**WI-FI GUIDANCE BECOMES LAW IN CALIFORNIA**

California legislators have passed a law which will force makers of wireless internet equipment to include guidance on keeping data secure on wireless connections. The law now awaits signature by Governor Arnold Schwarzenegger.

<http://www.net-security.org/news.php?id=12178>

#### MICROSOFT PREPS SEVEN JULY SECURITY PATCHES

Microsoft plans to release seven security patches as part of its monthly security update on 11 July.

<http://www.net-security.org/news.php?id=12179>

#### QUANTUM CRYPTOGRAPHY DEMO IS A SECURITY FIRST

Northwestern University researchers have joined forces with BBN Technologies to demonstrate what they are calling the first truly quantum cryptographic data network.

<http://www.net-security.org/news.php?id=12180>

#### 'ADWARE' ATTACK ON PRIVACY TOOL

Software that claimed to provide increased privacy whilst surfing the web has been criticised by computer experts and the blogging community.

<http://www.net-security.org/news.php?id=12181>

#### LIST OF DATA BREACH NOTICES LENGTHENING

AT&T, Sovereign and Verizon Wireless among latest to report security snafus.

<http://www.net-security.org/news.php?id=12182>

#### RIAA DOESN'T LIKE INDEPENDENT EXPERTS

For the past few years, the Recording Industry Association of America has battled file sharing by threatening those it suspects of illegally downloading music with lawsuits.

<http://www.net-security.org/news.php?id=12183>

#### GOOGLE DEVELOPING EAVESDROPPING SOFTWARE

The first thing that came out of our mouths when we heard that Google is working on a system that listens to what's on your TV playing in the background, and then serves you relevant adverts, was "that's cool, but dangerous".

<http://www.net-security.org/news.php?id=12184>

#### CHECK POINT DEFIANT FOLLOWING DEPARTURES

Security giant claims loss of high-profile staff will not affect growth.

<http://www.net-security.org/news.php?id=12185>

#### VIRUS THREAT NOT LIMITED TO AMD PLATFORMS

AMD has been quick to deny press reports that its processors are exclusively targeted by a proof-of-concept virus identified last week in a blog posting by security firm Symantec.

<http://www.net-security.org/news.php?id=12186>

#### JOHNNY CACHE BREAKS SILENCE ON APPLE WI-FI EXPLOIT

Jon Ellch -- aka Johnny Cache -- was one of the presenters of the now infamous "faux disclosure" at Black Hat and DEFCON last month.

<http://www.net-security.org/news.php?id=12187>

#### QUANTUM CRYPTOGRAPHY DEMO IS A SECURITY FIRST

Northwestern University researchers have joined forces with BBN Technologies to demonstrate what they are calling the first truly quantum cryptographic data network.

<http://www.net-security.org/news.php?id=12188>

#### USED CELL PHONES, PDAS ARE TREASURE TROVE OF CONFIDENTIAL DATA

Most used cell phones and PDAs contain personal or business information that their former owners never got around to deleting.

<http://www.net-security.org/news.php?id=12189>

#### YEAR-LONG HUNT FAILS TO FIND IT SECURITY CHIEF FOR NHS

Connecting for Health has failed to appoint a senior security director to oversee IT security across the NHS National Programme for IT despite a year-long search.

<http://www.net-security.org/news.php?id=12190>

#### A THIRD OF DODGY EMAILS ARE PHISHING ATTACKS

The lazy, hazy days of summer witnessed a continuation of the ongoing shift from large-scale virus outbreaks toward phishing and more targeted attacks, according to a study by net security firm MessageLabs.

<http://www.net-security.org/news.php?id=12191>

### THE CHANGING FACE OF DISASTER RECOVERY

Disaster recovery and remote office replication are increasingly becoming top-of-mind issues for IT professionals. It is ironic that tape, the most operationally unpredictable and error-prone media for backup and recovery, over time has become the primary media deployed in enterprise backup and disaster recovery implementations. The Gartner Group estimates that one-in-ten recovery images on tape is actually unrecoverable.

<http://www.net-security.org/news.php?id=12192>

### SMS PHISHING ATTACKS HIT MOBILE USERS

A security firm has warned that malware writers are attempting to fool mobile phone users with bogus text messages.

<http://www.net-security.org/news.php?id=12193>

### SEPT. 11TH SPAWNED TECH-SECURITY MARKET

During the Cold War, Canada's National Optics Institute developed a system to detect which type of enemy tank or fighter jet was approaching.

<http://www.net-security.org/news.php?id=12194>

### HACKERS HIJACK UK.GOV WIKI

An attempt by a UK cabinet minister to discuss proposed environment policy using a wiki has ended in embarrassment after pranksters made merry at the expense of the Department for Environment Food and Rural Affairs' (Defra).

<http://www.net-security.org/news.php?id=12195>

### BOI TO REFUND PHISHING VICTIMS

Bank of Ireland has agreed to compensate victims of a recent phishing scam, backtracking from its earlier position.

<http://www.net-security.org/news.php?id=12196>

### FINGERPRINTING WIFI COULD SECURE MAC ADDRESSES

MAC address spoofing on wireless networks could come to an end with a new security technique that would allow network administrators to see a unique WiFi fingerprints for each device.

<http://www.net-security.org/news.php?id=12197>

#### IBM PUTS NATIVE DATA ENCRYPTION ON TAPE DRIVES

IBM also announced it will be offering encryption key management software.

<http://www.net-security.org/news.php?id=12198>

#### HOW TO: BUILDING A BLUESNIPER RIFLE

Watching the news these past few weeks, you would think that hackers have taken over our cellphones.

<http://www.net-security.org/news.php?id=12199>

#### NEW WORD FLAW BEING USED IN ATTACKS

Symantec warns that an unpatched flaw in the Windows 2000 version of Microsoft Office 2000 is being used by attackers to run unauthorized software on a victim's computer.

<http://www.net-security.org/news.php?id=12200>

#### PHISHING ATTACK TARGETS SPANISH MOBILES

A mass mailing worm that attempts to trick users into downloading malware in response to bogus text messages is spreading in Spain.

<http://www.net-security.org/news.php?id=12201>

#### 10 TIPS TO SECURE YOUR SMALL BUSINESS NETWORK

They offer big security payoffs without spending a lot of time and money.

<http://www.net-security.org/news.php?id=12202>

#### NIST OFFERS SECURE WEB SERVICES TIPS

The National Institute of Standards and Technology has released for comment a draft of Guide to Secure Web Services.

<http://www.net-security.org/news.php?id=12203>

#### NEW APACHE COMPLIANCE AUDIT POLICY

Tenable's research team has released a Nessus 3 audit policy file which can be used to audit the configuration of Apache web servers running on various UNIX platforms.

<http://www.net-security.org/news.php?id=12204>

### LOCALISED ATTACKS ADD TO PHISHING INCREASE

More targets also contribute to rise in malware.

<http://www.net-security.org/news.php?id=12205>

### PUMP-AND-DUMP SPAMMERS SHIFT TACTICS

Pump-and-dump spammers are refining their tactics and marketing techniques in an attempt to drum up new business.

<http://www.net-security.org/news.php?id=12206>

### HP'S PRETEXT TO SPY

Authorized by Hewlett-Packard's chairwoman Patricia Dunn to find a director who leaked the company's plans to the media, private investigators used pretexting.

<http://www.net-security.org/news.php?id=12207>

### MALWARE AUTHORS HUNGRY FOR PROFIT

Hackers creating increasing numbers of Trojans and bots for financial gain.

<http://www.net-security.org/news.php?id=12208>

### CISCO, MICROSOFT DEMO NETWORK SECURITY COOPERATION

Demo to be held in Boston this week.

<http://www.net-security.org/news.php?id=12209>

### SECURING A WEBSITE WITH CLIENT SSL CERTIFICATES

Let's assume that you have an Apache webserver and a website that you want VERY finite access controls on. You could do it a number of ways, right?

<http://www.net-security.org/news.php?id=12210>

### MOZILLA TAPS FORMER MICROSOFT EXECUTIVE FOR SECURITY

Strategist needed to secure open source products against online attacks.

<http://www.net-security.org/news.php?id=12211>

**REVIEW: CHECK POINT VPN-1 UTM EDGE SECURITY DEVICE**  
Check Point's VPN-1 UTM Edge is a security appliance designed to protect remote branch offices where expertise may be limited or non-existent.

<http://www.net-security.org/news.php?id=12212>

**PRIVACY FEARS SHOCK FACEBOOK**

Millions of people have flocked to social networking sites to post information about themselves and share it with friends.

<http://www.net-security.org/news.php?id=12213>

**BANK OF IRELAND AGREES TO PHISHING REFUNDS**

The Bank of Ireland has backtracked on an earlier decision and has agreed to refund victims of a phishing scam in which customers lost a total of €113,000 (£76,770).

<http://www.net-security.org/news.php?id=12214>

**ZOMBIES CRAWL OVER WIKI EXPLOITS**

Hackers are exploiting vulnerabilities in wiki software packages to establish networks of compromised computers.

<http://www.net-security.org/news.php?id=12215>

**QUICKEST PATCH EVER**

If you really want to see Microsoft scramble to patch a hole in its software, don't look to vulnerabilities that impact countless Internet Explorer users or give intruders control of thousands of Windows machines. Just crack Redmond's DRM.

<http://www.net-security.org/news.php?id=12216>

**RFID PASSPORTS RAISE SECURITY FEARS**

Information stored on RFID is at risk from skimmers, says security firm.

<http://www.net-security.org/news.php?id=12217>

**SPAMMER FIGHTING SENTENCE**

Yesterday, the Washington Post reported that the conviction of spammer Jeremy Jaynes had been upheld in a Virginia Court of Appeals.

<http://www.net-security.org/news.php?id=12218>

#### PROTECTING AGAINST EFS BASED ATTACKS

EFS uses public key cryptography that makes use of a user's account login and password pair to encrypt a private key.

<http://www.net-security.org/news.php?id=12219>

#### INTERVIEW WITH VLADIMIR KATALOV, CEO OF ELCOMSOFT

Vladimir Katalov is working in ElcomSoft from the very beginning. He created the first program the password recovery software line has started from: Advanced ZIP Password Recovery. In this interview he answers some questions related to current security threats, the protection of sensitive information at the enterprise level, and much more.

<http://www.net-security.org/news.php?id=12220>

#### HOW TO PORTSCAN YOUR COMPUTER FOR SECURITY HOLES

If you're smart and you're connected to the net, you're concerned about computer security.

<http://www.net-security.org/news.php?id=12221>

#### CONSIDERING THE CONSEQUENCES OF SHORTSIGHTED POLICY

Like many government policies across the globe, this directive was apparently drafted with a clear social goal in mind, but little understanding of the use and pace of technology.

<http://www.net-security.org/news.php?id=12222>

#### PERSONAL DATA-BACKUP OPTIONS PROLIFERATE

Network storage has not been as popular as regular hard drives, said Stephen Baker, vice president for industry analysis at NPD, because of privacy and trust issues.

<http://www.net-security.org/news.php?id=12223>

#### PHISHING BECOMES MORE LOCALISED

Banks outside US begin to be targeted.

<http://www.net-security.org/news.php?id=12224>

## SCHOOLS CAN FINGERPRINT CHILDREN WITHOUT PARENTAL CONSENT

Parents cannot prevent schools from taking their children's fingerprints, according to the Department for Education and Skills and the Information Commissioner.

<http://www.net-security.org/news.php?id=12225>

## THE DEATH OF PRIVACY

In privacy circles, a mostly forgotten incident from the end of the dot-com euphoria aptly illustrates the lack of regard most companies have toward protecting personal data, even if they make a point of promising to do so.

<http://www.net-security.org/news.php?id=12226>

## EXAMINING DEFECTS IN THE FIREFOX CODE BASE

Using Klocwork's K7 static analysis tool, I examined the large and complicated code base of the popular open source browser, Firefox.

<http://www.net-security.org/news.php?id=12227>

## RED ALERT OVER LONDON ON CREDIT CARD FRAUD MAP

London is the UK capital of credit card fraud, according to a study by online fraud prevention firm Early Warning.

<http://www.net-security.org/news.php?id=12228>

## HP DRAGNET GRABBED 9 REPORTERS

At least nine journalists were swept up in Hewlett-Packard chairman Patricia Dunn's furious search for a media leak on the company's board of directors, according to a source familiar with the matter.

<http://www.net-security.org/news.php?id=12229>

## 'WIDE OPEN' MEANS EXTRA SECURITY

There's a reason nearly every security appliance vendor uses open source tools, and it has little to do with licensing.

<http://www.net-security.org/news.php?id=12230>

## NEW VOIP THREATS TO LISTEN FOR

As the business world rapidly embraces VoIP technology for its cost savings, little heed is given to the new dangers that are introduced into our telephone networks.

<http://www.net-security.org/news.php?id=12231>

#### MALWARE SCRAMBLES TO EVADE DEFENSES

A Trojan horse program designed to compromise systems uses the Microsoft Windows' Encrypted File System to scramble its payload and evade detection, warned a researcher at security firm McAfee this week.

<http://www.net-security.org/news.php?id=12232>

#### SAN DIEGO MAN PLEADS GUILTY TO USC COMPUTER HACK

He broke into the school's network after being denied admission in 2005.

<http://www.net-security.org/news.php?id=12233>

#### EXPLORING THE RFID+ CERTIFICATION

One of the newest IT certifications to become available is that of RFID+ from CompTIA, the organization behind such certifications as A+, Network+, Security+, and many others.

<http://www.net-security.org/news.php?id=12234>

#### REVIEW: HOW PERSONAL & INTERNET SECURITY WORKS

For majority of us working in information technology, knowledge on security and privacy topics is something that we need to possess. There are hundreds, or better say it thousands, of quality books aimed toward expanding our skills, but there is not a lot of them aimed at the average Internet user which is the main target of ever-popular threats such as viruses, assorted malware and malicious attacks. Que's "How Personal & Internet Security Works" is a publication that takes a unique approach on addressing these issues.

<http://www.net-security.org/news.php?id=12235>

#### SECURITY IS SOP FOR BUSINESS

At this week's Security Standard conference in Boston - which was hosted by Network World and other IDG publications - speakers talked as much about the business of security as the technical options and details.

<http://www.net-security.org/news.php?id=12236>

## THE BOX THAT BROKE ENIGMA CODE IS REBUILT

Enthusiasts have succeeded in rebuilding a Nazi code cracking device, signaling the culmination of a 10-year project.

<http://www.net-security.org/news.php?id=12237>

## HACKERS WINNING DRM 'ARMS RACE'

Entertainment-industry executives are trying to figure out the best ways to steer consumers to legal Web content, but in the meantime the thieves are way ahead.
