIN IN THE NECK

Windows Vista's new security features will so annoy users that Microsoft won't meet its goal of 400 million copies in two years, a research analyst said Monday.
<http://www.net-security.org/news.php?id=11137>

HACKER GETS LONGEST EVER SENTENCE

A 21 year-old hacker has been sent to jail for almost five years for spreading malware that took control of hundreds of thousands of zombie computers.
<http://www.net-security.org/news.php?id=11138>

WEBROOT UNCOVERS THOUSANDS OF STOLEN IDENTITIES

FBI investigates as banking Trojan runs wild, claiming victims in 125 countries.
<http://www.net-security.org/news.php?id=11139>

MALICIOUS CRYPTOGRAPHY, PART 1

Cryptology is everywhere these days. Most users make good use of it even if they do not know they are using cryptographic primitives from day to day.
<http://www.net-security.org/news.php?id=11140>

CISCO, T-SYSTEMS TAP RFID FOR LOGISTICS, RETAIL

Companies to jointly build RFID systems.
<http://www.net-security.org/news.php?id=11141>

SPOT A BUG, GO TO JAIL

A new federal prosecution again raises the issue of whether computer security experts must fear prison time for investigating and reporting vulnerabilities.
<http://www.net-security.org/news.php?id=11142>

PRIVACY COMPLIANCE AND IDENTITY SECURITY WINNERS

The Office of the Privacy Commissioner (OPC) has been allocated an additional \$6.5 billion over four years to assist Australian businesses to comply with the Privacy Act.
<http://www.net-security.org/news.php?id=11143>

EX-NSA CHIEF ASSAILS BUSH TAPS

Former National Security Agency director Bobby Ray Inman lashed out at the Bush administration Monday night over its continued use of warrantless domestic wiretaps, making him one of the highest-ranking former intelligence officials to criticize the program in public, analysts say.
<http://www.net-security.org/news.php?id=11144>

USC HACKER CASE PIVOTAL TO FUTURE WEB SECURITY

Eric McCarty claims he hacked into the University of Southern California's computer system to warn of its vulnerabilities. The case could be a watershed event in the area of security research.
<http://www.net-security.org/news.php?id=11145>

THE ILLUSION OF INVULNERABILITY

On Saturday "Linuxtag 2006" closed in Wiesbaden (Germany). According to the organisers, it's Europe's biggest Linux Expo.
<http://www.net-security.org/news.php?id=11146>

FTC SETTLES DATA SECURITY CASE

Settlement calls for real-estate firm NHC to improve its information security practices and submit to audits.
<http://www.net-security.org/news.php?id=11147>

HARTFORD SETTLES FRAUD PROBE FOR \$20M

New York Attorney General Eliot Spitzer and Connecticut Attorney General Richard Blumenthal investigated claims into the marketing of retirement plans after tips that the company was making "secret payments" to insurance brokers to recommend Hartford group annuities to pension plans, Spitzer said.
<http://www.net-security.org/news.php?id=11148>

PETROL-PUMP THIEVES GO HI-TECH

Tech-savvy thieves have worked out a means to obtain free petrol after hacking into electronically-controlled petrol pumps, according to US reports.
<http://www.net-security.org/news.php?id=11149>

HACKER'S WORK LINGERS YEARS AFTER HIS ARREST

Two years after the arrest of a noted hacker, his creation remains at the top of the virus charts, a security company said Wednesday, proving just how long an Internet affliction can last.
<http://www.net-security.org/news.php?id=11150>

UK HACKER LOSES EXTRADITION APPEAL

Prosecutors appear to have won their appeal to extradite UK computer hacker Gary McKinnon to the United States, where he could face trial

for hacking into military computer systems.
<http://www.net-security.org/news.php?id=11151>

INDIA TO SET UP DATA SECURITY WATCHDOG
Organization will focus on data security and privacy practices in India's call center and BPO industries.
<http://www.net-security.org/news.php?id=11152>

HACKER FACES WRATH AFTER POINTING OUT SECURITY FLAW
It's called Section 1030, and it's a federal law written to prevent unauthorized access to data on computers.
<http://www.net-security.org/news.php?id=11153>

PARASITIC IRCBOT IN THE WILD
Statistics show that the contemporary malware landscape is, in the main, somehow connected with Trojans: Backdoors, Trojan-Downloaders, Trojan-Droppers, etc.
<http://www.net-security.org/news.php?id=11154>

TOTAL FAILURE OF INFORMATION SECURITY
A long-overdue wake up call for the information security community.
<http://www.net-security.org/news.php?id=11155>

HOW A PSYCHOTHERAPIST FELL FOR A NIGERIAN E-MAIL SCAM
Every swindle is driven by a desire for easy money; it's the one thing the swindler and the swindled have in common. Advance-fee fraud is an especially durable con.
<http://www.net-security.org/news.php?id=11156>

LAWS WON'T STOP CYBERCRIMINALS, SAY EXPERTS
Instead of waiting for Congress to act, businesses should demand more secure IT products, one leading security expert said.
<http://www.net-security.org/news.php?id=11157>

VOIP AND SECURITY TOP ENTERPRISE IT PRIORITY LISTS
Convergence and security top the list of "hot" technologies that will have the greatest impact in 2006, according to the results of a new poll.
<http://www.net-security.org/news.php?id=11158>

FEDS WANT HACKER'S GENETIC CODE
Hacker Adrian Lamo is in trouble again, this time for failing to give the federal government his DNA.
<http://www.net-security.org/news.php?id=11159>

VISTA BAD NEWS FOR ANTI-SPYWARE MARKET?
Security firms may need to up their game.
<http://www.net-security.org/news.php?id=11160>

NEW SECURITY GLITCH FOUND IN DIEBOLD SYSTEM

Officials say machines have 'dangerous' holes.
<http://www.net-security.org/news.php?id=11161>

NOKIA INJECTS SECURITY SERVICES INTO NEW APPLIANCE
The Nokia IP390 Firewall/VPN includes unified threat management features.
<http://www.net-security.org/news.php?id=11162>

DOJ DROPS WIRETAP INVESTIGATION
The government has abruptly ended an inquiry into the warrantless eavesdropping program because the National Security Agency refused to grant Justice Department lawyers security clearance.
<http://www.net-security.org/news.php?id=11163>

PACE STEPPED UP ON IT SECURITY
Raising IT security as a board-level issue seems to have paid off.
<http://www.net-security.org/news.php?id=11164>

HACKERS SLAM MCKINNON EXTRADITION RULING
The prosecution of alleged Pentagon uber-hacker Gary McKinnon shows that the US is failing to take even basic precautions to protect its military systems, according to a reformed computer hacker accused of similar crimes 10 years ago.
<http://www.net-security.org/news.php?id=11165>

ROOTKIT-SPREADING SPYWARE SHOP SHUTS DOWN
ContextPlus, which spread spyware and adware, including software that hijacked searches and programs that leveled systems with pop-up ads, has posted a message on its Web site saying it's out of the business.
<http://www.net-security.org/news.php?id=11166>

DEVALUING THE CISSP
Is the CISSP going the way of the Dodo?
<http://www.net-security.org/news.php?id=11167>

REPORT: U.S. SPIES ON EVERYONE
Congressional Democrats demanded answers from the Bush administration Thursday about a report that the government secretly collected records of ordinary Americans' phone calls to build a database of every call made within the country.
<http://www.net-security.org/news.php?id=11168>

INDIAN IT FIRMS LOOK FOR DATA SECURITY CHIEF
Employee database ain't enough.
<http://www.net-security.org/news.php?id=11169>

CA EXTENDS TAPE ENCRYPTION TO MAINFRAMES
CA's BrightStor Tape Encryption tool encrypts data as it is written to standard label z/OS tapes, without requiring changes to job control language or apps, it said.
<http://www.net-security.org/news.php?id=11170>

WHY PHISHERS DON'T FEAR SSL TOOLBARS

Do anti-phishing toolbars in web browsers stop phishing attacks? No. Can they reduce them, even for savvy users? Yes. Are they all equally effective? No.

<http://www.net-security.org/news.php?id=11171>

CAMPFIRE STORIES OF SCADA INSECURITY

As government and industry start taking the cybersecurity of industrial control systems more seriously, shocking and funny stories are emerging.

<http://www.net-security.org/news.php?id=11172>

BALLMER TALKS UP BULLET PROOF VISTA SECURITY

But as viruses are eliminated, phishing is set to increase, Microsoft chief cautions.

<http://www.net-security.org/news.php?id=11173>

THE QUEST FOR RING 0

ederico Biancuzzi interviews French researcher Loïc Dufлот to learn about the System Management Mode attack, how to mitigate it, what hardware is vulnerable, and why we should be concerned with recent X Server bugs.

<http://www.net-security.org/news.php?id=11174>

PRISON FOR PRIVACY CROOKS

Information commissioner Richard Thomas has called for prison sentences of up to two years for the illegal buying and selling of personal information.

<http://www.net-security.org/news.php?id=11175>

SECURITY ANALYZERS TARGET VULNERABILITIES

Analyzers uses audit trails and remediation scripts to find and fix vulnerabilities before systems are deployed.

<http://www.net-security.org/news.php?id=11176>

BLASTING AWAY SECURITY MYTHS

Rethinking conventional wisdom can be a smart way to bolster security.

<http://www.net-security.org/news.php?id=11177>

BALLMER TALKS LINUX, SECURITY, SAAS

Microsoft CEO Steve Ballmer on Wednesday pegged three key areas of focus for Microsoft this year: competing with Linux in the high-end server market, software as a service (SaaS) and Internet advertising.

<http://www.net-security.org/news.php?id=11178>

THE CONMAN, IT SEEMS, IS AN ENDANGERED SPECIES

Gone is the sharp-suited, debonair, sliver-tongued fraudster who'd charm his way to a personal fortune.

<http://www.net-security.org/news.php?id=11179>

HOW COMPANIES CAN MANAGE STRONG AUTHENTICATION INTELLIGENTLY

The most recent phishing attacks have shown how professional internet fraudsters steal passwords and identities. To exclude the growing security risk, experts recommend dual-factor authentication – also known as “strong” authentication. The use of security systems for strong authentication practically excludes the risk of passwords being deliberately stolen or cracked.
